SOUTHEAST ALASKA COMMERCIAL SHRIMP BEAM TRAWL FISHERY

The guideline harvest level (GHL) for the fourth commercial beam trawl shrimp fishing period beginning November 1, 2025, is 250,000 lb in District 8, in accordance with the preseason GHL advisory announcement.

Preliminary harvest for the third fishing period (September 1–October 31) in District 8 was confidential. Though not reportable due to fewer than three permits fished, this harvest was substantially below the 250,000 lb GHL. The available rollover poundage will bring the third period GHL to the upper end of the GHR at 250,000 lb. In District 8 to date, coonstripe shrimp bycatch harvest is 166 lb and spot shrimp bycatch harvest is confidential.

Harvest to date for the third fishing period in District 6 is confidential.
