ALASKA DEPARTMENT OF FISH AND GAME

Division of Sport Fish
1255 West 8th Street
P.O. Box 115526
Juneau, Alaska 99811-5526
(907) 465-4180

Mike Dunleavy, Governor
Doug Vincent-Lang, Commissioner

The Alaska Department of Fish and Game (ADF&G) is responsible for managing fish and game under statutory authority from the Alaska Legislature. By law, the mission of ADF&G is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and the well-being of the people of the state, consistent with the sustained yield principle.

The Division of Sport Fish (DSF) is one of four divisions within ADF&G. By law, the mission of DSF is to protect and improve the state's sport fisheries resources. DSF operations are largely funded by anglers and recreational boaters through contributions to Federal Aid in Sport Fish Restoration and ADF&G license funds. At least 15% of the state's federal aid apportionment must be used for improvement of recreational boating facilities and access.

ADF&G MAY CHANGE FISHING REGULATIONS AT ANY TIME BY EMERGENCY ORDER.

Statewide, numerous emergency orders may be issued to open or close seasons or areas, modify bag and possession limits, methods and means, and more in any given year. Most, but not all, affect salmon fishing, as opposed to fishing for resident species. All emergency orders are widely announced via news media, recorded on ADF&G hotlines, available at ADF&G offices, and online at www.adfg.alaska.gov. Emergency orders may also be posted at key access points. Anglers can subscribe to receive emergency orders, advisory announcements, and press releases through the ADF&G website.

HOW REGULATIONS ARE CHANGED 2

The Alaska Board of Fisheries (Board) adopts Alaska's fishing regulations under statutory authority from the Alaska Legislature. The Board sets fishing seasons, bag limits, and methods and means. It also sets policy and provides direction of the management of the state's fishery resources through regulatory management plans. The Board consists of seven members that are appointed by the governor, confirmed by the Legislature, and serve three-year terms.

The Board process is one of the more open systems for incorporating public input into state fisheries policy. The Board meets four to six times per year to consider proposed changes to fishing regulations in specific areas of the state. Any individual or organization may submit a proposal to change a fishing regulation. The Board uses biological and socioeconomic information provided by ADF&G, public comment, input from Advisory Committees and guidance from the Alaska Department of Public Safety and Alaska Department of Law when creating regulations.

The Board meets on a three-year cycle. It most recently addressed Bristol Bay Finfish regulations in December 2022; Arctic, Yukon, and Kuskokwim Finfish regulations in January 2023; Alaska Peninsula, Aleutian Island, and Chignik Finfish regulations in February 2023; and Statewide Finfish regulations in March 2023.

Alaska Board of Fisheries Current Members

Märit Carlson-VanDort (Chair)	Anchorage
Mike Heimbuch	Homer
John Jensen	Petersburg
John Wood	Willow
Tom Carpenter	Cordova
McKenzie Mitchell	Fairbanks
Stan Zuray	Tanana

For more information on the board process, please visit the Boards webpage at www.adfg.alaska.gov/index.cfm?adfg=fisheriesboard.main or contact the ADF&G Boards Support Section at (907) 465-4110.

HOW TO USE THIS BOOK

Licensing Requirements - Read licensing and harvest recording requirements on pages 4 and 5.

Regional Regulations - Read the regional regulations for allowable sport fishing gear, possession requirements for sport-caught fish, and other general regulations, as well as prohibited acts.

General Regulations - Read the general regulations for seasons, bag, possession, and size limits, and methods and means for the area in which you intend to fish.

Special Regulations - Check out the Southwest Alaska Waters Index on pages 10 and 11. If a special regulation exists for the species when and where you plan to fish, follow the special regulation; special regulations supersede the general regulations listed for that area. If the waters you plan to fish **DO NOT APPEAR** in the index or within the special regulations, follow the general regulations for seasons, bag, possession, and size limits, and methods and means for that area.

This summary of Alaska sport and personal use fishing and shellfish regulations is published by the Division of Sport Fish as a service to anglers. It is not intended to be a complete digest of all fishing regulations.

For a complete list of all sport fishing regulations, see the Alaska Administrative Code, Title 5 online at www.akleg.gov/basis/aac.asp#5.

Some regulations in this booklet may be changed by the Alaska Board of Fisheries during its regular meetings, by emergency regulation, or by emergency order at any time.

Anglers Please Note: New or revised regulations and information for 2023 are printed in **GREEN TEXT** with a corresponding 🌞 symbol.

EMERGENCY ORDERS: Inseason changes to regulations.

Regulations in this booklet may be changed by emergency order at any time. If an inseason change has been made by emergency order for the species when and where you plan to fish, follow the inseason regulation; inseason regulatory changes prevail over the regulations listed in this booklet. All such changes can be found by contacting any ADF&G Sport Fish office or online on the ADF&G website.

**YOU CAN SIGN UP TO RECEIVE EMERGENCY ORDER NOTIFICATIONS VIA EMAIL.

Second Right Image: Maryn Korrow - 6 years old, chum salmon caught on Kodiak Island.

AN ALASKA SPORT FISHING LICENSE IS REQUIRED FOR ALL RESIDENT ANGLERS 18 YEARS AND OLDER, AND NONRESIDENT ANGLERS 16 YEARS AND OLDER TO FISH IN ALL FRESH AND SALT WATERS IN ALASKA.

A sport fishing license must be in the anglers actual possession, must be signed, and may be in paper or electronic form.

- In accordance with the regulations outlined in this summary booklet, a sport fishing license allows you to take, or attempt to take finfish or shellfish in the fresh and salt waters of Alaska. Additionally, you may need a king salmon stamp or a harvest record card.
- Your sport fishing license, PID, or DV must be in your possession while you are sport fishing.
- All persons engaged in sport fishing or in possession of sport-caught finfish or shellfish must show their sport fishing license, required harvest record card and/or king stamp, and their harvest to any representative of ADF&G or any peace officer of the state, upon request.
- No person may alter, loan, or transfer to any other person any sport fishing license; and no person may use any license issued to another person.
- If your sport fishing, hunting, or trapping license is revoked in any state, you may not obtain an Alaska sport fishing license.

A resident of Alaska is a person who...

- For the preceding 12 consecutive months, has maintained a home in Alaska with the intent to stay, and who is not claiming residency (or receiving benefits under a claim of residency) in another state, territory, or country. Benefits include but are not limited to applying for a resident fishing and hunting license in another state, obtaining a driver's license in another state, or receiving benefits or paying taxes as a resident of another state.

Active duty military personnel and their dependents...

- Stationed in Alaska for the preceding 12 months may purchase a resident sport fishing license regardless of benefits received in another state. Resident sport fishing regulations apply.
- Permanently stationed in Alaska for less than 12 months may purchase a nonresident military sport fishing license and a nonresident military annual king salmon stamp at reduced rates and are considered nonresidents. Nonresident sport fishing regulations apply.

If you have questions about your residency, please call your local Alaska Wildlife Troopers. See the Alaska Wildlife Troopers telephone numbers listed on page 9.

SPORT FISHING LICENSE FEES - ALASKA RESIDENTS

Alaska Sport Fishing License \$20

Alaska residents 18 years old and older. Valid for the calendar year from date of purchase.

ADF&G Permanent (Senior) ID Card (PID) FREE

Free to qualifying Alaska residents. You must be 60 years old or older to apply for a PID which is good for fishing, hunting, and trapping. **FOR ALASKA RESIDENTS ONLY.** If you become a nonresident, your PID card is no longer valid and you are required to purchase a nonresident sport fishing license.

ADF&G Disabled Veteran ID Card (DV) FREE

Free to qualifying Alaska residents who are disabled veterans with a disability of 50% or greater that was incurred during military service. This card is only good for fishing and hunting. **FOR ALASKA RESIDENTS ONLY.** If you become a nonresident, your DV card is no longer valid and you are required to purchase a nonresident sport fishing license.

Resident Blind Sport Fishing License \$0.50

Affidavit required - forms are available from ADF&G or license vendors.

Low Income Sport Fishing License \$5

To be eligible for a low income license, you must be an Alaska resident and have an annual family or household income equal to or less than the most recent poverty guidelines for the state. These are set by the U.S. Department of Health and Human Services for the year preceding application. AS. 16.05.340(a)(6) **THIS IS NOT A PROGRAM BASED LICENSE.** For more information, please visit www.adfg.alaska.gov/index.cfm?adfg=license.lowincome.

SPORT FISHING LICENSE FEES - NONRESIDENTS

Nonresidents under the age of 16 years old do not need to purchase a sport fishing license. Residents of the Yukon Territory may purchase a nonresident license at Alaska resident fees. Annual sport fishing license is valid for the calendar year from date of purchase.

1-Day Sport Fishing License \$15

3-Day Sport Fishing License \$30

7-Day Sport Fishing License \$45

14-Day Sport Fishing License \$75

Annual Sport Fishing License \$100

Nonresident Military Annual Sport Fishing License ... \$20

Only for active duty military service members permanently stationed in Alaska for less than 12 months or for their dependent(s) of such.

SPORT FISHING HARVEST RECORD

Harvest records are required by ALL anglers when harvesting any species with an annual limit. Species with an annual limit are listed in the general regulations section.

- Areas to record harvested species with an annual limit are printed on each sport fishing license.

- A harvest record card is required for resident anglers under 18 years old, nonresident anglers under 16 years old, and PID or DV licensed anglers.

- Immediately upon landing and retaining a fish that has an annual limit, all anglers must enter the species, date, and location **IN INK** on the harvest record portion listed on the back or front of their sport fishing license or on a harvest record card.

- A person obtaining a duplicate or additional license or harvest record card must transfer their harvest records of species with annual limits previously landed during the current year to their new license or harvest record card.

Alaska Department of Fish and Game Division of Sport Fish Sport Fishing Annual Harvest Record Card

Youth Angler (Age & Birthday): _____

Harvest Date	Water where fish was harvested	Species

For more information, please review the back of the card or visit www.adfg.alaska.gov.

Example of a Harvest Record Card

WHERE TO GET A SPORT FISHING LICENSE, STAMP, & HARVEST CARD

Sport fishing licenses and king salmon stamps may be purchased at local ADF&G offices, from licensed local vendors (i.e. sporting good stores), and online at <https://store.adfg.alaska.gov>.

Harvest record cards are available at local ADF&G offices, from licensed local vendors, and online at https://www.adfg.alaska.gov/static/license/sportlicense/pdf/sf_harvest_record_card.pdf.

PID or DV cards may be obtained online at <https://store.adfg.alaska.gov>.

KING SALMON STAMP INFORMATION

Anglers sport fishing for king salmon including catch-and-release (except king salmon stocked into landlocked lakes) must purchase a current year's king salmon stamp. Anglers can purchase stamps online and print them immediately. If you purchase a physical stamp, it must be signed across the face of the stamp, in ink, and stuck to the back or front of your sport fishing license depending if you have purchased a handwritten sport fishing license or a sport fishing license online.

Examples of a physical king salmon stamp and a king salmon stamp purchased through the ADF&G online store. →

KING SALMON STAMP FEES

Alaska residents 18 years and older and nonresidents 16 years and older need to purchase a king stamp to fish for king salmon in fresh and salt waters.

Annual king stamps are valid for the calendar year from date of purchase.

Resident Annual King Salmon Stamp	\$10
Nonresident 1-day King Salmon Stamp	\$15
Nonresident 3-day King Salmon Stamp	\$30
Nonresident 7-day King Salmon Stamp	\$45
Nonresident 14-day King Salmon Stamp	\$75
Nonresident Annual King Salmon Stamp	\$100
Nonresident Military King Salmon Stamp	\$30
Duplicate King Salmon Stamp	\$5

The following individuals do not need a king salmon stamp:

- Resident anglers under 18 and nonresidents under 16.
- Residents who possess an ADF&G PID or DV card.
- Residents who possess the Low Income Sport Fishing License.
- Residents who possess the Resident Blind Sport Fishing License.

Purchase your sport fishing license, king salmon stamp, permits, and so much more through the ADF&G online store.

HARVEST RECORD REQUIREMENTS

- Harvest records are required when angling for any species with an annual limit.
- A harvest record form is printed on the sport fishing license. For anglers who do not require a sport fishing license, free harvest reporting cards are available online at https://www.adfg.alaska.gov/static/license/sportlicense/pdf/sf_harvest_record_card.pdf or from ADF&G offices and from fishing license vendors.
- Annual limits are listed in the General and Special Regulations for each area.
- Immediately upon landing and retaining a fish that requires harvest recording, anglers must enter the species, date, and location, IN INK, on the back of their sport fishing license or on the harvest record card.

DATA COLLECTION REQUIREMENTS

- Upon request by a Department representative or state peace officer, anglers must forfeit the heads of any salmon or trout with external or internal tags and all fish that are adipose fin-clipped along with the date and location of where caught.

LIABILITY FOR VIOLATIONS

- Unless otherwise provided by regulation or statute, a person who violates a provision of these regulations is strictly liable for the offense, regardless of that person's intent.

PROHIBITED ACTS

CLOSED WATERS/ WATERS CLOSED TO SPORT FISHING:

- Unless otherwise provided by area regulations: (a) the waters within 300 feet of a fish weir or fish ladder are closed to sport fishing, unless a lesser or greater distance is indicated by Department markers; and (b) it is unlawful to cast, drift, or place by any means a hook, bait, lure, or fly into waters closed to sport fishing.

FELT-SOLED BOOTS PROHIBITED:

- The use of footgear with absorbent felt or other fibrous material on the soles is prohibited while sport fishing in fresh water.

GAFFS PROHIBITED:

- A gaff may not be used to puncture any fish intended or required to be released.

