V. RECOMMENDATIONS FOR THIS PROJECT

In the final year of the project, remaining equipment will be purchased and received by the respective region. Equipment remaining includes Region 1 Ford F250 ¾ ton truck and Region 4 snow machine trailer. It is unlikely an extension to the grant will be requested.

It is possible Region 4 may not need a trailer for the snowmachine requested. If this is the case, we may submit an SDR to purchase a trailer for Region 1 as they have indicated they may have a need.
