

SPECIAL AREA PERMIT FH23-IV-GP15-SA

ISSUED: January 1, 2023
EXPIRES: December 31, 2027

General Public:

Re: Goose Bay State Game Refuge – Wintertime Off-Road Vehicle Use

In response to public need for access to and across the Goose Bay State Game Refuge (GBSGR), the Alaska Department of Fish and Game, Habitat Section has determined that both the public interest and the proper protection of fish and wildlife and their habitat would be served by the issue of a general permit. This general permit, issued pursuant to 5 AAC 95, authorizes certain types of off-road motorized vehicle use and the landing of aircraft within the GBSGR. The off-road vehicle use on frozen water surfaces within GBSGR is authorized under General Permit FH23-IV-0008-GP.

The GBSGR was established in 1975 pursuant to AS 16.20.030 to protect and preserve natural habitat and game populations. Alaska State statutes authorize multiple land use activities on the refuge if the activity provides proper protection of fish and game. The operation of off-road vehicles and aircraft is not expected to adversely impact important habitat values, fish and wildlife populations, or public recreation provided all activities are conducted in strict accordance with the conditions and stipulations contained herein.

This permit must be in your possession during off-road vehicle use and aircraft landings.

Off-Road Vehicles

Less than 1,000 lbs GVW

The off-road use of any wheeled, tracked, or other ground effect motorized vehicle less than one thousand pounds (1,000 lbs) gross vehicle weight (inclusive of operator and gear) is authorized from November 9 through March 31 in the following areas provided the following condition exists:

- On all refuge lands, provided there is at least twelve inches (12") of snow cover and sufficient ground frost to prevent the penetration of or disturbance to the soil surface or plant roots. Ice cover on wetlands and other water bodies must be of sufficient thickness to support the weight-bearing load of the off-road vehicle.

Aircraft Landings

The landing of fixed-wing aircraft is authorized year-round within the GBSGR except when it is closed to aircraft landings from April 1 through May 15th to avoid disturbance of waterfowl populations during spring staging. The landing of rotary aircraft within the GBSGR requires an individual Special Area Permit from the Habitat Section. **These restrictions do not apply to the Goose Bay Airport.**

Pursuant to 5 AAC 95, the operation of vehicles and aircraft within the GBSGR as described above is authorized provided all activities are performed in strict accordance with the stipulations below:

1. The operation of vehicles within open waters on the GBSGR is prohibited. In addition, ice cover on wetlands and water bodies must be of sufficient strength to support the laden weight of the vehicle.
2. Harassment of wildlife is prohibited.
3. Vehicles or equipment shall not be left unattended within the GBSGR. The use of vehicles and aircraft within the refuge shall not restrict or interfere with public access to or across state land, or to fish and wildlife resources.
4. No material of any kind, including waste products, debris, supplies, or equipment shall be stored or disposed of within the GBSGR.
5. No vehicles leaking fuels, oils, hydraulic or cooling fluids shall be operated within the Goose Bay State Game Refuge.

Please be advised that this authorization applies to public lands within the GBSGR and does not authorize the use of or trespass onto private lands. The off-road use of a wheeled, tracked, or other ground-effect motorized vehicle other than specified above is not allowed, except by individual Special Area Permit. Please contact the Habitat Section at (907) 861-3200 for more information.

This letter constitutes a permit issued under the authority of AS 16.20.060 and must be retained on site during project activities. Please be advised that this determination applies only to activities regulated by the Habitat Section; other agencies also may have jurisdiction under their respective authorities. This determination does not relieve you of your responsibility to secure other permits; state, federal, or local. You are still required to comply with all other applicable laws.

You are responsible for the actions of contractors, agents, or other persons who perform work to accomplish the approved project. For any activity that significantly deviates from the approved plan, you shall notify the Habitat Section and obtain written approval in the form of a permit amendment in accordance with 5 AAC 95.740 before beginning the activity. Any action that increases the project's overall scope or that negates, alters, or minimizes the intent or effectiveness of any provision contained in this permit will be deemed a significant deviation from the approved plan. The final determination as to the significance of any deviation and the need for a permit amendment is the responsibility of the Habitat Section. Therefore, we recommend you consult the Habitat Section immediately before considering any deviation from the approved plan.

You shall give an authorized representative of the state free and unobstructed access to the permit site, at safe and reasonable times, for the purpose of inspecting or monitoring compliance with any provision of this permit. You shall furnish whatever assistance and information the authorized representative reasonably requires for monitoring and inspection purposes.

In addition to the penalties provided by law, this permit may be terminated or revoked for failure to comply with its provisions or failure to comply with applicable statutes and regulations. You shall mitigate any adverse effect upon fish or wildlife, their habitats, or any restriction or interference with public use that the commissioner determines was a direct result of your failure to comply with this permit or any applicable law.

You shall indemnify, save harmless, and defend the department, its agents, and its employees from any and all claims, actions, or liabilities for injuries or damages sustained by any person or property arising directly or indirectly from permitted activities or your performance under this permit. However, this provision has no effect if, and only if, the sole proximate cause of the injury is the department's negligence.

Any questions or concerns about this permit please call the Habitat Section at (907) 861-3200.

Sincerely,

Doug Vincent-Lang
Commissioner