MOLESTING OF FISH:

- Molesting or impeding spawning or the natural movement of fish contrary to lawful methods and means of sport fishing is prohibited.

POSSESSION, TRANSPORT, OR MARKING OF LIVE FISH, EGGS, OR AQUATIC ORGANISMS:

- It is unlawful, except in accordance with the provisions listed on page 7 under "Use of Sport-Caught Fish as Bait," or in compliance with the terms of a permit issued by the Commissioner for a person to collect, transport, possess, propagate, export, mark in any way, or release into the waters or the lands of the state, any live fish, fish eggs, or aquatic organism.
- It is unlawful for a person to possess, import, propagate, transport, release, purchase, or sell within the state a banned invasive species (see Definitions on page 8), including any part of the organism, such as reproductive or genetic material, at any stage of its life cycle.

SALE OF SPORT-CAUGHT FISH PROHIBITED:

- No person may buy, sell, or barter sport-caught fish or their parts.

SNAGGING IN FRESH WATER PROHIBITED:

- It is unlawful to intentionally snag or attempt to snag any fish in fresh water.
- "Snag" means to hook a fish elsewhere than in its mouth. A fish unintentionally hooked elsewhere than its mouth must be released immediately.
- Unless otherwise prohibited under area regulation, snagging is allowed in salt water.

USE OF EXPLOSIVES OR TOXICANTS:

- The use of any toxicant or explosive is prohibited in the taking of any fish in the waters of Alaska. Except that a shaft tipped with an explosive charge (commonly known as a bangstick or powerhead) or a firearm may be used on board a vessel in salt water to dispatch a fish caught with legal gear.

WASTE OF FISH:

- The intentional waste or destruction of any species of sport-caught fish is prohibited.

METHODS AND MEANS

FRESH WATER SPORT FISHING:

Fish may not be taken in fresh water by means of:

- Fixed or weighted hooks and lures (except those of standard manufacture);
- Multiple hooks with gap between point and shank larger than one-half inch;
- Spear, unless permitted by area regulations; or arrow, unless permitted by area regulations.
- **Spearguns are not legal gear in fresh waters.**

ICE FISHING GEAR:

- Sport fishing through the ice is permitted using two closely attended lines, provided only one hook or artificial lure is used on each line, except that additional gear may be used for northern pike and burbot as specified in statewide or area regulations.
- The maximum number of lines/hooks that an angler may deploy is not cumulative and is equal to the maximum number of lines/hooks allowed for any species. The number of lines/hooks used to target a species may not exceed the number allowed for that species. For example, in a lake where regulations allow 15 lines for burbot and 5 lines for northern pike, the maximum number of lines you may fish is 15 (not $15 + 5 = 20$); and when setting your 15 lines, only 5 of them may be placed to target northern pike.

SPORT FISHING GEAR:

Unless otherwise provided in regulation, sport fishing may be conducted only by use of:

- A closely attended single line attached to not more than one plug; one spoon; one spinner or series of spinners; two artificial flies; or two hooks.
- The line must be closely attended, unless unattended setlines for burbot are allowed per area regulations.

METHODS AND MEANS (CONTINUED)

SPORT FISHING GEAR FOR BURBOT:

Unless otherwise provided by area regulations, burbot may be taken in fresh water with more than one line and hook, provided:

- The total aggregate number of hooks may not exceed 15 or the daily bag limit for burbot in the waters being fished, whichever is less.
- Hooks are single hooks with gap between point and shank larger than $\frac{3}{4}$ inch.
- Each hook is set to rest on the bottom of the lake or stream.
- Each line is identified with angler's name and address.
- Each line is physically inspected at least once in each 24-hour period.

SPORT FISHING GEAR FOR HERRING AND SMELT:

- In salt water, herring and smelt may be taken with the use of 15 or less unbaited single or multiple hooks attached to a single line.

SPORT FISHING GEAR FOR NORTHERN PIKE:

- Unless otherwise provided by the area regulations, northern pike may be taken by spear.

USE OF ATTRACTOR (BEAD):

An attractor, including a bead, when used with an artificial fly, artificial lure, or bare hook, must be:

- Either fixed within two inches of the bare hook, fly, or lure,
- Or be free sliding on the line or leader.
- A bead fished on the line above a bare single hook is legal gear in waters where only flies may be used.

USE OF UNDERWATER SPEAR (SALT WATER):

- In salt water, spears and spearguns may be used to take fish, subject to applicable seasons and limits, by persons who are completely submerged, provided that the spear or speargun is not tipped with an explosive charge.

SPORT FISH GUIDING

- All individuals and businesses who are providing sport fishing guide services must register and obtain a guide and/or business registration with ADF&G before guiding clients.
- All sport charter vessels used for the guided taking of fish or shellfish in fresh or salt water must have a current Division of Motor Vehicles boat registration number or USCG documentation number and an ADF&G sport fishing guide vessel decal with the current year renewal sticker.
 - Decals must be displayed in plain sight on each side of the vessel any time sport fishing guide services are taking place.
- In Southeast Alaska, all saltwater sport fishing businesses must use an eLogbook.
- Additional information on requirements for sport fish guides and businesses can be found online at www.adfg.alaska.gov/index.cfm?adfg=SFGuidesLicense.main.

USE OF SPORT-CAUGHT FISH AS BAIT

- Unless provided for in this section, fish taken under sport fishing regulations may not be used as bait, except;
 - Herring and whitefish may be used as bait.
 - Species for which bag limits, seasons, or other regulatory methods and means are not provided in sport fishing regulations may be used as bait.
 - The head, tail, fins, and viscera of legally taken sport fish, may be used as bait.
- Live fish may not be used as bait for sport fishing in fresh water.
- Live herring and other species for which no seasonal or harvest limits are specified in sport fishing regulations may be used as live bait in salt water.
- Live bait may be possessed, transported, or released only in the salt waters of the regulatory area in which it was taken.

POSSESSION OF SPORT-CAUGHT HALIBUT

- Pacific halibut fisheries are managed by the federal government under international treaty.
- Federal possession and landing requirements for sport-caught halibut differ from state regulations. Possession includes unpreserved AND preserved fish for halibut, but possession limits only apply in saltwaters.
- Transfer of Possession forms, as mentioned in the previous section, are not valid for halibut.
- Consult federal regulations for halibut bag, size, and possession limits for guided (charter) anglers; and possession and landing requirements.
- Federal halibut regulations are available through NOAA Fisheries Alaska Region at (907) 586-7228.
www.alaskafisheries.noaa.gov/fisheries/sport-halibut

POSSESSION OF SPORT-CAUGHT FISH

- Sport-caught fish, their parts, and articles manufactured from such fish may be possessed within the state by any person at any time, and may be transported within and exported out of the state by any person at any time, except that no person may possess any unpreserved fish, or part of one, not legally taken by the angler, unless the angler furnishes, upon request of any peace officer of the state, a statement signed by the person taking the fish stating the type of fish, number of fish, location, date taken, and license number. See Transfer of Possession Form on page 39. The statement is unnecessary if the person possessing the fish is accompanied by the person who took the fish. No person may possess fish which were not legally taken.
- A person may possess only the limit of fish allowed for the water on which that person is fishing.
- Upon request by an employee of the department, or a peace officer of the state, a person must present for inspection any fish taken or possessed by the person in a sport fishery.
- Upon request by an employee of the department or a peace officer of the state, a person while taking fish must present, for inspection, any apparatus designed to be or capable of being used to take fish in a sport fishery.

The following are some of the definitions set forth in AS 16.05.940, 5 AAC 75.020, and 5 AAC 75.995.

AREA: Means a regulatory management area as described in 5 AAC 47-5 AAC 74.

ARTIFICIAL FLY: A fly which is constructed by common methods known as fly tying, including a dry fly, wet fly, and nymph, or a bare single hook that is free of bait as defined in 5 AAC 75.995. Materials and chemicals designed and produced primarily to cause flies to float or sink may be used on artificial flies.

ARTIFICIAL FLY (UNWEIGHTED): A fly which weighs less than ¼ ounce in its entirety.

ARTIFICIAL LURE: Any lure which is man-made, free of bait as defined in 5 AAC 75.995, and is used to attract fish. This includes an artificial fly.

BAG LIMIT: The maximum legal take of fish per person per day, in the area in which the person is fishing, even if part or all of the fish are immediately preserved; a fish when landed and not immediately released becomes a part of the bag limit of the person originally hooking it.

• The per person, per day bag limit applies across fisheries. You cannot take a bag limit of fish from one area then move to another area and take another limit there. However, if the bag limit of a specific species is higher in a particular area (for example, 6 fish per day in one area and 3 per day of the same species in another) you can take 3 fish from one area and move to the area with the higher bag limit and take 3 from there. If you have any questions, please call ADF&G at (907) 267-2218.

BAIT: Any substance applied to fishing gear for the purpose of attracting fish by scent, including fish eggs in any form, natural or preserved animal, fish, fish oil, shellfish, or insect parts, natural or processed vegetable matter, and natural or synthetic chemicals.

BANNED INVASIVE SPECIES: A nonnative species that can become established in Alaska; compete with native species for resources; degrade habitat; threaten the health or population of native species; or cause economic and environmental harm. These species include the American bull frog, Pacific chorus frog, red-legged frog, signal crayfish, red swamp crayfish, rusty crayfish, European green crab, Asian carp, yellow perch, New Zealand mudsnail, Dreissenid mussels, quagga mussel, zebra mussel, and Conrad's or dark false mussel.

CHAR: All char, including Dolly Varden, Arctic char, lake trout (Mackinaw), and eastern brook trout.

CHARTER VESSEL: Means a vessel used for hire in the sport, personal use, or subsistence taking of fish or shellfish, and not used on the same day for any other commercial fishing purpose; a charter vessel does not include a vessel or skiff without a charter vessel operator.

CHARTER VESSEL OPERATOR: A person engaged in carrying passengers on a charter vessel for any valuable consideration that passes directly or indirectly to the vessel's owner, operator, or a person with a financial interest in the vessel, in consideration of the carriage of any person on board.

CLOSED SEASON: The time during which fish may not be taken; including no catch-and-release fishing.

CLOSED WATERS: Waters designated by the Board wherein it is illegal to take fish.

CLOSELY ATTENDED LINE: That the line or strike indicator is within the view of and is accessible to the angler at all times.

DRAINAGE: All of the waters comprising a watershed including tributary rivers, streams, sloughs, ponds, and lakes which contribute to the water supply of the watershed.

FISHING ROD: A tapered, flexible rod typically used for sport fishing, equipped with a hand grip and a line guide system that guides the line from the reel to the tip of the rod, and upon which is mounted a fishing reel used to deploy and retrieve the sport fishing line.

FLOWING WATERS: Means all fresh waters, excluding lakes and ponds, that have detectable current, including creeks, streams, and rivers draining into, between, and out of all lakes and ponds, and all intertidal waters upstream of the stream mouth.

FRESH WATER: All inland waters; inland waters are separated from salt water at the mouths of creeks, streams, and rivers at a line between extremities of the latter's banks at a mean low tide or at a point to be determined and adequately marked by the Department.

LENGTH OF FISH: The length from the tip of the snout to the tip of the tail (total length).

LOCAL REPRESENTATIVE OF THE DEPARTMENT: (a) The nearest most accessible professional employee of the Department, (b) a person designated by the Commissioner or by a professional employee of the Department to perform specific functions for the Department, or (c) a law enforcement officer of the Department of Public Safety.

MARK OR MARKING: All forms of skin alteration, fin clipping, or other mutilation, or insertion of foreign materials in live fish that permit later identification.

MESH SIZE (Stretch Mesh Size, Stretch Measure): The average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be integral part of the net, as hung, and measured perpendicular to the selvages; measurement shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under five pound weight, except as otherwise provided in this title.

MOLESTING: The harassing, disturbing, or interfering with fish by any means, including the use of any missile or object not established as legal gear; molesting includes dragging, kicking, throwing, striking, or otherwise abusing a fish which is intended to be released.

MULTIPLE HOOK: A fish hook with two or more points with or without barbs.

OPEN SEASON: The time during which fish may lawfully be taken; each period of time prescribed as an open season shall be construed to begin at 12:01 a.m. on the first day and end at midnight of the last day thereof.

PEACE OFFICER OF THE STATE: (a) An employee of ADF&G authorized by the Commissioner; (b) a police officer in the state; or (c) any other person authorized by the Commissioner.

POSSESSION LIMIT: The maximum number of unpreserved fish a person may have in possession.

POWER ASSISTED FISHING REEL: A reel used to deploy and retrieve the sport fishing line that is operated or assisted by any electronic hydraulic, or other mechanical power source other than by hand-cranking a handle attached to the reel.

DEFINITIONS

PRESERVED FISH: Fish prepared in such a manner, and in an existing state of preservation, as to be fit for human consumption after a 15-day period, and does not include unfrozen fish temporarily stored in coolers that contain ice, dry ice, or fish that are lightly salted.

REEL SEAT: An attachment mechanism that holds the fishing reel to the rod using locking, threading rings, sliding bands, or other attachment devices and is designed to allow the reel to be readily detached from the fishing rod.

ROCKFISH: Includes all fish of the genus *Sebastes*.

SALMON: All salmon, including the five species of Pacific salmon: Chinook (king), chum (dog), coho (silver), pink (humpy), and sockeye (red).

SALT WATER: All marine waters; marine waters are separated from fresh water at the mouths of streams, rivers, and creeks.

SET LINE: An unattended line or lines that have been set, staked, anchored, or otherwise fixed.

SINGLE HOOK: A fish hook with only one point with or without a barb.

