2027-2028 Alaska Drawing Permit Hunt Supplement

ATTENTION ALL HUNTERS!

- The online application period begins November 1 and ends December 15, 2026 at 5 p.m. (AKST).
- Drawing results will be announced on the **third Friday of February**.
- Hunts listed in this supplement take place in 2027, unless designated as 2028.
- For hunts that take place in two calendar years, permit winners will need to purchase a locking-tag (if applicable) and hunting license for each calendar year they plan to hunt. Hunters who are unsuccessful in the fall 2027 season must purchase a new locking-tag (if applicable) and hunting license to continue hunting their permit in the spring 2028 season.
- **Antlerless hunts must be authorized by advisory committees in order to be held.** Application fees will **not be refunded** if the antlerless moose hunts are not authorized.
- All applications submitted are final and application fees will not be refunded.

Apply Online by 5 p.m. (AKST) December 15!

For application information visit hunt.alaska.gov or contact your local ADF&G office.

If you need an alternative to applying online, contact your local ADF&G office **by 5 p.m. (AKST) November 20** and we will provide accommodation.

Apply early! Due to the high volume of traffic on the website during the last few days, those who attempt to apply at that time can expect delays.

Read This Section BEFORE Applying

- You must obtain or have applied for an Alaska big game hunting license prior to applying (except Alaska residents 17 years of age and younger).
- All hunters must be 10 years of age or older by the starting date of the hunt to obtain a permit.
- Each hunt is assigned a unique hunt number. Use only hunt numbers listed in this supplement.
- Applicants may submit up to six applications (individual or party) per species, regardless of how many separate orders are placed. Applicants may apply for the same hunt more than once, or multiple hunts, as long as they do not exceed six applications per species; if you exceed six, all applications for that species will be rejected. Exceptions listed below:
  - » Moose:
    - Koyukuk Controlled Use Area (KCUA):
      - * Guided nonresident moose hunters may not submit more than one application for a KCUA moose hunt.
      - * All hunters that were issued any KCUA moose Drawing permit last year are ineligible to receive a Drawing permit for any KCUA moose hunt this year.
    - Applicants for 21E moose draw hunts may only apply for DM837 OR DM839, but not both. However, they may apply up to 6 times for either hunt.
    - Applicants for 19C Farewell moose draw hunts may only apply for DM681 OR DM682, but not both. However, they may apply up to 6 times for either hunt.
  - » Kodiak Brown Bear:
    - Nonresidents hunting with a registered guide may not submit more than one application for one Kodiak brown bear hunt for the spring of 2027, and may not submit more than one application for one hunt for the fall of 2027.
  - » Goat:
    - Nonresidents hunting with a registered guide may not submit more than one application for one Unit 8 goat hunt.
- Nonresidents who will become residents by the starting date of the hunt may apply for resident hunts; however, they must purchase a nonresident big game hunting license in order to apply for those hunts.
- **The number of permits actually issued may be adjusted up or down depending on the outcome of the most recent population surveys. Many of these surveys are not completed until after the publication of this supplement.** The number of permits may also be adjusted for administrative reasons.
- No person may receive more than one Drawing permit per species per regulatory year.
- If you fail to report on a Drawing, Registration (including Tier I, Nelchina caribou), Targeted, or Tier II permit, even if you claim the postal service lost your report, **you will be ineligible to receive any permits for the next regulatory year, including all Drawing hunts listed in this supplement.**
- You may not be awarded a permit for the exact same drawing hunt (Ex: DS102) two years in a row. This restriction does not apply to those who received an undersubscribed Drawing permit.
- Permits are not transferable; however, a resident drawing permit may be transferred to a qualified resident substitute hunter if the original permit holder dies prior to completing the hunt; please contact your nearest ADF&G office.
- Hunt area maps are available online at hunt.alaska.gov.

How to Apply

Apply early! Read the Drawing permit hunt application instructions carefully.

