Registration Moose Permit RM583 available in Bristol Bay Communities

(Dillingham, Alaska) – The resident-only registration permit RM583, valid for any-bull moose in Game Management Units 17B&C, is currently available in person in Dillingham at the Alaska Department of Fish and Game (ADF&G) office through August 31.

Additionally, RM583 permits will be available from department staff in the following Nushagak River communities:

Ekwook – Friday, July 31, 2026

Manokotak – Tuesday, August 4, 2026

Koliganek – Wednesday, August 5, 2026

New Stuyahok – Thursday, August 6, 2026

If inclement weather prevents permit issuance on the scheduled date, department staff will reschedule. The RM583 season opens August 20 and closes September 15. Successful hunters are required to report to the Dillingham ADF&G office (907-842-2334) or online **within 5 days of harvesting a moose**. All permit reports must be returned to ADF&G, regardless of success, within 15 days of the close of the season.

It is important that any hunt permittees return their fall hunt reports to provide wildlife managers the information they need to understand harvest by mailing in their paper reports, in person at any ADF&G office, completing them online at https://secure.wildlife.alaska.gov/index.cfm?fuseaction=interperm.enter_report_hunterid, or by phone to Dillingham ADF&G office (907) 842-2334.

For questions or more information about moose hunting opportunities in Unit 17, contact the Alaska Department of Fish and Game in Dillingham at (907) 842-2334.