SNAG: To hook a fish elsewhere than in its mouth.

SPEAR: A hand-operated shaft with a sharp point or fork-like implement attached to one end, used to thrust through the water to impale or retrieve fish; includes a Hawaiian sling or pole spear which is a shaft propelled by a single loop of elastic material that is not equipped with a mechanical release or trigger.

SPEARGUN: A device designed to propel a spear through the water by means of elastic bands, compressed gas, or other mechanical propulsion to take fish that is equipped with a mechanical release or trigger.

SPORT FISHING: The taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held in the hand, or by hook and line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Alaska Board of Fisheries.

SPORT FISHING GUIDE: A person who provides sport fishing guide services to persons who are engaged in sport fishing.

SPORT FISHING GUIDE SERVICES: Assistance, for compensation or with the intent to receive compensation, to a sport fisherman to take or attempt to take fish by accompanying or physically directing the sport fisherman in sport fishing activities during any part of a sport fishing trip; however, the term does not include sport fishing services or services provided by an assistant, deckhand, or similar person who works directly under the supervision of and on the same vessel as a sport fishing guide.

SPORT FISHING SERVICES: The indirect provision of assistance, for compensation or with the intent to receive compensation, to a person engaged in sport fishing in taking or attempting to take fish or shellfish by a business that employs a sport fishing guide to provide sport fishing guide services to the person during any portion of a sport fishing trip; sport fishing services does not include an activity for which a sport fishing guide license is required, or booking and other ancillary services provided by a tour broker or agent to a sport fishing services operator.

STREAM MOUTH: The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank, or a point defined and marked by the Department.

TAKE: Taking, pursuing, fishing, or in any manner disturbing, capturing, or killing or attempting to take, pursue, fish, or in any manner capture or kill fish or shellfish.

TOXICANT: Any material or chemical that upon introduction to the waters of Alaska by direct or indirect means will kill, stun, or drive fish from their natural repose.

TRANSPORT: Ship, transport, carry, import, export, or receive or deliver for shipment, transportation, carriage, or export.

TROUT: Includes rainbow, steelhead, and cutthroat.

WATERS OF ALASKA: Has the same meaning as set out in 5 AAC 39.975(13).

YEAR: The calendar year from January 1 through December 31.

MAJOR DRAINAGES OF BRISTOL BAY

GENERAL REGULATIONS - BRISTOL BAY

Inclusive waters: All fresh waters draining into Bristol Bay between Cape Menshikof and Cape Newenham, and all salt waters east of a line from Cape Newenham to Cape Menshikof.

Fishing for all species is open year-round unless otherwise noted below.

Check for emergency orders online at www.adfg.alaska.gov/sf/EONR prior to fishing waters located within the Bristol Bay salt and fresh water areas.

KING SALMON

- **Open season:** May 1-July 31.
 - 20 inches or longer: There is an annual limit of 5 king salmon 20 inches or longer in Bristol Bay salt and fresh waters. Of those 5 total king salmon, no more than 4 may be harvested from the Nushagak/Mulchatna River Drainage, and no more than 2 may be harvested from the Wood River Drainage.
 - If you retain a king salmon 20 inches or longer, you must immediately record that harvest. See page 5 for recording instructions.
- **Fresh Waters:**
 - King salmon removed from the water must be retained. Any king salmon removed from the fresh water drainages of Bristol Bay from Cape Menshikof to Cape Newenham **MUST BE RETAINED** and becomes part of the bag limit of the person who originally hooked it. If you intend to release a king salmon, you may not remove it from the water before releasing it.
 - 20 inches or longer: 3 per day, 3 in possession, only 1 of which may be 28 inches or longer.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Salt Waters:**
 - 3 per day, 3 in possession, only 2 of which may be 28 inches or longer.

OTHER SALMON

- 5 per day, 5 in possession.

ARCTIC CHAR AND DOLLY VARDEN

- **Season:** June 8-October 31.
 - 3 per day, 3 in possession.
- **Season:** November 1-June 7.
 - 10 per day, 10 in possession.

RAINBOW TROUT

- **Season:** June 8-October 31.
 - 2 per day, 2 in possession, only 1 of which may be 20 inches or longer.
- **Season:** November 1-June 7.
 - 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

ARCTIC GRAYLING

- 2 per day, 2 in possession.

LAKE TROUT

- 4 per day, 4 in possession.

NORTHERN PIKE

- 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

BURBOT

- 15 per day, 15 in possession.

HALIBUT

Pacific halibut fisheries are managed by the federal government under international treaty. See page 7 for federal contact information.

- **Season:** February 1-December 31.
- **Unguided anglers:** 2 per day, 4 in possession.
- **Consult federal regulations for the following:**
 - Bag, possession and size limits, and other regulations for guided (charter) anglers.
- **Filleting requirements for fish cleaned at sea:**
 - No person shall possess on board a vessel, including charter vessels and pleasure craft used for fishing, Pacific halibut that have been filleted, mutilated, or otherwise disfigured in any manner, except that each Pacific halibut may be cut into no more than 2 ventral pieces, 2 dorsal pieces, and 2 cheek pieces, with a patch of skin on each piece, naturally attached.

LINGCOD

- No limit.

ROCKFISH

- No limit.

KING CRAB

- **Season:** June 1-January 31.
 - Males only:
 - 6½ inches or more, 6 per day, 6 in possession.

DUNGENESS CRAB

- Males only:
 - 6½ inches or more, 12 per day, 12 in possession.

TANNER CRAB

- Males only:
 - 5½ inches or more, 12 per day, 12 in possession.

SHARKS (EXCEPT SPINY DOGFISH)

- 1 per day, 1 in possession, no size restrictions.
- Annual limit of 2 sharks. Harvest record required. See page 5 for recording instructions.

SPINY DOGFISH

- 5 per day, 5 in possession, no size limit. A harvest record is not required.

OTHER FINFISH

- No limit.

METHODS AND MEANS - BRISTOL BAY

CHUMMING:

- In waters closed to the use of bait, sport fishing guides and guided anglers are prohibited from placing in the water any substance (bait) for the purpose of attracting fish by scent.

SPORT FISHING GUIDES AND THE RETENTION OF FISH:

- A sport fishing guide may not retain fish while the guide is accompanying or personally directing the angler in fishing activities during any portion of a guided fishing trip.

...continued

UNGALIKTHLUK RIVER DRAINAGE

Bristol Bay resident species are fun to catch with family and friends.

SPECIAL REGULATIONS - BRISTOL BAY

UNGALIKTHLUK RIVER DRAINAGE - including the Negukthlik River:

- **June 8-April 9:** Open to fishing.
- Only unbaited, single-hook, artificial lures or flies may be used.
- Rainbow trout limits:
 - **June 8-October 31:** No retention of rainbow trout. All rainbow trout caught must be released immediately.
 - **November 1-April 9:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

...continued

SPECIAL REGULATIONS - BRISTOL BAY

WOOD RIVER DRAINAGE:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 31:** Open to fishing for king salmon.
 - King salmon limits:
 - Less than 20 inches: 10 per day, 10 in possession.
 - 20 inches or longer: 1 per day, 1 in possession, only 1 of which may be 28 inches or longer.
 - There is an annual limit of 2 king salmon over 20 inches taken from the Wood River drainage. All harvested king salmon 20 inches or longer must be recorded; see page 5.
- **Agulowak River - from an ADF&G regulatory marker at the outlet of Lake Nerka, downstream to Lake Aleknagik, including waters of Lake Aleknagik within ½ mile of the Agulowak River outlet:**
 - Only unbaited, single-hook, artificial lures or flies may be used.
 - Rainbow trout limits: 1 per day, 1 in possession.
 - Arctic char/ Dolly Varden limits: 2 per day, 2 in possession.

- **Agulukpak River - from the outlet of Lake Beverly to the island located 1.2 miles downstream:**

- **September 1-June 7:** Only unbaited, single-hook, artificial lures or flies may be used.
- **June 8-August 31:** Only unbaited, single-hook, artificial flies may be used.
- Rainbow trout limits:
 - **June 8-October 31:** No retention. All rainbow trout caught must be released immediately.
 - **November 1-June 7:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.
- **Kulik Lake:**
 - Northern pike: No retention of northern pike 30 inches or longer.

