Fishermen and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.

All Chinook salmon harvested in the commercial drift gillnet fisheries may be retained and sold. Chinook salmon less than 28 inches in length and those of Alaska hatchery origin will not be counted against Southeast Alaska's all gear harvest limit of the Pacific Salmon Treaty. Therefore, fishermen and tenders are requested to keep Chinook salmon harvested in terminal harvest areas (THAs) separate from those harvested in traditional fishing areas. Separating these harvests will improve harvest accounting and assist with sampling efforts to identify Alaska hatchery-produced Chinook salmon.

The next gillnet announcement will be issued on **Thursday, July 2, 2026**.

The Emergency Order corresponding to this announcement is EO 1S2026.
