### **Bering Sea Tanner Crab Season Opens October 15** **Total Allowable Catch Announced**

The Alaska Department of Fish and Game (ADF&G) and National Marine Fisheries Service (NMFS) have completed analysis of 2026 NMFS trawl survey results for the Bering Sea District Tanner crab stock. The 2026 estimates of mature male Tanner crab biomass are above the threshold required to open fisheries in eastern and western areas of the Bering Sea District. The 2026/27 Western Bering Sea Tanner crab fishery (WBT), west of 166° W long, and the 2026/27 Eastern Bering Sea Tanner crab fishery (EBT), between 166° W long and 163° W long, will open at 12:00 noon October 15, 2026 and close at 11:59 p.m. March 31, 2027.

The 2026/27 total allowable catch (TAC) for Bering Sea District Tanner crab Individual Fishing Quota (IFQ) and Community Development Quota (CDQ) are allocated as follows:

|                                   | <b>West of 166° W long<br/>(WBT)</b> | <b>East of 166° W long<br/>(EBT)</b> |
|-----------------------------------|--------------------------------------|--------------------------------------|
| Individual Fishing Quota (IFQ)    | 24,480,000 pounds                    | 4,410,000 pounds                     |
| Community Development Quota (CDQ) | 2,720,000 pounds                     | 490,000 pounds                       |
| <b>Total</b>                      | <b>27,200,000 pounds</b>             | <b>4,900,000 pounds</b>              |

During the directed eastern and western Bering Sea Tanner crab fisheries in waters west of 165° W long, snow crab IFQ or CDQ may be retained up to one hundred percent (100%) of the weight of Tanner crab onboard a vessel. During the directed Bering Sea snow crab fishery in waters west of 165° W long, Tanner crab IFQ or CDQ may be retained up to five percent (5%) of the weight of snow crab onboard a vessel. Fishermen may not concurrently register for multiple Bering Sea crab fisheries.

To protect the Pribilof blue king crab stock, waters enclosed by connecting the following coordinates: 58° N, 171° W; 58° N, 168° W; 57° N, 168° W; 56° 30' N, 169° W; 56° 30' N, 170° W; 57° N, 171° W; 58° N, 171° W are closed to the operation of commercial king and Tanner crab pot gear and commercial groundfish pot gear for Pacific cod taken as bait during commercial IFQ/CDQ crab fisheries. The associated closed ADF&G statistical areas are: 685730, 695730, 705730, 705701, 705703, 695701, 695700, 685700, 695631, 695632, the northeast half of 705630, and the northwest half of 685630. A map of the closed area will be provided at the time of registration.

A valid United States Coast Guard (USCG) Commercial Fisheries Vessel Safety Decal is required before a vessel registration may be issued. Vessels must also have an activated vessel monitoring system approved by NMFS.

The operator of a vessel participating in IFQ or CDQ crab fisheries must notify the USCG at least 24 hours prior to departing port when carrying crab pot gear. USCG can be contacted at: (206) 815-6842.

Bering Sea–Aleutian Islands crab fishery registrations will be completed through the Dutch Harbor ADF&G office. An individual holding a current Commercial Fisheries Entry Commission (CFEC) Bering Sea Tanner crab interim use permit card (T91Q or T09Q) must be present during registration. Fishermen may participate concurrently in IFQ and CDQ fisheries, but a separate CFEC permit card is required for each fishery. At the time of vessel registration, all pots onboard the vessel and in wet storage must comply with current Bering Sea Tanner crab fishing regulations. There is no crab pot limit or buoy tag requirement for the Bering Sea Tanner crab fishery. Fishermen may register up to 20 groundfish pots. Fishermen are reminded to report all Pacific cod retained for bait on fish tickets at time of landing.

Fishermen must notify ADF&G within 72 hours of completing fishing operations in the registration area or when departing the registration area with gear in long-term storage or transferred to another vessel. Unbaited gear with doors secured open may be stored for up to 14 days outside of designated storage areas after fishing is completed. Pots must be removed from the water or placed in long-term storage if left unattended in a registration area for more than 14 days. Vessel registration will be invalidated after 14 days of inactivity in a registration area.

For questions regarding federal Crab Rationalization Program regulations, contact NOAA Fisheries Sustainable Fisheries Division at (907) 586-7228 or the NOAA Office of Law Enforcement in Kodiak at (907) 486-3298.

For more information contact ADF&G Dutch Harbor at (907) 581-1239, or ADF&G Kodiak at (907) 486-1840.