...continued

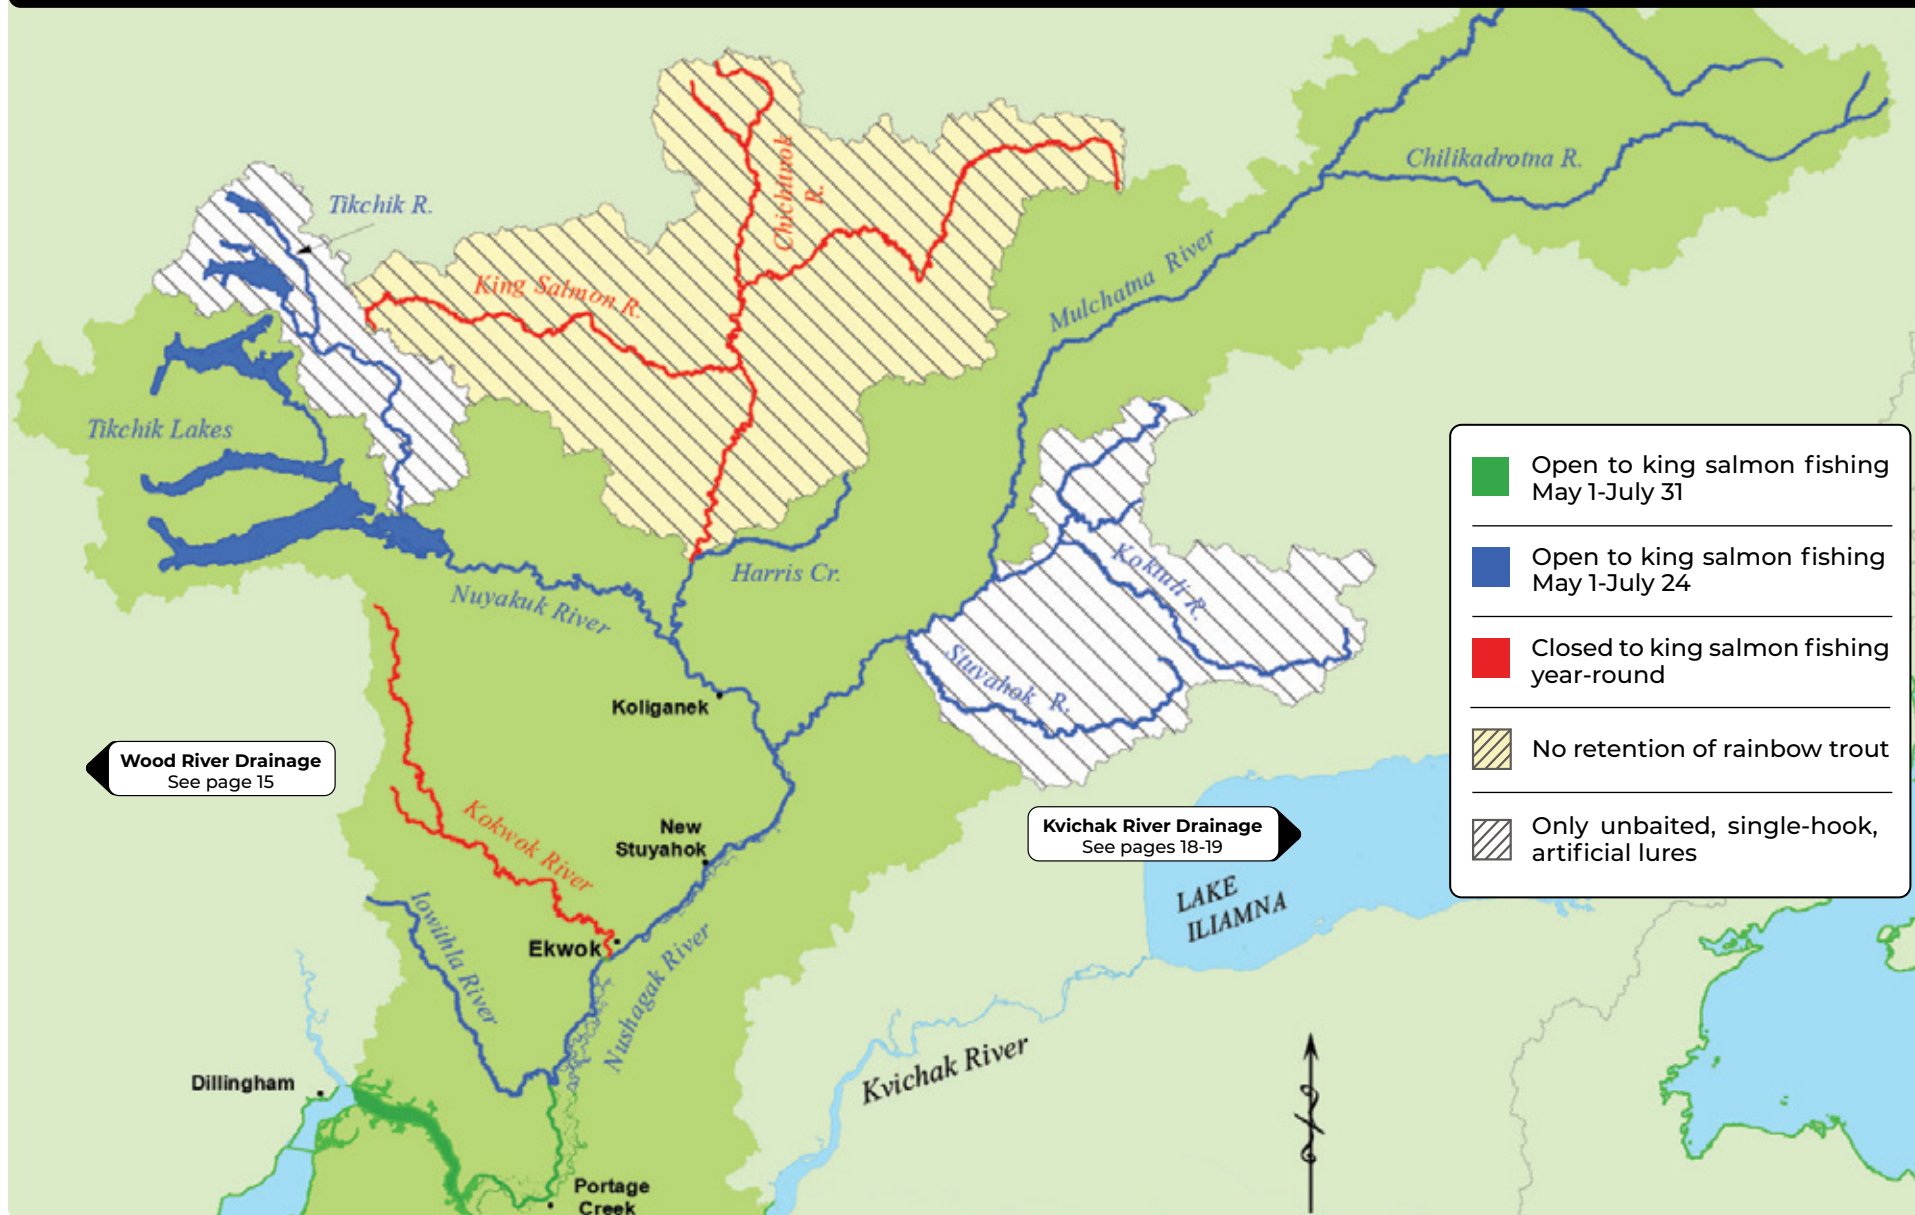

All the feels and smiles when you reel in a fish on your own.

WOOD RIVER DRAINAGE

NUSHAGAK/MULCHATNA RIVER DRAINAGE

The Nushagak/Mulchatna Chinook and Coho Salmon Management Plans may require inseason adjustments to the regulations (emergency orders) for seasons, bag limits, gear, and open waters, depending on escapement levels of king or coho salmon. See page 3 for instructions on how to check for emergency orders in the area you are fishing.

NUSHAGAK/MULCHATNA DRAINAGE:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 31:** Only one single-hook lure or fly, or one single-hook may be used. The use of bait is allowed during this time frame. Refer to page 7 for number of allowable hooks per target species.
- **August 1-April 30:** Bait and multiple hooks are allowed.
- **In waters of the Nushagak/Mulchatna River drainage open to fishing for king salmon:**
 - King salmon limits:
 - 20 inches or longer:
 -  2 per day, 2 in possession, **only 1 king salmon 28 inches or longer may be retained annually from the Nushagak/ Mulchatna River drainage.**
 - After taking a bag limit of king salmon 20 inches or longer from the Nushagak/Mulchatna River drainage, you may only use **one unbaited, single-hook, artificial lures or flies** in the Nushagak/Mulchatna River drainage for the remainder of the day.
 - There is an annual limit of 4 king salmon over 20 inches taken from the entire Nushagak/Mulchatna drainage, only 1 of which may be 28 inches or longer.
 - All harvested king salmon 20 inches or longer must be recorded. See page 5 for recording instructions.
 - Less than 20 inches: 5 per day 5 in possession
 - **From its confluence with the Iowithla River, upstream to Harris Creek, including the Iowithla River:**
 - **May 1-July 24:** Open to fishing for king salmon.
 - **Upstream of its confluence with Harris Creek:**
 - **Closed year-round to fishing for king salmon.**
 - Bait prohibited, only unbaited, single-hook, artificial lures may be used year-round.
 - Rainbow trout: No retention year-round. All rainbow trout caught must be released immediately.

KOKWOK RIVER - including waters of the Nushagak River within ¼ mile of its confluence with the Kokwok River:

- Open to fishing year-round for species other than king salmon.
- Closed year-round to fishing for king salmon.

KOKTULI RIVER DRAINAGE:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 24:** Open to fishing for king salmon.
- Only unbaited, single-hook, artificial lures or flies may be used year-round.

MULCHATNA RIVER DRAINAGE - from ADF&G markers about 1½ miles downstream from the Stuyahok River outlet, upstream to markers about 1½ miles upstream from the Koktuli River outlet:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 24:** Open to fishing for king salmon.
- Only unbaited, single-hook, artificial lures or flies may be used year-round.

NUYAKUK RIVER - from the outlet of Tikchik Lake to an island located about 2 miles downstream from Nuyakuk Falls:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 24:** Open to fishing for king salmon.
- Only unbaited, single-hook, artificial lures or flies may be used year-round.

STUYAHOK RIVER DRAINAGE:

- Open to fishing year-round for species other than king salmon.
- **May 1-July 24:** Open to fishing for king salmon.
- Only unbaited, single-hook, artificial lures or flies may be used year-round.

TIKCHIK RIVER DRAINAGE:

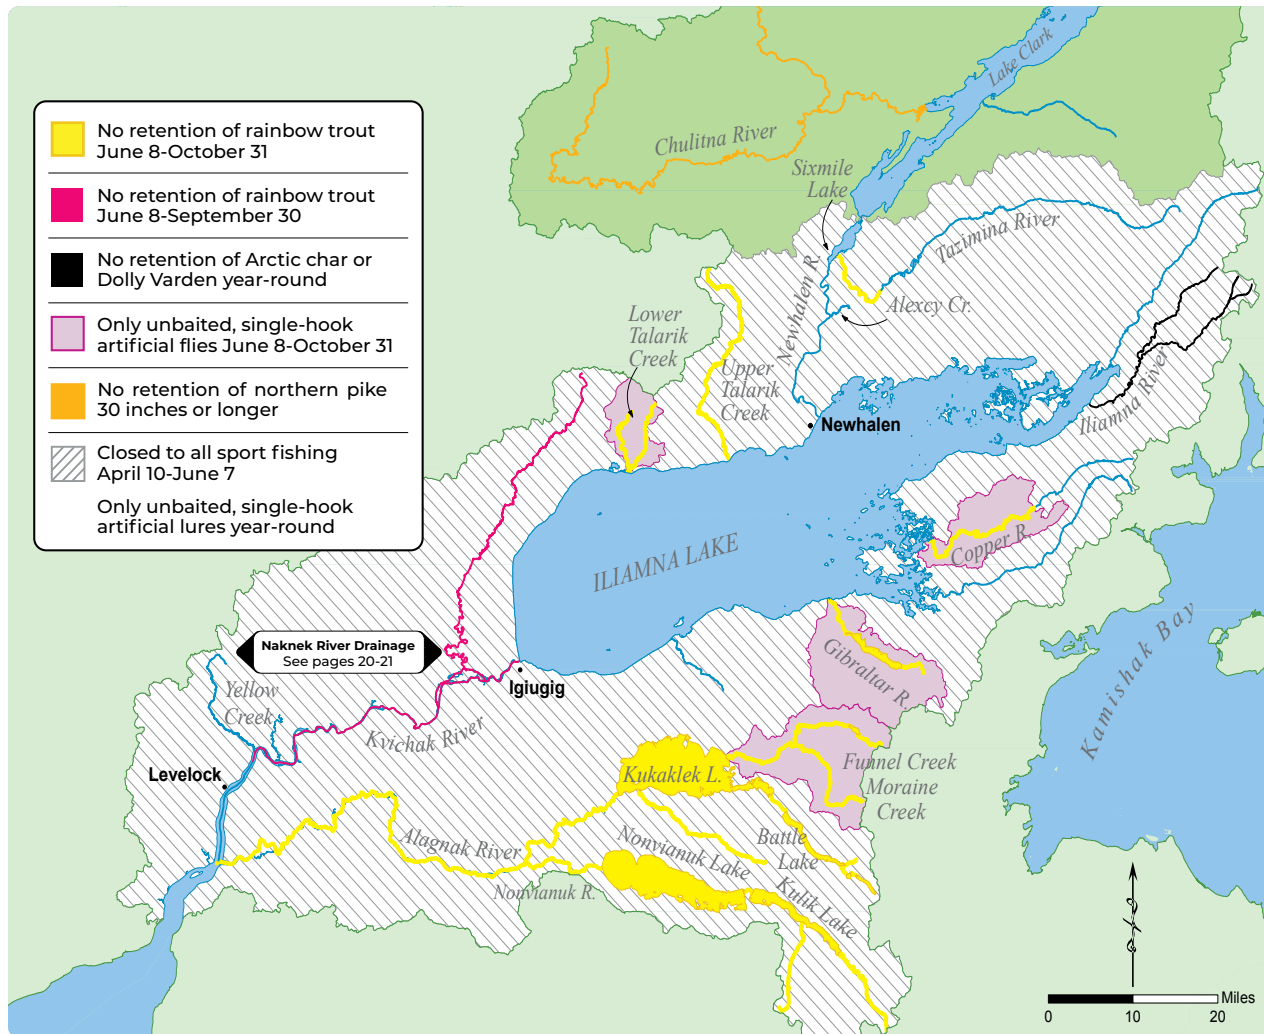

- Open to fishing year-round for species other than king salmon.
- **May 1-July 24:** Open to fishing for king salmon.
- Only unbaited, single-hook, artificial lures or flies may be used year-round.

...continued

A successful day of fishing for these anglers.

KVICHAK AND ALAGNAK RIVER DRAINAGES

The Kvichak In-river Sockeye Salmon Management Plan may require inseason changes to sockeye salmon bag limits and waters open to fishing, depending on escapement levels. See page 3 for instructions on how to check for emergency orders in the area you are fishing.

CHULITNA RIVER DRAINAGE - including waters of Lake Clark within 1 mile of the Chulitna River:

- Open to fishing year-round.
- Northern pike:
 - No retention of northern pike 30 inches or longer is allowed. All northern pike 30 inches or longer must be immediately released.

KVICHAK RIVER DRAINAGE:

Use of helicopters for transporting anglers and sport-caught fish is prohibited in the Kvichak River drainage.

- Salmon limits (except king salmon) excluding the Alagnak River drainage:
 - 5 per day, 5 in possession; only 2 per day, 2 in possession may be coho salmon.
- **Kvichak River upstream from its outlet in Kvichak Bay to Iliamna Lake:**
 - **April 10-June 7:** Closed to all sport fishing.
 - Only unbaited, single-hook, artificial lures or flies may be used year-round, except in lake waters more than a ½ mile radius from inlet or outlet streams.
- **Kvichak River from Kvichak Bay upstream to an ADF&G marker at the confluence of Yellow Creek:**
 - Rainbow trout limits:
 - **June 8-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-April 9:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.
- **From an ADF&G regulatory marker at the confluence of Yellow Creek upstream to the waters of Iliamna Lake within a ½ mile radius of its outlet at Igiugig:**
 - Rainbow trout limits:
 - **June 8-September 30:** No retention of rainbow trout is allowed. All rainbow trout must be immediately released.
 - **October 1-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-April 9:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

ILIAMNA LAKE and all its tributaries, including the Newhalen River and tributaries, upstream to the outlet of Lake Clark:

- Open to fishing year-round except in lake waters within a ½ mile radius from inlet or outlet streams.
- Only unbaited, single-hook, artificial lures or flies may be used year-round, except in waters of lakes more than a ½-mile radius from inlet or outlet streams.
- **All flowing waters, and lake waters within a ½ mile radius of inlet or outlet streams:**
 - **April 10-June 7:** Closed to all sport fishing. In lake waters more than ½ mile distant from inlet or outlet streams, General Regulations and limits apply.
- **In all waters except those of lakes more than a ½ mile radius from inlet or outlet streams:**
 - Rainbow trout limits:
 - **June 8-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-April 9:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

LOWER TALARIK CREEK - including waters of Lake Iliamna within ½ mile of the Lower Talarik Creek mouth:

- **June 8-October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8-October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

UPPER TALARIK CREEK - including waters of Lake Iliamna within ½ mile of the Upper Talarik Creek mouth:

- **June 8-October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

GIBRALTAR RIVER DRAINAGE - including all flowing waters and the waters of Lake Iliamna within ½ mile of the Gibraltar River mouth:

- **June 8-April 9:** Open to fishing.
- **June 8-October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8-October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

COPPER RIVER DRAINAGE - including all flowing waters downstream from Lower Copper Lake and the waters of Lake Iliamna within ½ mile of the Copper River mouth:

- **June 8-April 9:** Open to fishing.
- **June 8-October 31:** Bait prohibited. Only unbaited artificial flies may be used.
- **June 8-October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

TAZIMINA RIVER - from the falls, downstream to 1 mile upstream of its outlet into Sixmile Lake:

- **June 8-April 9:** Open to fishing.
- **June 8-October 31:** Rainbow trout may not be retained. All rainbow trout must be immediately released.

SIXMILE LAKE AND LAKE CLARK:

- **In all tributaries upstream of Sixmile Lake, including Lake Clark:**
 - Open to fishing year-round.
 - Rainbow trout limits:
 - **June 8-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-June 7:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

ILIAMNA RIVER DRAINAGE:

- **June 8-April 9:** Open to fishing.
- Arctic char and Dolly Varden: No retention of Arctic char or Dolly Varden is allowed. All Arctic char or Dolly Varden must be released immediately.

