JUSTIFICATION:

There were 9 goat points (billy = 1 point; nanny = 2 points) available in the North Endicott Arm area this year. As of Friday, November 15, 2024, all of the available points have been harvested in this area. Due to the vulnerability of goats in this area to overharvest, the area will be closed by E.O. taking effect at 11:59 pm, Saturday, November 16, 2024. The last aerial survey of this area was conducted on October 28, 2023. At that time 203 adult goats and 42 kids were observed. In order to help preserve this area for future goat hunting opportunities, this hunt will be closed at this time.
