Wildlife Biologist

JUSTIFICATION:

The Board of Game established a registration permit hunt (RX110) in a portion of Unit 26B as a subsistence only hunt. The muskox population in 26B has grown and has remained above 300 muskox since 2018. The current population level is sufficient to allow a hunting season however, a slight population decrease in the last two years has prompted a bag limit change from any muskox to one bull muskox. Registration permit, RX110, is in the portion of Unit 26B east of the Dalton Highway Corridor Management Area and the season dates will be 15 December 2025 to 31 March 2026. RX110 is a subsistence hunt and aircraft may not be used to transport muskox hunters, muskox, or muskox hunting gear.
