Kenai River Boat and Motor Regulations: *Alaska State Parks*

58

The Alaska State Legislature created the Kenai River Special Management Area in 1984 and charged Alaska State Parks with its management. Here are their boating regulations for the Kenai River, summarized for your convenience.

For more information on boat motor regulations on the Kenai River, call the Donald E. Gilman River Center at (907) 714-2470.

Horsepower Restrictions

No one may operate a boat on the Kenai River upstream of a DNR marker located at approximately river mile 4.2 (downstream of the Warren Ames Bridge) with outboard or combination of outboards having a total propshaft rating greater than 50 HP. Propshaft horsepower rating means the boat motor's original manufacturer rated and labeled horsepower. Adding a jet drive unit to a motor does not change the propshaft horsepower rating of the motor powerhead and driveshaft configuration. These horsepower limitations do not apply to the operation of a boat on Kenai Lake, on Skilak Lake, and on the Kenai River between the Kenai Lake Bridge and river mile 80.7 (see maps on pgs. 50 and 59).

Four Stroke or Direct Fuel Inject Requirements

Regardless of time of year or motor horsepower, no one may operate a motorized boat on the Kenai River upstream of a DNR marker located at approximately river mile 4.2 (downstream of the Warren Ames Bridge) unless the motor is a four-stroke motor or a direct fuel injection motor. This includes boats operated on Kenai and Skilak Lakes.

Boat Length Requirements

Except on Kenai and Skilak lakes, no one may operate a motorized boat on the Kenai River upstream of a DNR marker located (at approximately river mile 4.0) downstream of the Warren Ames bridge that exceeds overall boat size to no more than 21 feet long and 106 inches wide.

Drift Areas, Motor Use Prohibited

- Operating a boat by use of a motor is prohibited year-round on the Kenai River, from Skilak Lake inlet upstream to river mile 80.7 (see maps on pages 50 and 59).
- From March 15 to June 14, operating a boat by use of a motor on the Kenai River is also prohibited from river mile 47 upstream to the outlet of Skilak Lake (see map on page 54).

Alaska's Boating Safety Law

REGISTRATION: In January 2011, the Department of Motor Vehicles (DMV) assumed boat registration from the U.S. Coast Guard (USCG).

- All motorized boats must be registered, either with the DMV or as a vessel meeting documentation requirements of the USCG.
- Registration card must be carried on board the boat.

SAFETY EQUIPMENT REQUIREMENTS: State safety and equipment requirements are identical to USCG federal requirements, with the addition of the following: "All persons under 13 years of age must wear a USCG approved life jacket while on the deck of a boat or in an open boat."

Obtain a complete list of safety and equipment requirements and other vital boating safety information from the State Office of Boating Safety at (907) 269-8705, or visit their website: www.alaskaboatingsafety.org.

Passenger Limits

No more than 6 persons are allowed on board, including operator (*except for guided vessels in July, below the outlet of Skilak Lake*, which may have no more than 5 persons on board).

Tying Up

No one may tie up a boat to state land, easement, or rights-of-way for more than 24 consecutive hours.

Anchoring

No one may anchor a boat on the Kenai River that obstructs a primary traffic channel or drift fishing channel.