- Select the hunt numbers you want to apply for, locate your hunting license and go online to: hunt.alaska.gov
- You must apply online (VISA, MC, Discover, and American Express only; cash and checks are not accepted). There is NO REFUND of application or license fees.
- In addition to the cost of your hunting license, there is a fee each time you apply for a draw hunt. For black bear, brown bear, caribou, elk, moose, mountain goat, and Dall sheep hunts, the fee is $5. For bison and muskox hunts, the fee is $10.
- A hunter may apply individually OR two (2) hunters desiring to hunt together may apply as a party. For a party application, both hunters apply on the same application and, if drawn, both hunters will receive permits. Residents and nonresidents applying as a party need to verify that the hunt they are applying for is open to both residencies and any applicable guide requirements are met for the nonresident. Both party applicants must meet all eligibility requirements. If either member of the party is ineligible for any reason, the entire application is invalid, and neither hunter will be entered into the drawing.

Youth Hunting Opportunities

- Hunters aged 10-17 that have successfully completed a Basic Hunter Education course, or hunters under the age of 10, are allowed to hunt on behalf of an adult permit holder under the direct and immediate supervision of that adult. The adult permit holder must be a licensed hunter, 18 or older, and is responsible for ensuring all legal requirements are met.
- Youth Drawing hunts are designated with a Y instead of a D. Only youth who will be 10-17 years old by the starting date of the hunt are eligible to apply, and can only hunt a youth permit while they are 10-17 years old. **Basic Hunter Education is required. See page 3 for additional information.**

Basic Hunter Education Requirements

Requirements for hunters before hunting in **Units 7, 13, 14, 15, and 20**:

If you were born after January 1, 1986 and are 18 years old or older, you must have successfully completed a Basic Hunter Education course before you hunt in the units listed above.

If you are under 18 years of age, you must have either successfully completed a Basic Hunter Education course before you hunt in the units listed above or be under the direct immediate supervision of a licensed hunter who:

(a) is 18 years of age or older and has successfully completed a Basic Hunter Education course

-OR-

(b) was born on or before January 1, 1986.

In addition to the units listed above, some hunts or hunt areas require Basic Hunter Education, regardless of the age of the applicant. For those hunts, permit winners must have successfully completed a Basic Hunter Education course prior to hunting.

Guide Information

Guide Requirements for Nonresidents

- Nonresidents who are citizens of the United States are required to be personally accompanied in the field by an Alaska-licensed guide OR an Alaska resident relative 19 years of age or older within the second-degree of kindred* when hunting brown/grizzly bear, Dall sheep, or mountain goat.
- Nonresidents who are not citizens of the United States (nonresident aliens) are required to be personally accompanied in the field by an Alaska-licensed guide when hunting any big game species.
- Those intending to hunt with an Alaska-licensed guide should make certain there is an available guide registered to guide in the area they plan to hunt. Having successfully obtained a permit does not guarantee the availability of a guide.
- All hunters, guided and unguided, are responsible for their own actions and should be knowledgeable of all requirements under the Alaska Hunting Regulations.

Guide-Client Contracts required for nonresident hunts

All nonresidents hunting big game species that require an Alaska-licensed guide must have a signed guide-client contract before or at the time of application. These hunts are identified with the "handshake" symbol shown here.

To get started, select an Alaska-licensed registered or master guide who is currently registered for all or a portion of the Guide Use Area (GUA) where you wish to hunt and for the year the permit is valid. You can find this information by contacting:

Big Game Commercial Services Board:
PO Box 110806
Juneau, Alaska 99811-0806
Phone (907) 465-2543
Email: biggamecommercialservicesboard@alaska.gov
Website: https://www.commerce.alaska.gov/web/cbp/main

Once you decide on a guide, finalize the guide-client contract. This guide-client contract should allow the guide to submit your draw application and provide hunting services.

Guides: when applying for your client, be sure to select Registered Guide and enter your Unique Verification Code (UVC).

Nonresidents hunting with a resident relative 19 years of age or older, within the second-degree of kindred*, do not need an Alaska-licensed guide, but must select the appropriate option on the application.

***Second-degree of kindred:** A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother/sister-in-law, son/daughter-in-law, father/mother-in-law, stepfather, stepmother, stepsister, stepbrother, stepson, or stepdaughter.

