

# Hunting and Trapping

## Emergency Order

Alaska Department  
of Fish and Game

Under the Authority of AS 16.05.060

**Emergency Order No. 03-07-11**

**Issued at:** Fairbanks, Alaska  
March 30, 2011

**Effective Date:** 12:01 AM  
April 2, 2011

**Expiration Date:** June 30, 2011  
unless superseded by subsequent  
emergency order

### EXPLANATION:

This emergency order announces the opening of the general moose season in Unit 26B, excluding the Canning River drainage, for April 2–15. A hunter must possess a 2011 hunting license and a 2010–2011 general moose harvest ticket, available at ADF&G offices and other vendors. The bag limit is 1 bull moose per regulatory year. Any hunter who has killed a moose anywhere in Alaska since July 1, 2010, under either state or federal regulations, is not eligible to hunt.

### REGULATION:

Therefore, the following regulations in **5AAC 85.045(a)(24), HUNTING SEASONS AND BAG LIMITS FOR MOOSE**, are superseded by this emergency order, and the following provisions are effective for hunting moose:

<b>Units and Bag Limits</b> (24)	<b>Resident Open Season (Subsistence and General Hunts)</b>	<b>Nonresident Open Season</b>
...		
Unit 26(B), excluding the Canning River drainage		

### RESIDENT HUNTERS:

1 bull by drawing permit only; up to 30 permits may be issued; or	Sept. 1–Sept. 14
1 bull	Apr. 2–Apr. 15

### NONRESIDENT HUNTERS:

No open season.

...

All other moose hunting regulations in Unit 26 remain unchanged and are not affected by this emergency order.

Cora Campbell  
Commissioner

By delegation to:   
Elizabeth A. Lenart  
Wildlife Biologist

**JUSTIFICATION:**

The Board of Game authorized the Division of Wildlife Conservation to open a general moose season in Unit 26B, excluding the Canning River drainage, when hunting conditions are favorable for up to 14 days during the period February 15–April 15. We expect favorable conditions will occur during the first two weeks of April. Persistent snow cover and frozen rivers should provide good traveling conditions and temperatures should be more moderate than in February or March. The population of approximately 500 moose in Unit 26B can sustain the 2010–2011 harvest quota of 15 bull moose, including 7 that may be harvested in this hunt.

**DISTRIBUTION:**

The distribution of the Emergency Order is to the following list. Copies are available from the Alaska Department of Fish and Game in Fairbanks.
