

Applicable regulations	Brief Summary of Proposed Changes
5 AAC Part 1 title	The Part 1 Title heading for 5 AAC is changed to include shellfish.
5 AAC Chapter 40 title	The chapter heading for 5 AAC Chapter 40 is changed to include shellfish.
Article 1. General.	
5 AAC 40.005(a) - (b)	Adds language to include shellfish under regulations governing the harvest of species adopted by the Board of Fisheries and adds the department as a governing entity of shellfish enhancement
5 AAC 40.005(c) - (d); (g)	Adds salmon or shellfish specific language concerning harvest of species in a Special Harvest Area (SHA) reared by a hatchery operator.
5 AAC 40.010	Adds reporting requirement for hatchery operators harvesting shellfish and modifies language to include shellfish hatcheries in exemptions from commercial harvest reporting regulations.
Article 3. Applicability of Regulations.	
5 AAC 40.100	Removes salmon from existing language to be inclusive of shellfish hatcheries applicability of regulations by becoming unspecified and adds the word 'hatchery' as part of terminology conforming edits.
Article 4. Permit	
5 AAC Chapter 40 Article 4	Article heading title of 5 AAC Chapter 40 is changed to be more inclusive of hatchery permitting procedures.
5 AAC 40.110	Removes salmon from existing language to be inclusive of shellfish hatcheries under the requirements of the commissioner regarding permit applications by becoming unspecified.
5 AAC 40.120	Technical corrections to conform to current legal drafting standards made by the Department of Law.
5 AAC 40.130	Reorganizes the management feasibility analysis Section language and adds language stating that the PNP Coordinator can request other information necessary for the department to complete the analysis.
5 AAC 40.140	Adds the word 'hatchery' to the Section title and reorganizes the language in the Section. Also removes the word 'form' to allow for electronic submission of an application.
5 AAC 40.150	Adds language of to specify an application fee as required by AS 16.10.400 of \$0 for a salmon hatchery application and \$0 for a shellfish hatchery application as required by AS 16.12.010.
5 AAC 40.160	Corrects cross references within the regulation to accommodate other changes within this regulations project and also removes the word 'form' from the regulatory language.
5 AAC 40.170	Changes the Section title so that regional planning team review is specific to salmon only.
5 AAC 40.180(a)	Adds clarifying language for timeline procedure during the application review and approval process.
5 AAC 40.185	Places the Basic Management Plan section, previously found in 5 AAC 40.820 under the revised Permitting Article as a new Section with revisions that include specifically outlining what must be included in the Basic Management Plan and removing language that was specific to the public hearing process and placing that language more appropriately in 5 AAC 40.210.
5 AAC 40.190	Repeals and readopts this regulation to more precisely define the application review and approval process.
5 AAC 40.210	Modifies language in the sequential procedures of the public hearing process of completed hatchery permit applications to reflect more accurately what is most commonly of public interest, removes the department's responsibility to include a presentation on fish culture aspects during the public hearing process for approved hatchery permit applications, separates salmon hatchery and shellfish hatchery specific language and makes technical corrections to conform to current legal drafting standards.
5 AAC 40.220	Changes this section to now be specific to salmon. The application review and decision process is more clearly outlined and specified as well as making technical corrections to conform to current legal drafting standards.
5 AAC 40.225	Adds a new section outlining the review and decision process for a shellfish hatchery operation that are being presented to the commissioner after the department review and the completion of the public hearing. Also lists considerations for the commissioner when making a determination on whether to approve or deny an application.
5 AAC 40.230	Removes salmon specific language so that this regulation will apply to all hatchery permit reconsiderations and adds clarifying language that reconsideration does not require additional notice or public hearing.
5 AAC 40.235	This language is being added as a new section under Article 4 and was previously listed under Article 8 as 5 AAC 40.800 due to the permitting sections being reorganized to all be under Article 4.
5 AAC 40.240	Makes applicable language for regional planning team specific to salmon and corrects necessary cross reference.
5 AAC 40.245	This language is being added as a new section under Article 4, previously listed under Article 8 as 5 AAC 40.850 due to permitting Sections being reorganized to all be under Article 4. Additional changes include updating the language to conform to current legal drafting standards.
Article 5. Regional Comprehensive Planning.	
Article 8. General Provisions.	
5 AAC 40.800	This section is repealed and added as a new section under 5 AAC 40.235 with minor technical changes to organize all permitting sections under Article 4.
5 AAC 40.810(a); (c); (d); (g)	Changes existing language to be specific to salmon for preference rights associated with regional associations described in AS 16.10.400 and removes antiquated language requiring correspondence to be conducted by certified letters.
5 AAC 40.820	Repeals this section and moves to the newly structured permitting Article 4 as 5 AAC 40.185. The new language underwent extensive changes.
5 AAC 40.830	Adds language for to allow the department to be able to inspect hatcheries at its discretion in accordance with Alaska statute.
5 AAC 40.840	Restructures the regulatory language for annual management plans to add specific language applicable to salmon and shellfish and modernizes antiquated language.
5 AAC 40.850	Section is repealed and moved to Article 4 under 5 AAC 40.245 which will contain all permitting related language for salmon and shellfish hatchery operations.
5 AAC 40.860	Modifies the performance review criteria used by the commissioner or regional planning team when considering permit revocation or suspensions to be appropriately associated to a salmon or shellfish hatchery. Removes the minimum hatchery survival standards percentages for salmon and allows the department to determine adequate survival rates for both salmon and shellfish enhancement operations.
5 AAC 40.870	Minor changes the reporting of mortality regulation by removing the words 'fish or egg' to default to salmon or shellfish hatcheries by becoming unspecified and removes reference to survival standards in 5 AAC 40.860, which is also proposed to be modified.