Guide and Transporter Differences

Hunters should be aware that, except for a registered or master guide, it is illegal for anyone to provide for compensation any supplies, equipment, or services (other than transportation) to a big game hunter in the field. In other words, transporters and individuals may not legally receive compensation for providing vehicles, fuel, bear bait and/or stations, camping, hunting, or game processing equipment or any hunting services such as cleaning of game, glassing, packing, etc. from a permanent or nonpermanent structure in the field or on a boat on saltwater. Licensed transporters may provide transportation services and accommodations (room and board) only at a personally owned permanent structure in the field or on a boat on saltwater. It is illegal for a transporter to accompany or remain in the field at a nonpermanent structure with a big game hunter who is a client of the person except as necessary to perform transportation services. Unlicensed individuals cannot legally provide transportation services or accommodations for compensation.

Undersubscribed Drawing Hunts

Undersubscribed Drawing hunts are hunts that had fewer applicants than available permits. If undersubscribed permits are available, information about the permits will be posted online at hunt.alaska.gov on the **first Friday in March**. Contact the local ADF&G office nearest the hunt for more information. Hunters are able to obtain undersubscribed permits for the same species of a Drawing permit for the same regulatory year.

Permit Reissue for Deployed Military

Deployed military personnel who are unable to use their Drawing permit may be eligible to have the permit for the same hunt reissued the following regulatory year. Forms and additional information are available online at hunt.alaska.gov or by contacting your nearest ADF&G office.

