JUSTIFICATION:

The Alaska Board of Game (BOG) established a registration permit hunt in Unit 18, that portion south of the Eek River drainage and north of the Carter Bay drainage at the winter 2019 BOG meeting. This moose population occurs mainly in the Kanektok and Arolik River drainages and a survey was conducted in March 2024. A minimum of 273 moose were observed. The harvestable surplus for this hunt is 25 bull moose. To date, hunters have only reported harvesting 4 bulls and this population can support additional harvest. Hunters are reminded to report their harvest to the Bethel ADF&G office (907) 543-2839 or (907) 543-1678. Hunters that have already harvested a moose during this regulatory year (after July 1, 2025) are not eligible to participate in this hunt. Unsuccessful hunters and hunters that did not hunt need to report by January 31, 2026