5 AAC 40.880(b) - (c)	Conforming edits to add the word 'hatchery' before all applicable uses of the word 'permit' and changes 'transferral' to transfer in (c).
5 AAC 40.885	Adds a new section that establishes procedure for surplus shellfish hatchery eggs and transfers to other facilities.
5 AAC 40.890	Adds statutory reference specific to shellfish and modernizes antiquated regulatory language.
5 AAC 40.990(1)	Provides appropriate description of the commissioner's designee.
5 AAC 40.990(5)	Changes the definition of "enhancement" to now include shellfish.
5 AAC 40.990(6)	Changes the definition of "escapement" to be specific to salmon.
5 AAC 40.990(7)	Changes the definition of "permit" to remove the reference to salmon making the definition also include shellfish by making it unspecified.
5 AAC 40.990(14)	Changes the definition of "broodstock" to reference shellfish and removes salmon specific reproduction language and changes that terminology to gametes.

Additional Regulatory Changes

Statutory authorities of existing regulations are changed to include appropriate citations to reflect the addition of the shellfish enhancement language throughout revisions to Chapter 40.

Re: *5 AAC 40 – 5 AAC 41.080: Dept. of Fish & Game - Shellfish Enhancement
Projects per new statute AS 16.12*
Our file: 2024200179

Dear Lieutenant Governor Dahlstrom:

The Department of Law has reviewed the attached regulations of the Department of Fish and Game against the statutory standards of the Administrative Procedure Act. Based upon our review, we find no legal problems. This letter constitutes the written statement of approval under AS 44.62.060(b) and (c) that authorizes your office to file the attached regulations. The regulations were adopted by the Department of Fish and Game after the close of the public comment period.

The regulations amend 5 AAC 40 to update requirements related to the permitting and management of private nonprofit shellfish and salmon hatcheries.

The November 27, 2024 public notice, the January 12, 2025 supplemental notice and the March 26, 2025 adoption order all state that this action is not expected to require an increased appropriation. Therefore, a fiscal note under AS 44.62.060 is not required.

We have made some technical corrections to conform the regulations in accordance with AS 44.62.060. The corrections are incorporated into the attached copy of the regulations.

Sincerely,

TREG TAYLOR
ATTORNEY GENERAL

**ORDER ADOPTING CHANGES TO REGULATIONS
OF THE DEPARTMENT OF FISH AND GAME**

The attached 30 pages of regulations, dealing with regulations to update requirements and standards under 5 AAC 40 to regulate the permitting of private nonprofit corporations to engage in salmon and shellfish enhancement projects in accordance with AS 16.10 and AS 16.12, are adopted and certified to be a correct copy of the regulation changes that the Department of Fish and Game adopts under the authority of AS 16.05.050, AS 16.05.251, AS 16.05.255 and AS 16.05.270 after compliance with the Administrative Procedure Act (AS 44.62), specifically including notice under AS 44.62.190 and 44.62.200 and opportunity for public comment under AS 44.62.210.

This action is not expected to require an increased appropriation.

In considering public comments, the Department of Fish and Game paid special attention to the cost to private persons of the regulatory action being taken.