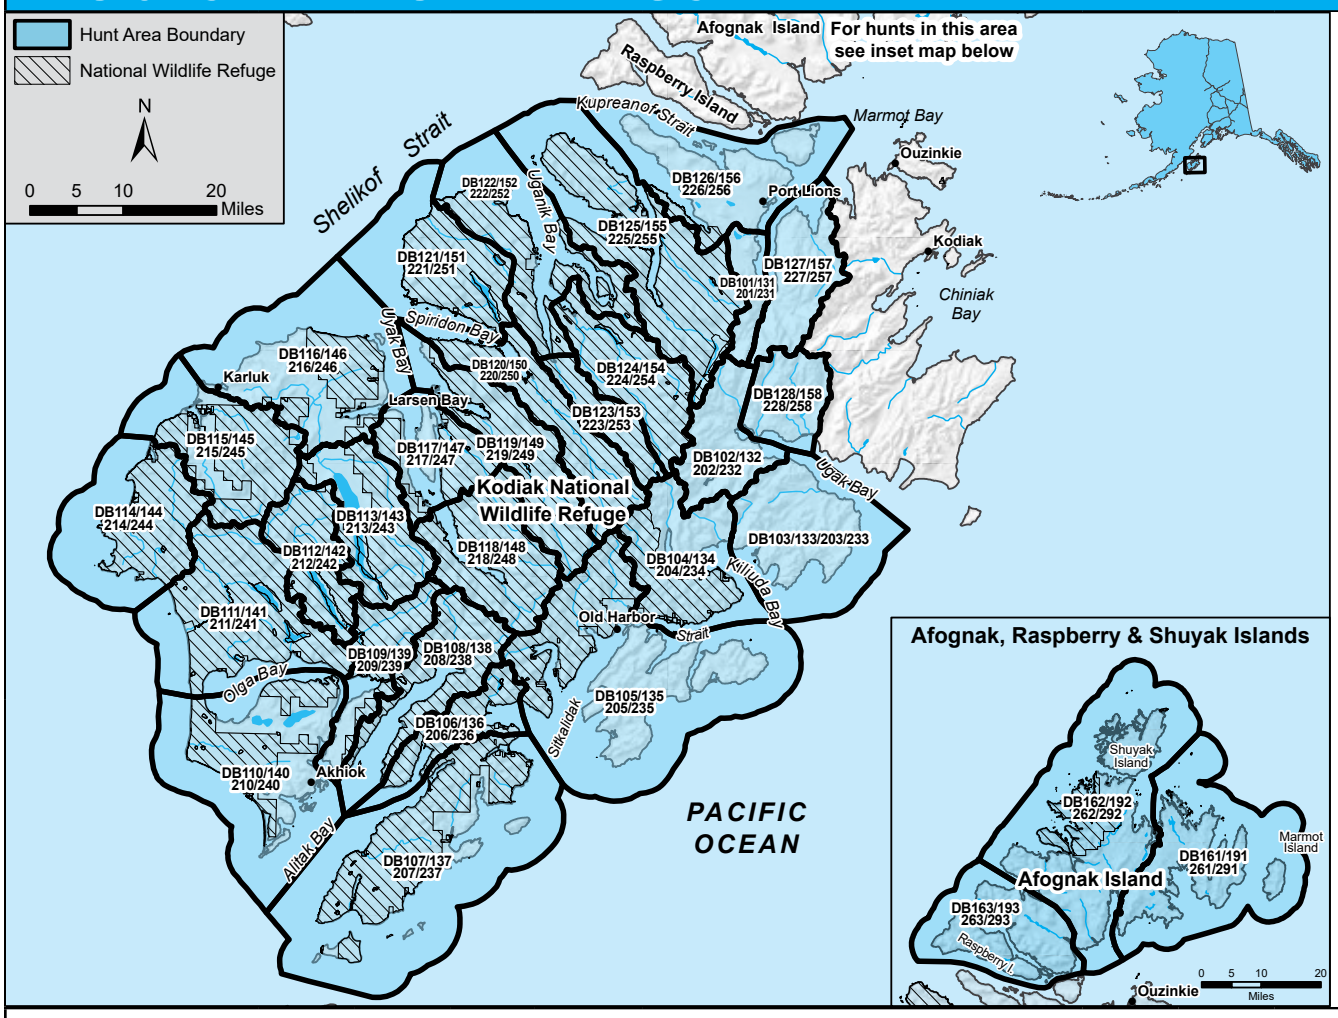

Proxy Hunting

Proxy hunting is for residents only. You may proxy hunt for caribou in Drawing hunts. You may proxy hunt for moose in Drawing hunts that are bull hunts with no antler restrictions, antlered bull hunts with no antler restrictions, or antlerless moose hunts. You may proxy hunt for bison in all units. For moose and caribou, antler destruction is required for both the hunter's and the beneficiary's animal. For all other proxy regulations, see the current Alaska Hunting Regulations.

Additional instructions, information on weapons-restricted hunts, and results of last year's Drawing hunts can be found on the back page of this supplement.

Kodiak Brown Bear

Hunt maps available online at:
hunt.alaska.gov

Reporting Requirements

Successful Hunters -- Report in person to ADF&G in Kodiak within 15 days of harvest. The bear skull (unfrozen and removed from the hide) and hide (unfrozen, with claws and evidence of sex intact and naturally attached) must be presented for sealing within 30 days of harvest and prior to leaving Game Management Unit 8.

Guide Requirements

Nonresident brown bear hunters who are citizens of the United States must be accompanied in the field by an Alaska-licensed guide registered to guide in the hunt area, or an Alaska resident relative 19 years of age or older, within the second-degree of kindred[1] (see "Alaska Residents or Nonresidents Hunting with Resident Relatives" section below).

Nonresident brown bear hunters who are not citizens of the United States (nonresident aliens) must be accompanied in the field by an Alaska-licensed guide registered to guide in the hunt area. See "Nonresidents and Nonresident Aliens Hunting with an Alaska-licensed Guide" section below.

[2]The harvest of female brown bears is discouraged in these areas. For each female harvested, one permit will be deducted from the corresponding hunt area, allocation (nonresident/resident) and season (spring/fall) 2 years after harvest.

- **Successful applicants must pick up their permit in person at the ADF&G office in Kodiak Mon-Fri, 8:00am-4:30pm.**
  - **Permits for Spring 2027 hunts will be available beginning March 3, 2027**
  - **Permits for Fall 2027 hunts will be available beginning September 29, 2027**
  - **A valid Alaska big game hunting license, Big Game Tag Record, and brown/grizzly bear locking-tag must be presented at ADF&G in Kodiak at the time of permit issuance.**
  - **Hunters are restricted to a 15-consecutive-day hunt period selected by the hunter at the time of permit issuance.**
- **The bag limit is one bear every four regulatory years. A wounded bear counts against your bag limit for the regulatory year.**
- **The take of cubs or sows accompanied by cubs is prohibited.**
- **Applicants successfully drawn for a fall Kodiak bear hunt are ineligible to draw another Kodiak bear permit the following spring.**
- **Much of south and east Afognak Island and northern Kodiak Island is privately owned and subject to land use fees. Access permits are available from land owners. Land status maps and addresses of land owners are available online at: https://dnr.alaska.gov/mlw/planning/atlas/kodiak-island/.**

