

ADF&G HUNTER ACCESS GRANT PROGRAM

2022 GRANT APPLICATIONS PUBLIC COMMENT

The Hunter Access Program is a statewide program managed by the Alaska Department of Fish and Game, Division of Wildlife Conservation (ADF&G DWC). ADF&G is requesting public input on the following hunter access proposals received during our 2022 application period.

Proposals must develop or enhance public access to public lands and wildlife resources for hunters, trappers, shooters, and other wildlife related users to be considered for funding. Funding availability may vary from year to year depending on the Federal appropriation and State of Alaska legislative authorization. In 2022, ADF&G DWC anticipates that a minimum of approximately \$1.5 million in federal funds will be available.

Public comments regarding the grant proposals listed here can be sent to the program email address below. ADF&G will be accepting comments until 5 pm on Monday, June 27, 2022. Please see the ADF&G Hunter Access Grant Program's website for the 2022 program schedule and to learn more www.hunteraccess.adfg.alaska.gov.

At this point in the application selection process, approval and funding obligation is not final. An application that is being posted for public comment is not an authorization to begin performance of a project and is not a guarantee of funding. Final approval is subject to funding availability as well as final review and approval by both ADF&G DWC and the U.S. Fish and Wildlife Service Wildlife Restoration program. Applicants selected for award will be notified in writing in September 2022 and no application is awarded funding until ADF&G approved agreements have been finalized, signed, and implemented.
