

PERMIT ALTERATION REQUEST FORM

STATE OF ALASKA DEPARTMENT OF FISH AND GAME PRIVATE NONPROFIT PROGRAM

This form is to be used by a PNP hatchery permit holder to request an alteration to their PNP permit. Requests must be received on this form by the PNP Hatchery Program Coordinator no later than February 15 of the calendar year that the proposed alteration is to occur. The commissioner will, in his or her discretion, extend the deadline on a case-by-case basis, if the request is justified by extraordinary circumstances or emergency. The regional planning team may review and make a recommendation to the commissioner on this request. The commissioner will, in his or her discretion, consider past management practices and fish culture procedures associated with the request, the past performance of the hatchery, the recommendation of the regional planning team, and any additional information deemed necessary. Issuance of a Notice of Permit Alteration (NPA) by the department modifies the hatchery permit. Refer to 5 AAC 40.850.

PERMIT ALTERATION REQUEST FORM

For new projects and changes to existing projects, how will the potential effects and interactions between hatchery-produced stocks and wild stocks be assessed?

No effects and interactions are anticipated. No additional fish will be stocked into the system.

What marking and recovery studies are being proposed that will allow the project to be evaluated?

All smolt will be otolith marked. Otoliths may be recovered during the Seward Chamber of Commerce Silver Salmon Derby. An ADF&G study from 2003 to 2005 showed that on average about 33% of the coho salmon landed at the Port of Seward were of hatchery origin, and more than 80% of coho caught off the Seward beaches are of hatchery origin. In the future, CIAA would like to assist ADF&G in recreating the otolith study to determine the composition of the coho salmon harvest for comparison to the older study.

Has this project been discussed with department area or regional management biologists or other staff?

This project has been discussed with Lorna Wilson, Brittany Blain, and Andrew Garry