Residents and Nonresidents hunting with Resident Relatives[1] (DB200 Series): Application Period for All Hunts is November 1 - December 15
Guided Nonresidents (DB100 Series): Application Period for ALL HUNTS (Spring AND Fall) is November 1 - December 15

Alaska Residents or Nonresidents Hunting with Resident Relatives Fall 2027 and Spring 2028

Fall Season: Oct. 25 - Nov. 30
Spring Season: Apr. 1 - May 15

Nonresidents and Nonresident Aliens Hunting with an Alaska-licensed Guide Spring 2027 and Fall 2027

Nonresidents intending to hunt with a resident relative within second degree of kindred must apply for the DB200 series of permit hunts listed in chart at right.

A maximum of four nonresidents guided by resident relatives will be awarded permits for each season, with a maximum total of eight permits per regulatory year.

Two nonresidents intending to hunt with a resident relative may not apply as a party; only one permit is issued per hunt to a nonresident hunting with a resident relative.

[1]**Second-degree of kindred:**
A father, mother, brother, sister, son, daughter, spouse, grandparent, grandchild, brother/sister-in-law, son/daughter-in-law, father/mother-in-law, stepfather, stepmother, stepsister, stepbrother, stepson, or stepdaughter.

***Areas mostly or entirely included in exclusive guide use areas**
****Areas partially included in exclusive guide use areas**

Guide-Client Contracts are required at the time of application. Guides may only submit as many applications as permits available for that hunt. A party application counts as two applications (one for each party member).

Nonresidents hunting with a registered guide may not submit more than one application for one Kodiak brown bear hunt for the spring of 2027, and may not submit more than one application for one hunt for the fall of 2027.

Kodiak National Wildlife Refuge and some private landowners only allow certain guides to take nonresident bear hunters on their lands. Areas subject to these restrictions are known as "exclusive guide use areas". Hunters are strongly encouraged to check on guide availability in these areas. For a fee, a list of the Alaska-licensed guides registered for particular hunt areas may be obtained from Big Game Commercial Services Board, P.O. Box 110806, Juneau, AK, 99811, Phone (907) 465-2543.

Successful applicants have until the close of business March 10, 2027 (Spring 2027 hunt) or October 6, 2027, (Fall 2027 hunt) to cancel (in writing to Kodiak ADF&G, dfg.dwc.wildlife.kodiak@alaska.gov) their Kodiak brown bear Drawing permit. Hunters who do not cancel their permit prior to the deadline will not be eligible for a Kodiak brown bear Drawing permit for the remainder of the regulatory year. Permit cancellations will not be accepted after the deadline. If a successful applicant cancels their permit prior to the deadline for cancellations, ADF&G will choose an alternate for that permit from the alternate list. Alternate lists for each hunt are produced during the Drawing permit application process.

If there are no alternates available for the hunt, cancelled permits will be issued on a first-come, first-served basis beginning March 17, 2027 (Spring 2027 hunt) or October 13, 2027 (Fall 2027 hunt) and up until the start of the season. **No cancelled permits will be issued after the start of the season.** To reserve one of these permits, a hunter, guide or agent must provide the guide's unique verification code (obtained by the guide from Big Game Commercial Services Board) and the hunter's information to ADF&G in Kodiak in person **BEFORE** the start of the season.

