The final spring troll advisory announcement of the season will be issued Friday, June 26. Open fishing periods may be extended or reduced by emergency order based on inseason assessment of coded wire tag data. Spring troll fishery openings begin at 12:01 a.m. and close at 11:59 p.m.

It is extremely important to segregate fish harvested in different fishery areas so that department personnel collect accurate dockside sampling information. If salmon are harvested in multiple areas during a spring troll fishing trip, the vessel operator is **required to keep fish harvested in each spring fishery separate** from any other fish on board the vessel. Similarly, the fish buyer is **required to create a separate fish ticket for each fishery area** that documents the dates fished, number of salmon, fishery name, and salmon statistical area number for each area fished (5 AAC 29.090[k]). Fish tickets must be submitted to ADF&G not later than 7 days after the landing.

Fishers are reminded that a completed fish ticket must be submitted to ADF&G before fish are transported out of Alaska. Alaska vessels entering Canadian waters or ports must abide by the requirements in the annual Fishery Notice from Fisheries Oceans Canada (DFO) to obtain licenses or make hail notifications. The Fishery Notice is updated and renewed each calendar year in January, and can be searched at <https://notices.dfo-mpo.gc.ca/fns-sap/index-eng.cfm> or by searching “DFO Fishery Notice” in any search engine. Once on the DFO Fishery Notice website, enter “foreign fishing vessels” in the keyword search.

Retention of lingcod bycatch in the salmon troll fishery opened May 16. For information on groundfish bycatch allowances in the spring troll fishery, permit holders should refer to the “Groundfish Bycatch in the 2026 Salmon Troll Fishery” advisory announcement issued on January 2, 2026, or contact Groundfish Staff in Sitka at 907-747-6688.

THA troll openings will occur as follows, unless closed by emergency order. Opening and closing times vary by area, **refer to the appropriate THA advisory announcements for fishery details and cost recovery closure dates**. Chinook salmon retention is prohibited during the month of June in the Nakat Inlet, Neets Bay, Burnett Inlet, and Thomas Bay THAs; however, Chinook salmon retention is permitted in Nakat Inlet, Burnett Inlet, and Thomas Bay THAs during general summer troll Chinook salmon retention periods established under 5 AAC 29.100.