ALAGNAK RIVER DRAINAGE (Unless further restricted below. See map on page 18):

The use of helicopters for transporting anglers and sport-caught fish is prohibited.

- Salmon limits (all species except king): 5 per day, 5 in possession, only 3 per day, 3 in possession may be coho salmon. Limits for king salmon are the same as shown under General Seasons and Limits on page 13.
- Rainbow trout limits:
 - **June 8-October 31:** No retention of rainbow trout is allowed. All rainbow trout must be released immediately.
 - **November 1-April 9:** The daily limit is 5 per day, 5 in possession, must be less than 18 inches long.
- **Alagnak River Drainage** - all flowing waters of the Alagnak River drainage, including lake waters within ½ mile of all inlet and outlet streams:
 - **June 8-April 9:** Open to fishing.
 - Only unbaited, single-hook, artificial lures or flies may be used.

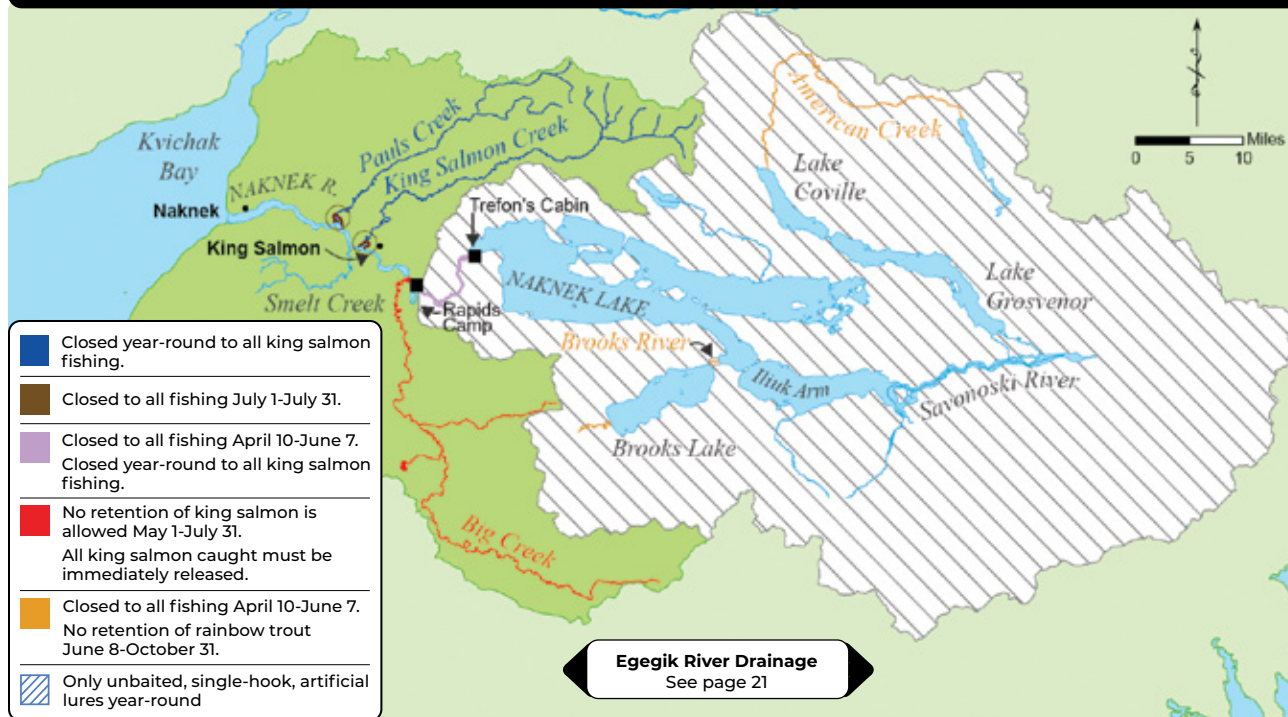

MORaine CREEK DRAINAGE (all flowing waters):

- **June 8-April 9:** Open to fishing.
- **June 8-October 31:** Only unbaited, single-hook, artificial flies may be used.

...continued

NAKNEK RIVER DRAINAGE

Naknek River Drainage Special Regulations continued...

- **Upstream from ADF&G markers located ½ mile above Rapids Camp to ADF&G markers at Trefon's cabin at the outlet of Naknek Lake:**
 - **Closed year-round to fishing for king salmon.**
 - **June 8-April 9:** Open to fishing.
 - **March 1-April 9** and from **June 8-July 31:** Only unbaited, single-hook, artificial lures or flies with a gap between the point and shank of ½ inch or less are allowed. For the remainder of the year, only unbaited, single-hook, artificial lures or flies may be used.
- **Within a 1/4 mile radius of Big Creek:**
 - **May 1-July 31:** King salmon may be retained. Bag limits and gear restrictions are the same as the remainder of the Naknek River.

NAKNEK RIVER YOUTH-ONLY FISHERY:

- If you are 15 years of age and younger, you may fish for all species in the designated Youth-Only fishery areas. Follow the Naknek River special regulations for king salmon and rainbow trout gear and bag limits, and general regulations for all other species and bag limits.
- A person 16 years or older may not sport fish on the Naknek River in the designated Youth-Only fishery areas on the dates listed below:

• **Naknek River:**

- Fishing is allowed on June 7.
- **Between the ADF&G regulatory markers posted above Rapids Camp:**
 - Fishing is allowed on the second Sunday in July. In 2023, this will be July 9, 2023.
- **Between the ADF&G regulatory markers posted above and below the mouth of King Salmon Creek including King Salmon Creek:**
 - Fishing is allowed on the second Sunday in August. In 2023, this will be August 13, 2023.

...continued

SPECIAL REGULATIONS

NAKNEK RIVER DRAINAGE:

- Open to fishing year-round.

In waters of the Naknek River drainage open to fishing for king salmon:

- **King salmon limits:**
 - 20 inches or longer: 3 per day, 3 in possession, one 1 may be 28 inches or longer.
 - There is an annual limit of 5 king salmon over 20 inches taken from the entire Naknek River drainage, only 3 of which may be over 28 inches long.
 - All harvested king salmon 20 inches or longer must be recorded. See page 5 for recording instructions.
- Less than 20 inches: 10 per day, 10 in possession.

- **Rainbow trout limits:**

- **June 8-October 31:** Unless further restricted below, in the Naknek River drainage, 1 per day, 1 in possession, must be less than 18 inches long.
- **November 1-June 7:** 5 per day, 5 in possession, must be less than 18 inches long.
- **In all flowing waters:**
 - **March 1-November 14:** Only unbaited, artificial lures or flies may be used.
- **In all flowing waters upstream from an ADF&G regulatory marker located ½ mile upstream of Rapids Camp, including all waters within ¼ mile of all lake inlet and outlet streams:**
 - Only unbaited, single-hook, artificial lures or flies may be used year-round.

KING SALMON CREEK:

- Rainbow trout limits:
 - 1 per day, 1 in possession, must be less than 18 inches long.
- **Upstream from ADF&G markers at the confluence with the Naknek River to the upstream side of the Alaska Peninsula Highway bridge:**
 - **August 1-May 31:** Open to fishing.
- **Upstream of the Alaska Peninsula Highway Bridge:**
 - Open year-round to fishing for species other than king salmon.
 - **Closed year-round to fishing for king salmon.**

PAUL'S CREEK:

- Rainbow trout limits:
 - 1 per day, 1 in possession, must be less than 18 inches long.
- **Upstream from ADF&G markers at confluence with the Naknek River to the upstream side of the Alaska Peninsula Highway Bridge:**
 - **August 1-May 31:** Open to fishing.
- **Upstream of the Alaska Peninsula Highway Bridge:**
 - Open year-round to fishing for species other than king salmon.
 - **Closed year-round to fishing for king salmon.**

BIG CREEK - upstream of its confluence with the Naknek River:

- Open year-round to fishing for species other than king salmon.
- **May 1-July 31:** King salmon may not be retained.
 - All king salmon caught must be released immediately.

BROOKS RIVER DRAINAGE:

- Rainbow trout limits:
 - **June 8-October 31:** Unless further restricted below, all rainbow trout caught must be immediately released.
 - **November 1-June 7:** The bag and possession limit for rainbow trout is 5 fish less than 18 inches in length.
 - Any rainbow trout caught that are 18 inches or greater in length must be immediately released.
- **In all flowing waters of the Brooks River drainage, including lake waters within ¼ mile of all inlet and outlet streams and waters of Naknek Lake within ¼ mile of the outlet of the Brooks River:**
 - **June 8-April 9:** Open to sport fishing.
 - Only unbaited, single-hook, artificial flies may be used.
 - Rainbow trout limits:
 - **November 1-April 9:**
 - 5 per day, 5 in possession, must be less than 18 inches long.
- **The outlet of Brooks Lake downstream to the bridge at Brooks Camp:**
 - Open to catch-and-release only. No retention of any species is allowed. All fish caught must be released immediately.

Brooks River and Brooks Camp are within Katmai National Park. Additional National Park regulations may apply to access and conduct of the fishery. Please call (907) 246-3305 for more information.

SAVONOSKI RIVER DRAINAGE - including the waters of Naknek Lake within ¼ mile of the mouth of the Savonoski River, and including Lake Coville and Lake Grosvenor, but excluding American Creek:

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-June 7:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

AMERICAN CREEK:

- **June 8-April 9:** Open to fishing.
- Rainbow trout limits:
 - **June 8-October 31:** No retention of rainbow trout is allowed. All rainbow trout must be released immediately.
 - **November 1-April 9:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.

EGEGIK RIVER DRAINAGE - all waters, including Becharof Lake:

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8-October 31:**
 - 1 per day, 1 in possession, no size limit.
 - **November 1-June 7:**
 - 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.
- **At Becharof Lake outlet, including the waters of Becharof Lake within ¼ mile of the outlet and the waters of the Egegik River within ¼ mile of the outlet:**
 - Arctic grayling: No retention. All Arctic grayling must be released immediately.

...continued

UGASHIK RIVER DRAINAGE - including Ugashik Lakes:

- Open to fishing year-round.
- Rainbow trout limits:
 - **June 8-October 31:** 1 per day, 1 in possession, no size limit.
 - **November 1-June 7:** 5 per day, 5 in possession, only 1 of which may be 20 inches or longer.
- **In Ugashik Narrows (the waters from the outlet of Upper Ugashik Lake downstream to the inlet of Lower Ugashik Lake, including those waters of Upper and Lower Ugashik Lakes within ¼ mile of the Ugashik Narrows):**
 - Arctic grayling: No retention. All Arctic grayling must be released immediately.
- **The Ugashik River:**
 - **Closed year-round to fishing for Arctic grayling.**
 - **In the remainder of the Ugashik drainage, including Ugashik Lakes and all Ugashik tributaries:**
 - Arctic grayling limits: 2 per day, 2 in possession.

TOGIAC RIVER DRAINAGE:

- Only unbaited, single-hook, artificial lures or flies may be used.
- King salmon limits:
 - 20 inches or longer: no retention allowed. Any king salmon 20 inches or longer must not be removed from the water and must be released immediately.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Upstream of the confluence of Gechiak Creek and the Togiak River:**
 - **Closed year-round to fishing for king salmon.**

Overcast skies make great days to be chasing fish on the river.

TOGIAC RIVER DRAINAGE

A beautiful Arctic grayling.

GENERAL REGULATIONS - ALASKA PENINSULA & ALEUTIAN ISLANDS

Inclusive waters: All fresh waters of the Aleutian Islands and the Alaska Peninsula (Pacific Ocean drainages west of the longitude of Cape Douglas and Bering Sea drainages south of the latitude of Cape Menshikof).

Fishing for all species is open year-round unless otherwise noted below.

Check for emergency orders online at www.adfg.alaska.gov/sf/EONR prior to fishing waters located within the Alaska Peninsula and Aleutian Islands areas.

KING SALMON

- **Open season:** January 1-July 25.
 - 20 inches or longer: 2 per day, 2 in possession.
 - There is an annual limit of 5 king salmon 20 inches or longer. If you retain a king salmon 20 inches or longer, you must immediately record that harvest. See page 5 for recording instructions.
 - Less than 20 inches: 10 per day, 10 in possession.

OTHER SALMON

- **Alaska Peninsula and Aleutian Islands Remote Zone:**
 - 20 inches or longer (total combination of all species except king salmon):
 - 5 per day, 10 in possession.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Unalaska Bay Drainages (Unalaska/Dutch Harbor Road Zone):**
 - 20 inches or longer (total combination of all species except king salmon):
 - 5 per day, 5 in possession, of which 2 may be coho and 2 may be sockeye salmon.
 - Less than 20 inches: 10 per day, 10 in possession.

RAINBOW/STEELHEAD TROUT

- 2 per day, 2 in possession, only 1 of which may be 20 inches or longer. Annual limit of 2 fish 20 inches or longer. Harvest record is required. See page 5 for recording instructions.

DOLLY VARDEN

- 10 per day, 10 in possession.

ARCTIC GRAYLING

- 5 per day, 5 in possession.

OTHER FINFISH

- No limit

...continued

SPECIAL REGULATIONS - ALASKA PENINSULA

CHIGNIK RIVER:

- Open to fishing year-round for species other than king salmon.
- **January 1-August 9:** Open to fishing for king salmon.

KING SALMON RIVER AND BEAR RIVER DRAINAGE:

- Open to fishing year-round.
- **King salmon limits:**
 - 20 inches or longer: only open to catch-and-release.
 - Any king salmon caught that is greater than 20 inches in length must be released immediately and must not be removed from the water before release.
 - Less than 20 inches: 10 per day, 10 in possession.
- Only unbaited, artificial lures or flies may be used during the king salmon season from **January 1-July 25**.

