All other caribou hunting regulations in Units 20 and 25 are not affected by this emergency order.

JUSTIFICATION:

The Alaska Board of Game endorsed the Fortymile Caribou Herd Harvest Plan as a means of guiding harvest of the herd. The annual harvest quota is allocated seasonally: 75% to the fall hunt and 25% to the winter hunt. The fall harvest quota is further subdivided into zones within the RC860 registration hunt area, each with its own quota. The fall 2025 quota for Zone 2 is 100 caribou. Fortymile caribou harvest in Zone 2 has been consistent since the season opened on August 10, and we expect the harvest quota for this zone to be reached by the date and time of closure. No further fall harvest of caribou under the State of Alaska season is warranted in Zone 2 of the RC860 hunt area.
