**UPPER COOK INLET COMMERCIAL FISHING ANNOUNCEMENT No. 22**  
**EMERGENCY ORDER NUMBER 2-F-H-23-25**

Upper Cook Inlet Commercial Fishing Announcement No. 22 reduces legal set gillnet gear in the Northern District of Upper Cook Inlet to no more than 2 set gillnets per permit, measuring no more than 70 fathoms in aggregate length, during the regulatory fishing periods from 7:00 a.m. until 7:00 p.m. on Monday, July 28 and Thursday, July 31, 2025.

The Northern District Salmon Management Plan (5 AAC 21.358) provides the department with the option of reducing gear in the Northern District set gillnet fishery from July 20 through August 6 to conservatively manage commercial harvest of Susitna River sockeye salmon stocks. If the department determines that Susitna River sockeye salmon stocks are achieving adequate abundances, the gear restrictions may be relaxed by subsequent emergency order.

General information for all UCI commercial fisheries and specifics about harvest levels, required permits, reporting requirements, or the registration processes, can be obtained by calling the Soldotna ADF&G staff at 907-262-9368, and also found at the ADF&G UCI commercial fisheries web site. <https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareauci.main>
