JUSTIFICATION:

Hunt managers set a harvest quota of 2 males or 1 female for the Lisa Creek zone of mountain goat hunt RG150 on Baranof Island. Quotas are based on the most recent aerial surveys.

To date, two male goats have been harvested in the Lisa Creek zone of RG150. The management objective for this zone has been met and no further harvest is warranted. Harvest that exceeds objectives could lead to reduced hunting opportunity in the future.

Therefore, this zone is being closed by emergency order.
