### **ADF&G Closes Resident Moose Hunt RM615 in the Lower Kuskokwim portion of Unit 18**

(Bethel) – The Alaska Department of Fish and Game announces an Emergency Order closure of the State of Alaska resident hunting season in the Unit 18 Kuskokwim Area hunt area. This area includes the Lower Kuskokwim River drainage where the hunting season for antlered bull moose by registration permit RM615 on State Land closes at 11:59 p.m. on September 4, 2015. Based on harvest reports received to date, the harvest quota of 110 antlered bull moose will be reached by the closing date in this announcement and no further harvest is warranted. Federal Public lands within the Kuskokwim Drainage will remain open until September 8, 2015.

The Alaska Board of Game established a registration permit hunt for antlered bull moose in the Unit 18 Kuskokwim Area hunt area. The moose population in this portion of Unit 18 is estimated at approximately 1900 moose and a harvest quota of 110 antlered bull moose on State Managed Lands has been established by the department to prevent overharvest of bulls. Hunting began on September 1 and harvest rates show that the harvest quota of 110 bulls will be reached by September 4, 2015. Hunters are reminded to report their harvest within 72 hours to the Bethel ADF&G office. Unsuccessful hunters and hunters that did not hunt need to report by September 25, 2015.

All other moose seasons and bag limits in Unit 18 remain unchanged and are not affected by this emergency order.
