I. SUMMARY OF WORK COMPLETED ON PROJECT

Objective 1: This project will improve the Olnes Pond and Whitefish facilities located within the Lower Chatanika River SRA to better accommodate the hunters using those facilities. The roads and campsites will be improved to meet current DNR-DPOR standards and accommodate the larger vehicles (RVs and trucks with trailer) and equipment currently used by hunters. Approximately 5,800 linear feet of circulation roadway and 20 campsites will be improved; a vaulted toilet will be constructed; and signage will be installed.

Accomplishments: During this performance period, the Contractor completed construction of the facility improvements in conformance with the Plans and Specifications. Work to recondition, resurface, and improve the existing roadway and campsites was completed at both Whitefish Campground and Olmes Pond. All pertinent signage was installed at both sites and the single concrete vaulted toilet was installed at the Whitefish campground.

Construction was completed in August of 2018, with a final inspection completed in September of 2018. Final acceptance of the project was issued in February of 2019.