RUNWAY LAKE (near Anchorage Bay in Chignik):

- Open to fishing year-round.
- Rainbow trout limits:
 - Annual limit of 2 fish over 20 inches or longer does not apply. General limits still apply.

SANDY RIVER:

- Open to fishing year-round.
- Rainbow/steelhead trout:
 - No possession or retention of rainbow/steelhead trout. Rainbow/steelhead trout must be released immediately.
- King salmon limits:
 - 20 inches or longer: 1 per day, 1 in possession, 2 fish annual limit.
- Only one unbaited, single-hook, artificial lure or fly may be used.

NELSON (SAPSUK) RIVER DRAINAGE - upstream from an ADF&G marker located about 2 miles upstream:

- Open to fishing year-round.
- Only one unbaited, single-hook, artificial lure or fly may be used.
- Fishing for king salmon is only open to catch-and-release. Any king salmon caught must be released immediately and must not be removed from the water before release.

SPECIAL REGULATIONS - ALEUTIAN ISLANDS

HUMPY CREEK:

- **Closed year-round to sport fishing.**

MAKUSHIN RIVER - upstream from an ADF&G marker located about 2 miles upstream:

- **Closed year-round to sport fishing.**

NATEEKIN RIVER - upstream from an ADF&G marker located about 2 miles upstream:

- **Closed year-round to sport fishing.**

ILIULIUK DRAINAGE - including the Iliuliuk Creek (also known as Town or Unalaska Creek), Iliuliuk Lake and all waters flowing into Iliuliuk Lake:

- Upstream from ADF&G regulatory markers located at the Church Hole:
 - **Closed year-round to fishing for salmon.**
- Downstream from ADF&G regulatory markers located at the Church Hole:
 - **Closed year-round to fishing for sockeye salmon.**

SUMMER BAY CREEK (see map below):

- **Closed year-round to fishing for salmon.**

SUMMER BAY LAKE DRAINAGE - including salt waters within a 250 yard radius of the Summer Bay Creek outlet:**January 1-August 15:**

- Open to fishing.

January 1-August 15:

- Coho, chum, sockeye, and pink salmon limits: Total combination of all species, 5 per day, only 2 of which may be coho salmon and only 2 may be sockeye salmon.

**UNALASKA BAY DRAINAGES:**

- Coho, chum, sockeye, and pink salmon limits: Total combination of all species, 5 per day, 5 in possession, only 2 of which may be coho salmon and only 2 may be sockeye salmon.

GENERAL REGULATIONS - SALT WATER

Inclusive waters: All salt waters circumjacent to Kodiak Island, the Aleutian Islands and the Alaska Peninsula (coastline west of the longitude of Cape Douglas and Bering Sea coastline south of the latitude of Cape Menshikof).

Fishing for all species is open year-round unless otherwise noted below.

Check for emergency orders online at www.adfg.alaska.gov/sf/EONR prior to fishing waters located within the Alaska Peninsula, Aleutian Islands, and Kodiak Island salt water areas.

KING SALMON

- 2 per day, 2 in possession. No annual limit.

OTHER SALMON

- **Kodiak and Alaska Peninsula/Aleutian Islands Remote Zones:** 5 per day, 10 in possession.
- **Kodiak Road Zone** (refer to map on page 26):
 - 5 per day, 5 in possession,
 - Only 2 of which may be sockeye salmon.
 - Only 2 of which may be coho salmon **prior to September 16**, and only 1 of which may be a coho salmon from **September 16-December 31** (see special regulations for stocked areas).
- **Unalaska Bay:** 5 per day, 5 in possession, of which only 2 may be coho and 2 may be sockeye salmon.

RAINBOW/STEELHEAD TROUT

- 2 per day, 2 in possession, only 1 of which may be 20 inches or longer (except Kodiak Road Zone, see page 26).
- 20 inches or longer there is an annual limit of 2 fish. Harvest record required. See page 5 for recording instructions.

DOLLY VARDEN

- 10 per day, 10 in possession.

LINGCOD

- **Season:** July 1-December 31.
- 2 per day, 4 in possession.

SPINY DOGFISH

- 5 per day, 5 in possession. No size restrictions.

SHARKS (EXCEPT SPINY DOGFISH)

- 1 per day, 1 in possession: No size restrictions. Annual limit of 2 sharks. Harvest record required. See page 5 for recording instructions.

HALIBUT

Pacific halibut fisheries are managed by the federal government under international treaty. See page 7 for federal contact information.

- **Season:** February 1-December 31.
- **Unguided anglers:** 2 per day, 4 in possession.
- **Consult federal regulations for the following:**
 - Bag, possession and size limits, and other regulations for guided (charter) anglers.
 - Possession and landing requirements.
 - Inseason changes to the regulations.

ROCKFISH

- **Chiniak and Marmot Bay Limits:**
 - 3 per day, 6 in possession; only 2 per day, 4 in possession may be nonpelagic (see page 36 for definition), only 1 per day, 2 in possession may be a yelloweye. See map on page 26.
 - Captain and crew of charter vessels may not retain rockfish while clients are on board in this area. See map on page 26.
 - Remainder of Kodiak Island: 5 per day, 10 in possession; only 2 per day, 4 in possession may be nonpelagic (see page 36 for definition), only 1 per day, 2 in possession may be a yelloweye.
- **Alaska Peninsula & Aleutian Islands Limits:**
 - 10 per day, 20 in possession.

OTHER FINFISH

- No limit.

KING CRAB

- Alaska Peninsula and Aleutian Islands (golden king crab):
 - Males only: 6 ½ inches or more: 6 per day, 6 in possession.
 - Red or blue king crab may not be retained or possessed.
- **Kodiak Area: Closed for all king crab species.**

DUNGNESS CRAB

- Males only: 6½ inches or more (straight line distance across carapace, not including spines), 12 per day, 12 in possession.

TANNER CRAB

- Males only: 5½ inches or more (straight line distance across carapace, including spines), 6 per day, 6 in possession.
- In a commercial Tanner crab section of the Kodiak District that will be open to a commercial Tanner crab fishery, the taking of Tanner crab is prohibited in waters 25 fathoms or more in depth during the 14 days immediately before the scheduled opening of a commercial Tanner crab fishing season in that section.

...continued

ATTENTION SALT WATER ANGLERS:

As of January 1, 2020, anglers must carry a deepwater release device onboard their vessel when sport fishing in salt water and will be required to use the device to release rockfish that are not harvested at depth of capture or 100 feet. For more information on deepwater release devices, see page 37.

SPECIAL REGULATIONS - SALT WATER

CHINIAK AND MARMOT BAYS: - In the waters of Chiniak Bay and Marmot Bay, west of a line from Cape Chiniak (57° 37.22' N. lat, 152° 9.34' W. long) to Pillar Cape (58° 8.89' N. lat, 152° 6.78' W. long) and east of a line from Head Point on Afognak Island (57° 59.67' N. lat, 152° 46.75' W. long) to Dolphin Point (57° 59.15' N. lat, 152° 43.40' W. long) on Whale Island, east of a line from Bird Point (57° 55.30' N. lat, 152° 47.50' W. long) on Whale Island to Inner Point (57° 54.05' N. lat, 152° 47.75' W. long) on Kodiak Island and all waters of Kizhuyak Bay:

- Rockfish limits are 3 per day, 6 in possession; only 2 per day, 4 in possession may be nonpelagic (see page 36 for definition), and only 1 per day, 2 in possession may be a Yelloweye.
- Captain and crew of charter vessels may not retain rockfish while clients are on board in this area.

**KODIAK ROAD ZONE:**

- Open to fishing year-round.
- Salmon limits other than king salmon: 5 per day, 5 in possession, only 2 of which may be sockeye salmon.
 - **Prior to September 16**, only 2 may be coho salmon.
 - From **September 16-December 31**, only 1 may be a coho salmon.
- In the saltwaters of Monashka and Mill bays and Mission Beach, the year-round daily bag and possession limit of coho salmon is 2 fish.
- Steelhead/rainbow trout:
 - No retention of steelhead/rainbow trout is allowed. All steelhead/rainbow trout must be released immediately.

KODIAK REMOTE ZONE:

- Open to fishing year-round.
- Salmon limits (other than king salmon): 5 per day, 10 in possession.

MILL BAY:

- Open to fishing year-round.
- **September 16-July 31**: Snagging is allowed.

MISSION BEACH:

- Open to fishing year-round.
- **September 16-July 31**: Snagging is allowed.

MONASHKA BAY:

- Open to fishing year-round.
- **July 6-April 30**: Snagging is allowed.

UNALASKA BAY:

- Open to fishing year-round.
- Salmon limits (except king salmon): 5 per day, 5 in possession, of which only 2 may be coho salmon and only 2 may be sockeye salmon.

SUMMER BAY - All salt waters within a 250 yard radius of the outlet of Summer Bay Lake:

- **January 1-August 15**: Open to fishing.
- **January 1-August 15**: Coho, chum, sockeye, and pink salmon limits:
 - Total combination of all species, 5 per day, 5 in possession, of which only 2 may be coho salmon and 2 may be sockeye salmon.

KITOI BAY:

- Within 500 yards of Little Kitoi Creek:
 - **October 1-August 14**: Open to fishing.
- From the mouth of Big Kitoi Creek to ADF&G markers located at approx. 152° 22' W. long.:
 - **Closed year-round to all fishing.**
- Seaward from ADF&G markers located at approx. 152° 22' W. long. to ADF&G markers located at approx. 152° 21.75' W. long.:
 - **October 1-August 14**: Open to fishing.

KODIAK ISLAND ROAD ZONE SALT WATER

GENERAL REGULATIONS - KODIAK ISLAND FRESH WATERS

Inclusive waters: All drainages of the Kodiak and Afognak Island groups.

- **Kodiak Island Road Zone:** All fresh waters of Kodiak Island that are east of a line extending south from Crag Point on the west side of Anton Larsen Bay to the westernmost point of Sallery Cove, including the waters of Woody and Long. See map on page 28.
- **Kodiak Island Remote Zone:** All drainages outside of the Kodiak Island Road Zone.

Fishing for all species is open year-round unless otherwise noted below.

Check for emergency orders online at www.adfg.alaska.gov/sf/EONR prior to fishing waters located within the Kodiak Island Fresh Water areas.

KING SALMON

- 20 inches or longer: 2 per day, 2 in possession. Annual limit of 5 fish. Harvest record required. See page 5 for recording instructions.
- Less than 20 inches: 10 per day, 10 in possession.

OTHER SALMON

- **Kodiak Remote Zone:**
 - 20 inches or longer (total combination of all species): 5 per day, 10 in possession.
 - Less than 20 inches: 10 per day, 10 in possession.
- **Kodiak Road Zone:**
 - 20 inches or longer (total combination of all species): 5 per day, 5 in possession.
 - Only 2 of which may be sockeye salmon.
 - Only 2 of which may be coho salmon **prior to September 16**, and only 1 of which may be a coho salmon from **September 16-December 31** (see special regulations for stocked areas on pages 28 and 29).
 - Less than 20 inches: 10 per day, 10 in possession.

RAINBOW/STEELHEAD TROUT

- **Kodiak Remote Zone:**
 - 2 per day, 2 in possession, only 1 of which may be 20 inches or longer.
 - 20 inches or longer: Annual limit of 2 fish. Harvest record required. See page 5 for recording instructions.
- **Kodiak Road Zone:**
 - No retention. All rainbow/steelhead trout caught must be released immediately (there are exceptions for stocked lakes, see special regulations that follow and the list of stocked lakes on page 30). Bait restrictions apply, see the special regulations.

DOLLY VARDEN AND ARCTIC GRAYLING

- 10 per day, 10 in possession.

OTHER SPECIES

- No limit.

...continued

KODIAK ISLAND REMOTE ZONE AND ROAD ZONE

METHODS AND MEANS - KODIAK ISLAND ROAD ZONE

BAIT RESTRICTION:

- In all fresh waters of the Kodiak Road Zone:
 - **November 1-April 30:** Only unbaited, artificial lures or flies may be used (this does not apply to Road Zone stocked lakes, and Chiniak and Barry lagoons).

SPECIAL REGULATIONS - KODIAK ISLAND ROAD ZONE STOCKED LAKES

The following special regulations apply to all the Kodiak Island Road Zone stocked lakes listed below:

- Open to fishing year-round.
 - Rainbow trout limits: 10 per day, 10 in possession, only 1 of which may be 20 inches or longer. No annual limit.
- | | |
|--------------------------------|--------------------------------------|
| • Abercrombie (Gertrude) Lake | • East Twin Lake |
| • Aurel Lake | • Heitman Lake |
| • Big Lake (Lilly/Kings Diner) | • Horseshoe Lake |
| • Bull Lake | • Island Lake |
| • Caroline Lake | • Lee Lake |
| • Cicely Lake | • Lily Pond (Nyman's Peninsula Lake) |
| • Dark Lake | • Long Lake |
| • Dolgoi Lake | • Tanignak Lake |
| • Dragonfly Lake | |

Aurel Lake on a beautiful summer day.

KODIAK ISLAND ROAD ZONE FRESH WATER

SPECIAL REGULATIONS - KODIAK ISLAND ROAD ZONE

ISLAND LAKE CREEK/MILL BAY:

- Open to fishing year-round for species other than salmon.
- **Island Lake Creek is closed year-round to salmon fishing.**
- Mill Bay coho salmon bag limit is 2 per day, year-round.
- **September 16-July 31:** Snagging is allowed in Mill Bay.