Permits for undersubscribed drawing hunts will be issued on a first-come, first-served basis starting on February 26, 2027 (Spring 2027 hunt) or August 10, 2027 (Fall 2027 hunt) and up until the start of the season. To reserve one of these permits a hunter, guide, or agent must provide the guide's unique verification code (obtained by the guide from Big Game Commercial Services Board) and the hunters information to ADF&G in Kodiak in person **BEFORE** the start of the season. **No permits will be issued to hunters whose information, including guides unique verification code, is not submitted in person to ADF&G in Kodiak prior to the start of the season.**

Brown/Grizzly Bear

Hunt maps available online at: **hunt.alaska.gov**

- **A brown/grizzly bear locking-tag is required.**
- **Legal Animal: any brown bear except cubs or females accompanied by cubs. In Unit 4 and 14C, a wounded bear counts against your bag limit for the regulatory year. In Units 4 and 10, the bag limit is one bear every four regulatory years; in all remaining Drawing brown bear hunts (DB468, DB470, DB477, DB685, DB690 and DB987) the bag limit is one bear every regulatory year.**
- **Successful hunters must report within 15 days of kill, unless specified otherwise on permit.**
- **Successful hunters must present the skull (unfrozen and removed from the hide) and hide (unfrozen, with claws and evidence of sex attached) for sealing within 30 days of the kill.**

Guide Requirements:

- **Nonresident hunters who are not citizens of the United States (nonresident aliens) must be accompanied in the field by an Alaska-licensed guide and are not eligible for Unit 4 Drawing brown bear hunts (DB077, DB088, and DB089).**
- **Nonresidents applying for the remaining Drawing brown bear hunts (DB375, DB376, DB468, DB470, DB477, DB685, DB690 and DB987), excluding aliens, must be accompanied in the field by an Alaska-licensed guide or an Alaska resident relative 19 years of age or older within second-degree of kindred.**

If undersubscribed permits are available, information about these permits will be posted online at hunt.alaska.gov on the first Friday in March. Undersubscribed Drawing hunts are hunts that had fewer applicants than available permits. Contact the local ADF&G office nearest the hunt for more information.

The area within the Prudhoe Bay Closed Area is closed to the taking of big game; the remainder of the DHCMA is closed to hunting; however, **big game, small game, and fur animals may be taken in the area by bow and arrow only, and small game may be taken by falconry.** See Weapons-Restricted hunts, page 20.

How does the random drawing work?

All permit applications are entered into a database and checked for potential problems such as incorrect hunt numbers, date of birth, hunting license information, etc. A computer then randomly assigns a "draw number" to each hunt on each valid application. Party hunt applications receive one draw number for each hunt, meaning both applicants share a single random draw number for each hunt in the party application.

Permits are assigned to applicants with the lowest draw numbers, up to the number of permits allocated for that particular hunt. If five permits are to be awarded for a particular hunt, the five permits will be assigned to the five lowest draw numbers. Note: this may differ slightly when it comes to party applications, where two party members share the same draw number. In hunts where 10 or more drawing permits are available, and in a situation where the final drawing permit is to be awarded and the final draw number belongs to two applicants that applied as a party, both applicants will receive a permit, resulting in one additional permit being issued above what was listed in this supplement.

After all permits have been tentatively assigned for a species, the list is checked to identify any individuals assigned two permits for the same species. In those situations, the individual is awarded one permit for the species, based upon how they ranked their choices on their permit application. The other permit is then awarded to the individual applicant with the next-lowest draw number. This process is repeated for all hunts for that species, until all possible permits are awarded.

In a few specific hunts alternate lists are required in order to maximize hunting opportunity. The alternate list is generated from all remaining applicants using the original randomly-assigned draw numbers. If the original applicant drawn does not notify the department of their intent to hunt by the date required, the next applicant(s) on the alternate list will be offered a permit until all permits have been awarded.

Youth Drawing Hunts

Youth who will be 10-17 years old by the starting date of the hunt are eligible to apply and can only hunt a youth permit while they are 10-17 years old. If the youth is a resident, the youth must be accompanied by a licensed resident hunter 21 years of age or older. If the youth is a nonresident, the accompanying adult must be a licensed resident hunter 21 years of age or older who is a parent, stepparent, or legal guardian of the child. The bag limit counts against both the youth and the accompanying adult. **Basic Hunter Education is required for all youth hunters participating in Youth Drawing hunts, regardless of their age or if their accompanying adult has Basic Hunter Education.** Youth Drawing hunts are designated with a Y and only youth are eligible to apply. Some youth hunts are restricted to residents only, and those hunts are marked in this supplement.