KALSIN POND OUTLET STREAM - from the Chiniak Highway culvert downstream approximately 150 feet to an ADF&G marker:

- **Closed year-round to sport fishing.**

MISSION BEACH:

- Open to fishing year-round.
- Coho salmon bag limit is 2 per day, year-round.
- **September 16-July 31:** Snagging is allowed.

MONASHKA CREEK:

- Closed year-round to sport fishing upstream of the ADF&G regulatory markers located approximately 50 yards upstream of the Monashka Highway.
- Coho salmon bag limit is 2 per day, year-round in all other waters of Monashka Creek.

PILLAR CREEK:

- **Closed year-round to all fishing above the highway.**
- Coho salmon bag limit is 2 per day year-round below the highway.

SALTARY COVE STREAMS:

- Open to fishing year-round.
- Only 2 fish of the 5 salmon bag limit (for salmon other than king salmon) may be coho salmon **prior to September 15**, and only 1 may be a coho salmon from **September 16-December 31**; all 5 salmon may be sockeye salmon.

SPECIAL REGULATIONS - KODIAK ISLAND REMOTE ZONE

AYAKULIK RIVER:

- Open to fishing year-round for species other than king salmon.
- **January 1-July 25:** Open to fishing for king salmon.

DOG SALMON DRAINAGE (including Frazer Lake):

- Open to fishing year-round for species other than king salmon.
- **January 1-July 25:**
 - Fishing for king salmon is only open to catch-and-release. Any king salmon caught must be released immediately and must not be removed from the water before release.
 - The use of bait is prohibited for any species.
- **Dog Salmon River - from the Frazer Fish Pass Weir to an ADF&G marker 200 yards downstream:**
 - **Closed to sport fishing June 1-August 31.**

KARLUK RIVER:

- Open to fishing year-round for species other than king salmon.
- **January 1-July 25:** Open to fishing for king salmon.

LITTLE KITOI LAKE AND CREEK:

- Open to fishing year-round for species other than salmon.
- **October 1-August 14:** Open to fishing for salmon.

Some fishing spots require an off-road drive.

Take your kid fishing with you. Teach them young.

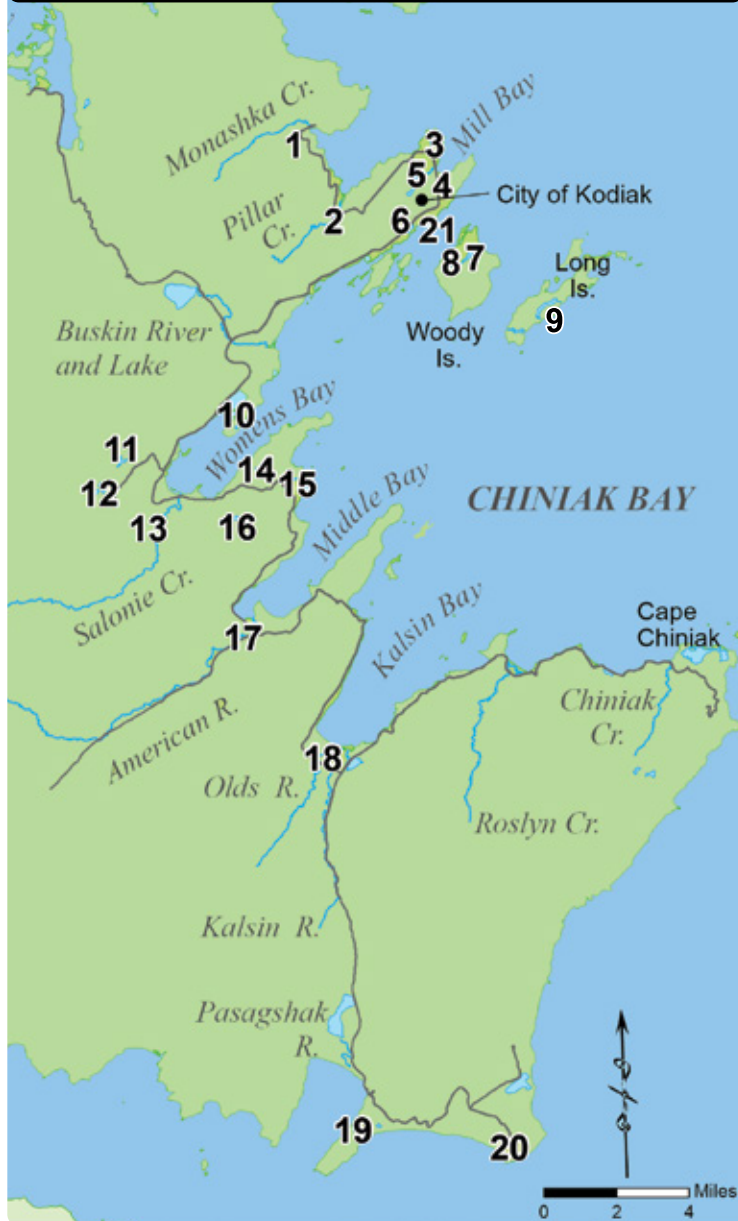

Chunky steelhead trout from Karluk River.

Dime bright coho salmon.

STOCKING AREAS IN THE KODIAK ROAD ZONE

KODIAK ROAD ZONE SPORT FISHING ENHANCEMENT PROJECTS

The Alaska Department of Fish and Game annually funds numerous fisheries enhancement projects throughout Alaska in order to increase the abundance and diversity of fish species available to anglers. On Kodiak Island, several enhanced sport fisheries are maintained in Road Zone waters and include populations of anadromous king salmon, plus anadromous coho salmon and resident rainbow trout. Hatchery raised king salmon can be caught from mid-June through early August at the American and Olds river drainages and Salomie Creek. Anadromous coho salmon return to Monashka and Pillar creeks, Mill Bay and Mission Beach from early August through the end of September. Rainbow trout annually stocked in 17 Road Zone lakes are available to anglers year-round and can be fished through the ice when safe conditions exist.

Stocked location maps are available from the Kodiak ADF&G office and are also available online at www.adfg.alaska.gov/SF_Lakes/

Additional information on Kodiak and other sport fisheries enhancement activities can be found on the Division of Sport Fish website at <http://www.adfg.alaska.gov/index.cfm?adfg=fishingSport.main>

SHELLFISH REGULATIONS

SPORT AND PERSONAL USE • SOUTHWEST ALASKA

LEGAL GEAR REQUIREMENTS FOR HARVESTING SHELLFISH

- Crab may be taken by hand, or with pots or ring nets; or by diving gear or dip nets; or by hooked or hookless lines, either operated by hand or attached to a pole or rod.
- Shrimp may be taken only with pots or ring nets.
- Clams may be taken by hand, or with rakes, shovels, or manually operated clam guns.
- No more than 5 pots of any size per person and 10 pots per vessel may be used to take shellfish at any time.
- If a keg or buoy is used on shellfish gear, the first initial and last name and home address of the person operating the pot must be legibly inscribed on the keg or buoy. In addition, the name or AK number of the vessel used to set the gear must also be inscribed on the keg or buoy.
- All pots must include an escape mechanism in accordance with shellfish harvest regulations (5 AAC 39.145). See next section for description.

Tanner crab

SHELLFISH POT GEAR ESCAPE MECHANISMS

(Summary of 5 AAC 39.145)

- Pot gear must include escape mechanisms in order to avoid waste of the resource in case the pot is lost.
- A sidewall, which may include the tunnel, must contain an opening at least 18 inches long (6 inches long for shrimp pots). The opening must be within 6 inches of the bottom of the pot, and must be parallel to the bottom of the pot.
- The opening must be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine no larger than 30-thread. The cotton twine may be knotted at each end only. The cotton twine may not be looped around or tied to the web bars.

Placement of escapement mechanism

Exception 1: Dungeness crab pots only may have the pot lid tie-down straps secured to the pot at one end by a single loop of untreated 100 percent cotton twine no larger than 60-thread.

"Dungeness crab post Exception 1"
See text above.

Exception 2: Tanner crab and shrimp pots may use 36-thread twine (or smaller) and a galvanic timed-release device (GTR) in their 18-inch (or 6 inch for shrimp pots) opening. The GTR must be designed to release in no more than 30 days in salt water, and must be integral to the length of the twine so that when the device releases, the twine will no longer secure or obstruct the opening of the pot. The twine may be knotted only at each end and at the attachment points on the GTR.

Spot shrimp

OTHER IMPORTANT INFORMATION

Octopus are occasionally caught in crab pots. Octopus are defined as "other shellfish." There are no closed seasons, no bag or possession limits. Octopus may be taken only by pots or hook and line.

The captain and crew members of a charter vessel may not deploy, set, or retrieve their own gear in a subsistence, sport, or personal use fishery when that vessel is being chartered.

An owner, operator, or employee of a lodge, charter vessel, or other enterprise that furnishes food, lodging, or sport fishing guide services may not furnish to a client or guest of that enterprise, subsistence-, sport-, or personal use-caught shellfish, unless the shellfish:

1. Has been taken with gear deployed and retrieved by the client or guest;
2. Has been taken with gear that has been marked with the client's or guest's name and address; and
3. Is to be consumed by the client or guest or is consumed in the presence of the client or guest.

SHELLFISH REGULATIONS - CRAB ID AND MEASUREMENTS 32

TANNER CRAB - minimum size 5½ inches

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside
(females usually smaller than 5½ inches)

MALE

Narrow abdominal flap

Width measurement of Tanner crab is the straight-line distance across the carapace, **including** spines.

DUNGENESS CRAB - minimum size 6½ inches

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside

MALE

Narrow abdominal flap

Width measurement of Dungeness crab is the straight-line distance across the carapace, **NOT** including spines.

KING CRAB Alaska Peninsula & Aleutian Islands are only open to golden king crab - minimum size 6½ inches; Kodiak Island is **closed** for all three species.

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside

MALE

Narrow abdominal flap

6 prominent spines on mid-dorsal plate

RED KING CRAB
(minimum size 6½ inches)

5 to 9 spines on mid-dorsal plate

BROWN KING CRAB
(minimum size 6½ inches)

4 prominent spines on mid-dorsal plate

BLUE KING CRAB
(minimum size 6½ inches)

KING (CHINOOK, TYEE, BLACKMOUTH) SALMON

Blue-gray back with silvery sides. Small, irregular-shaped black spots on back, dorsal fin, and usually on both lobes of the tail.

Black mouth with
BLACK gums at base of
teeth on lower jaw.

Spawning king salmon adults lose their silvery bright color and turn maroon to olive brown.

COHO (SILVER) SALMON

Greenish-blue back with silvery sides. Small black spots on the back, dorsal fin, and usually on upper lobe of tail only.

Black mouth with
WHITE gums at base of
teeth on lower jaw.

Spawning coho salmon adults develop greenish-black heads and dark brown to maroon bodies.

SOCKEYE (RED) SALMON

Dark blue-black back with silvery sides. No distinct spots on back, dorsal fin, or tail.

Spawning sockeye salmon adults develop dull-green heads and brick-red to scarlet bodies.

CHUM (DOG, KETA, CALICO) SALMON

Dull gray back with yellowish-silver sides. No distinct spots on back or tail. Large eye pupil, covers nearly the entire eye.

Spawning adults develop olive-green coloration on the back with maroon sides covered with irregular dull red bars. Males exhibit many large canine-like teeth.

PINK (HUMPY) SALMON

Large spots on the back and large black oval blotches on both tail lobes. Very small scales.

Spawning adults turn dull gray on their backs and upper sides and creamy white below. Males develop a pronounced hump.

STEELHEAD TROUT

COHO SALMON

34

— Take the — Five Salmon Family Challenge

The Alaska Department of Fish and Game Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska.

Certification in the program requires all salmon must be legally caught in Alaskan waters (fresh or salt water) open to the public and in compliance with current ADF&G sport fishing regulations.

Learn more at: www.adfg.alaska.gov

HOW TO IDENTIFY TROUT AND OTHER SPECIES FOUND IN ALASKA

TROUT

RAINBOW TROUT

Green to bluish back with silvery to yellowish-green sides. Broad pinkish band along side and black spots on back, sides, and tail. Upper jaw usually does not extend past eye on adult.

STEELHEAD

White mouth with white gums at base of teeth on lower jaw.

California Department of Fish and Game

Sea-run rainbow trout with bluish-gray back and bright silvery sides. Slender body profile; 8-10 anal fin rays. Small black spots on back, sides, and tail. Pink/red coloration develops after returning to fresh water to spawn.

CUTTHROAT TROUT

Yellowish-green body with no pinkish band along sides. Many black spots on back, sides, and tail. Upper jaw extends well past eye on adults. Red to orange slash on underside of lower jaw.

ARCTIC GRAYLING

Light copper brown to dark purple back, fading to bluish-gray with black spots on sides. Very large dorsal fin with red and violet spots.

NORTHERN PIKE

Back and sides usually greenish with yellow-white spots. Head depressed forward with duck-like jaws containing many large, sharp teeth.

BURBOT

The only fresh water cod in North America. Slim mottled brownish-black body with smooth skin. Elongated dorsal and anal fins run from mid-body to tail. Flattened head with wide mouth and one barbel (whisker-like extension) hanging from its lower jaw.

CHAR

DOLLY VARDEN

Bluish gray or silver background with light spots (usually smaller than its pupil). No spots on head or tail. Easily confused with Arctic char, but Dolly Varden occur mainly in rivers, have a more squared-off tail, a more elongated head (especially spawning males), and a wider tail base than Arctic char. Pelvic and anal fins often have a white leading edge.

ARCTIC CHAR

Very difficult to distinguish from Dolly Varden. Arctic char are generally found in the Bristol Bay area and throughout western Alaska, and Dolly Varden are found on Kodiak Island, throughout the waters of southcentral and southeastern Alaska, and on the North Slope. Brown to olive background with light spots (usually larger than its pupil); sides fade to a pale belly.

LAKE TROUT

Dark green to grayish back and light silvery sides with oval or irregular white to yellowish spots. No other Alaskan char species has spots on face and tail. Lake trout also have deeply forked tails, unlike other char, and, although normally lake dwellers, they are sometimes found in northern Alaska rivers.

Rockfish Identification

36

FOR THE PURPOSES OF SPORT FISHERY MANAGEMENT, ROCKFISH ARE DIVIDED INTO TWO GROUPS, **PELAGIC** AND **NONPELAGIC**. BAG AND POSSESSION LIMITS DIFFER FOR THE TWO GROUPS IN MANY AREAS, SO IT IS IMPORTANT TO BE ABLE TO DISTINGUISH THEM. THIS CHART SHOWS THE MOST COMMON SPECIES IN EACH GROUP.

Pelagic Rockfish:

Six pelagic species of rockfish (five are shown below) are often found mid-water in schools, close to rocky structures. These fish are moderately long-lived (most fish are 7-30 years old).

BLACK ROCKFISH

Dark gray to black with white belly. Usually uniform in color, but may have lighter patches along back. No pores on lower jaw. Size: up to 25 inches.

DUSKY ROCKFISH

Brownish body color with whitish belly, tinged with pink or orange; finstinged with pink or orange; more common in deep water. Three pores on each side of lower jaw, and two dark bars on each cheek. Size: up to 20 inches.

YELLOWTAIL ROCKFISH

Olive green to greenish brown with lighter underside; fins distinctly yellowish green. Size: up to 26 inches.

Photo by Vicky Okimura (WDFW)

WIDOW ROCKFISH

This is a relatively slim species in various shades of brown or brass that lighten towards the belly. Size: up to 23 inches.

DARK ROCKFISH

Uniform black to dark blue on back and sides with slight gradual lightening on the belly, more common in shallow water. Size: up to 20 inches.

There are over 30 species of rockfish in Alaska. If the rockfish is not featured in the pelagic category, then for the purposes of regulation it is a nonpelagic rockfish.

Nonpelagic Rockfish:

Bottom-dwelling species found on or near the ocean floor, usually in rocky or boulder-strewn habitat. Extremely long-lived (most fish are 15-75 years old).

QUILLBACK ROCKFISH

Brown body mottled with orange and yellow. Long, prominent spines on a high dorsal fin. Size: up to 24 inches.

SILVERGRAY ROCKFISH

Greenish to silver-gray body, belly white, tinged with soft orange or pink. Slender body fish with a long lower jaw protruding well beyond upper jaw. Size: up to 28 inches.

COPPER ROCKFISH

Olive brown to copper with pink or yellow blotches, white on sides and belly. Dorsal fins dark copper brown to black with some white. Rear two-thirds of lateral line is light. Size: up to 22 inches.

TIGER ROCKFISH

Light pink with five dark red stripes along the side. Two dark bars extend from each eye. Size: up to 24 inches.

YELLOWEYE ROCKFISH

Orange red and orange yellow, bright golden yellow eye, fins may be black at tips. Juveniles have two light bands along the side, one on the lateral line and a smaller one below the lateral line. Size: up to 36 inches.

CHINA ROCKFISH

Mostly black, with bright yellow and white blotches and a yellow stripe along most of the lateral line. Size: up to 17 inches.

Photo by Vicky Okimura (WDFW)

Rockfish caught in deep water often sustain injuries - referred to as barotrauma - caused by rapid decompression and expansion of gases in the swim bladder.

.....

If released at the surface, these fish are often not able to swim back down and become targets for birds, other fish, and marine mammals.

WHAT IS BAROTRAUMA?

The protruding stomach and bulging eyes seen on this yelloweye rockfish are signs of barotrauma. If released at the surface, this fish would have a difficult time resubmerging and would likely die. Using deepwater release methods can greatly increase the chance of survival of fish exhibiting signs of barotrauma. Both pelagic and nonpelagic rockfish are susceptible to barotrauma.

Help Conserve Alaska's Rockfish

Deepwater Release is Mandatory

Deepwater Release Methods

Step 1:

Make sure your release device is ready - rockfish are most likely to survive when time at the surface is minimized. With practice, rockfish can be released within two minutes of reaching the surface.

Reel the fish up as quickly as possible. After unhooking it, hook the release device through soft tissue on the jaw. Make sure the hook does not have a barb. Release the anti-reverse on the reel so line can spool out freely.

Rockfish are most likely to survive when released quickly at depth of capture (or 100 feet) using the following steps:

Step 2:

Swing the fish slightly to one side and let go of the jig. Let line out as the weight pulls the fish back to the bottom. When the jig hits bottom (or 100 feet in depth), lock the reel and give a hard tug to release the fish.

Conservation Tips

▪ Avoid catching unwanted rockfish.

When targeting other species, such as halibut or lingcod, avoid rockfish by keeping jigs and bait 10-15 feet off the bottom. This has little or no effect on halibut and lingcod catch rates. Move to a different area if you are catching rockfish unintentionally.

▪ Avoid excessive rockfish harvests.

Rockfish have a freezer life of about four months, so harvest only what you are likely to eat in the near future.

▪ Use release-friendly tackle.

When fishing with bait, use a single circle hook. Circle hooks are less likely to cause injury by being deeply swallowed, increasing the chances of survival for released fish.

ANGLER RECOGNITION PROGRAMS

TROPHY FISH PROGRAM

The Trophy Fish Program gives special recognition to anglers taking fish that meet minimum weight (trophy certificates) or length standards (catch-and-release certificates) within a species. Trophy fish for both certificates must be legally caught from waters open to the public in compliance with current ADF&G sport fishing regulations. There is now a category for Youth anglers.

Photo courtesy of Chris Cox

FIVE SALMON FAMILY CHALLENGE

The Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska. Certification in the program requires all salmon must be legally caught in Alaskan waters (fresh or salt water) open to the public and in compliance with current ADF&G sport fishing regulations.

STOCKED WATERS CHALLENGE

The Stocked Waters Challenge program awards a certificate of recognition to individuals or groups who successfully complete one or more angling challenges at stocked waters.

ALASKA TROPHY FISH RECORD HOLDERS

38

Species	Min.. wt.	Lbs/oz	Year	Location	Angler
Arctic char/ Dolly Varden	10 lb	27/6	2002	Wulik River	Mike Curtiss
Brook trout	3 lb	3/4	2012	Green Lake	Kyle Kitka
Burbot	8 lb	24/12	1976	Lake Louise	George R. Howard
Chinook salmon	(see below)	97/4	1985	Kenai River	Lester Anderson
Chum salmon	15 lb	32/0	1985	Caamano Point	Fredrick Thynes
Coho salmon	20 lb	26/0	1976	Icy Strait	Andrew Robbins
Cutthroat trout	3 lb	8/6	1977	Wilson Lake	Robert Denison
Arctic grayling	3 lb	5/1	2008	Fish River	Peter Cockwill
Halibut	250 lb	459/0	1996	Unalaska Bay	Jack Tragis
Lake trout	20 lb	47/0	1970	Clarence Lake	Daniel Thorsness
Lingcod	55 lb	82/9	2007	Gulf of Alaska	Robert Hammond
Northern pike	15 lb	38/8	1991	Innoko River	Jack Wagner
Pink salmon	8 lb	13/7	2016	Kenai River	Robert Dubar
Rainbow/ steelhead trout	15 lb	42/3	1970	Bell Island	David White
Rockfish	18 lb	39/1	2013	Sitka	Henry Liebman
Sheefish	30 lb	53/0	1987	Pah River	Lawrence E. Hudnall
Sockeye salmon	12 lb	16/0	1974	Kenai River	Chuck Leach
Whitefish	4 lb	9/0	1989	Tozitna River	Al Mathews

☛ King salmon minimum weight for the Kenai River is 75 lb. For the rest of the state, it is 50 lb.

Minimum weights for trophy fish certificates are listed on the table above (second column). Entries must be weighed in the presence of witnesses and a Trophy Fish Official, on a scale currently certified by the Division of Weights and Measures.

For catch-and-release honorary certificates, do not remove your fish from the water. Hold it just at the water's surface while a photograph is quickly taken, then release it into the current.

Minimum Lengths for Catch-and-Release Certificates:

- Arctic char/Dolly Varden - 30 inches
- Arctic grayling - 18 inches
- Brook trout - 20 inches
- Burbot - 32 inches
- Cutthroat trout - 20 inches
- Lake trout - 36 inches
- Lingcod - 53 inches
- Northern pike - 40 inches
- Rainbow/steelhead trout - 32 inches
- Sheefish - 36 inches

We've added a Youth Category to our Trophy Fish Program!

SPORT FISHING BY PROXY **Proxy fishing for halibut is not allowed.**

Alaska residents may proxy sport fish, proxy personal use fish, and/or proxy subsistence fish for another Alaska resident who is:

1. 70% or greater physically disabled (physician's affidavit required);
2. 65 years or older;
3. Legally blind (physician's affidavit required); or
4. Developmentally disabled (physician's affidavit required).

No person may give or receive payment to be a beneficiary or a proxy.

To obtain a "Proxy Information Form"

Go to any Alaska Department of Fish and Game office, or visit

IT'S UP TO ALL 
OF US TO **PROTECT**
ALASKA WATERS.

CLEAN all aquatic plants, animals, and mud from your boat and gear before you leave the launch. Dispose of debris in the trash.

DRAIN water from bilge, ballast, motor, live-wells and bait buckets before you leave the area.

DRY your boat and gear as completely as possible between outings.

**HELP STOP THE SPREAD OF
AQUATIC INVASIVE SPECIES**

A MESSAGE FROM THE COMMISSIONER

A new year means 365 days to create new memories. Alaska is a destination most people dream about visiting and a lot of us are lucky enough to call Alaska home. Alaska offers tons of opportunities for anglers to reel in a fish and make memories that will last a lifetime. Whether you are into river, lake, or ocean fishing, new to fishing or an experienced angler, Alaska offers plenty of opportunities to get out on the water with a fishing rod in hand.

Need help planning a fishing trip? Want a new to you fishing spot? Have family and friends visiting and want to give the experience of a lifetime? Or simply need help understanding the sport fishing regulations? Then make sure to visit or call one of our many ADF&G sport fishing front desks, you can find a list of our local area offices on the back of the regulation books. Our staff love to talk about fishing and can provide you pointers on fishing gear and tackle. As a friendly reminder, don't forget to not only read the regulations for the waters you plan to fish but also check for emergency orders before you head out. You can find emergency orders posted at local ADF&G offices or by going to the ADF&G Emergency Order webpage via www.adfg.alaska.gov/sf/EONR.

And thank you to all those who have purchased a fishing license. When you purchase a fishing license or king stamp, those funds go directly towards funding our state's fisheries resource conservation, management, research, and enhancement efforts. When you purchase fishing equipment or boat fuel, a portion of those excise tax dollars go into a federal fund designed to distribute money back to states. These funds, distributed annually, are used for resource management and conservation and to provide improved access to fishing across Alaska. Your participation as an angler in Alaska helps ADF&G maintain and improve the state's fisheries. And if the opportunity arises, please take a kid fishing. It's never too soon to start nurturing our next generation of anglers!

We hope your days fishing in Alaska are exceptional and you put some fish away for the winter, but most of all we hope you create memories you can recall in the years to come.

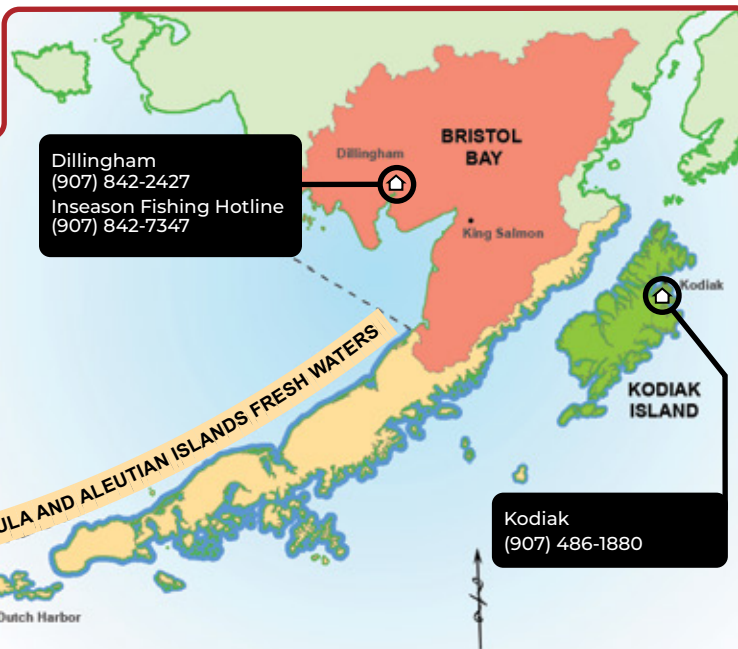

I look forward to seeing you on the water. Tight lines.

Doug Vincent-Lang

Commissioner, Alaska Department of Fish and Game

ALASKA DEPARTMENT OF FISH & GAME SOUTHWEST ALASKA SPORT FISH OFFICES

This publication was released by Alaska Department of Fish and Game at a cost of \$0.22 per copy to provide fishing regulations to the public and printed in Anchorage, Alaska.

The Alaska Department of Fish and Game (ADF&G) administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972. If you believe you have been discriminated against in any program, activity, or facility, please write: ADF&G ADA Coordinator, P.O.