Black Bear

Hunt maps available online at: **hunt.alaska.gov**

- **A black bear locking-tag is required for all nonresidents.**
- **Successful hunters must report within 15 days of kill, unless specified otherwise on permit. Bears must be sealed within 30 days of the kill (see Alaska Hunting Regulations for salvage and sealing requirements).**

11 and portion of 13D, Copper River	DI454	5	Sept. 1 thru Mar. 31		Either Sex	In person or by phone to ADF&G in Glennallen within 5 days of leaving the hunt area.	**Hunt Area:** east of the Copper River, south of the Klawasi River, and west of the line from Mount Sanford to Mount Wrangell to Long Glacier west of the Kotsina River and that portion of Unit 13D east of the Edgerton Hwy. If a successful applicant fails to indicate intent to hunt (in writing to ADF&G, Box 47, Glennallen, AK 99588) by Sept. 1, we will choose an alternate for that permit. An alternate list for the hunt is produced during the Drawing process. Hunting opportunity and success on public land is extremely limited. During the hunt period, most bison are found on private lands. Trespass permits may be available for some private lands and not for others. If you do not have considerable knowledge of the local area, a full understanding of land status in the area, and a considerable amount of time to hunt, please do not apply for this hunt. Additional hunt information will be emailed from ADF&G in Glennallen prior to the hunt.

Sheep hunt areas in Unit 14C are not the same as the management areas mapped in the Alaska Hunting Regulations.

A permit does not allow you to hunt in an area closed to hunting.

It is your responsibility to know the open season and boundaries of the hunt area for which you have won a permit.

Successful sheep hunters in Unit 14C must bring the horns (attached to the skull plate) for measuring and aging, and the permit hunt report to ADF&G in Anchorage, Palmer, Homer, or Soldotna within 10 days of taking the animal.

Sheep hunt areas in Unit 14C are not the same as the management areas mapped in the Alaska Hunting Regulations.

A permit does not allow you to hunt in an area closed to hunting.

It is your responsibility to know the open season and boundaries of the hunt area for which you have won a permit.

Successful sheep hunters in Unit 14C must bring the horns (attached to the skull plate) for measuring and aging, and the permit hunt report to ADF&G in Anchorage, Palmer, Homer, or Soldotna within 10 days of taking the animal.

Prior to applying for this hunt, IBEP certification is required.

Why did the ram go over the cliff? Because he didn't see the ewe turn.

To improve your chance of drawing a permit

1. Last year, approximately 364,935 applications were received for Drawing permit hunts. About 1.6% of these were rejected. The most common reasons applications were rejected: applicant applied for the same hunt they won last year, applicant exceeded the allowed number of applications per species, and applicant was not eligible based on residency, age, or guide type.
2. Apply for a maximum of six hunts per species (excluding Kodiak brown/grizzly bear hunts, and KCUA moose hunts; see page 1 for more information).
3. Apply for less popular hunts. The table below lists results of the 2026 drawing. Apply for hunts that received fewer applications relative to the number of permits available. The Permits Available column may be different than what was advertised due to administrative reasons.

Weapons-Restricted Hunts

Some Drawing hunt areas have weapons restrictions. The certification requirements for these areas vary depending on which weapon you are hunting with. See the current Alaska hunting regulations for equipment specifications.

Certified Bowhunters Only: You must have your bowhunter education certification (IBEP or equivalent) prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. IBEP or equivalent certification courses taken outside Alaska are accepted. Your certification card must be carried on your person while you are hunting in the field.

Certified Muzzleloader Hunters Only: You must have your muzzleloader hunter education certification prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. Your certification card must be carried on your person while you are hunting in the field.

Certified Shotgun Hunters Only: To hunt big game with a shotgun in a weapons-restricted hunt, you must have successfully completed a Basic Hunter Education course prior to hunting; this includes successful completion of the shooting proficiency test. Your certification card must be carried on your person while you are hunting in the field.

Certified Crossbow Hunters Only: You must have your crossbow hunter education certification prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. Your certification card must be carried on your person while you are hunting in the field.

If you intend to take one of these certification courses in Alaska, you should sign up early because classes fill quickly and are seldom offered during the summer. The department currently offers the courses through volunteer instructors and online. The courses include a shooting proficiency test. Course dates are available at regional Fish and Game offices.