The regulation changes adopted under this order take effect on the 30th day after they have been filed by the lieutenant governor, as provided in AS 44.62.180.

FILING CERTIFICATION

Kady Lerate
I, Nancy Dahlstrom, Lieutenant Governor for the State of Alaska, certify that on May 12, 2025, at 2:37p.m., I filed the attached regulations according to the provisions of AS 44.62.040 - 44.62.120.

Kady Lerate
for Nancy Dahlstrom, Lieutenant Governor
State of Alaska

Effective: June 11, 2025

Register: 254, July 2025

FOR DELEGATION OF THE LIEUTENANT GOVERNOR'S AUTHORITY

I, NANCY DAHLSTROM, LIEUTENANT GOVERNOR OF THE STATE OF ALASKA, designate the following state employees to perform the Administrative Procedures Act filing functions of the Office of the Lieutenant Governor:

Kady Levale, Notary Administrator

IN TESTIMONY WHEREOF, I have signed and affixed the Seal of the State of Alaska, in Juneau, on May 15th, 2023.

A handwritten signature in blue ink, reading "Nancy Dahlstrom", is written over a horizontal dotted line.

**NANCY DAHLSTROM
LIEUTENANT GOVERNOR**

Title 5. Fish and Game.

The part heading for 5 AAC Part 1 is changed to read:

**Part 1. Commercial and Subsistence Fishing and Private Nonprofit Salmon and Shellfish
Hatcheries.**

Chapter 40. Private Nonprofit Salmon Hatcheries.

The chapter heading for 5 AAC Chapter 40 is changed to read:

Chapter 40. Private Nonprofit Salmon and Shellfish Hatcheries.

Article 1. General.

5 AAC 40.005(a) is amended to read:

(a) The harvest of salmon and shellfish inhabiting the water of the state, regardless of whether the salmon or shellfish are naturally or artificially propagated, may only be conducted under [ONLY PURSUANT TO] regulations adopted by the Board of Fisheries or the commissioner.

5 AAC 40.005(b) is amended to read:

(b) The harvest of salmon and shellfish produced by [RETURNING TO] a private nonprofit [SALMON] hatchery is [WILL BE] governed by the regulations adopted by the Board of Fisheries or the commissioner. The board may [WILL, IN ITS DISCRETION,] develop [HARVESTING] regulations after review of the harvest plans or other materials, information, or [AND] testimony [, IF ANY,] presented by a [THE] regional association [ASSOCIATIONS],

hatchery **operator** [OPERATORS], the Department of Commerce, Community, and Economic Development, the Department of Fish and Game, **commercial** fishermen, **or an** [AND OTHER] interested **party** [PARTIES].

5 AAC 40.005(c) is amended to read:

(c) **In an area where salmon** [WHERE] hatchery returns enter a segregated location near the release site and can be harvested without significantly affecting wild stocks [,] **or a hatchery permit has been issued for shellfish enhancement**, a special harvest area may be designated **within the hatchery permit**, by regulation adopted by the board, [WITHIN THE HATCHERY PERMIT,] or by emergency **order** [ORDERS] issued by the commissioner.

5 AAC 40.005(d) is amended to read:

(d) A private nonprofit hatchery permit holder **or a hatchery permit holder's agent, contractee, or employee** [AND HIS AGENTS, CONTRACTEES, AND EMPLOYEES] may **only** harvest salmon **or shellfish** for the hatchery [ONLY] in the applicable special harvest area. **Nothing in this subsection prohibits** [DOES NOT PREVENT] a special harvest area from being open to commercial, sport, or subsistence fishing or **a** [ANY] combination thereof **as** [TO THE EXTENT] provided in regulations adopted **or an emergency order** [AND ORDERS] issued under this **Title** [CHAPTER]. [HARVESTING OF SALMON WITHIN THE SPECIAL HARVEST AREA, WHETHER BY THE HATCHERY OPERATOR OR THE COMMON PROPERTY FISHERIES, WILL BE OPENED AND CLOSED BY REGULATION OR EMERGENCY ORDER.]

Register 254, July 2025 FISH AND GAME

5 AAC 40.005(g) is amended to read:

(g) **An agent, contractee, or employee** [AGENTS, CONTRACTEES, AND EMPLOYEES] of a hatchery permit holder may **only** harvest salmon **or shellfish** for the hatchery in **a** [THE] special harvest area [ONLY] if **the agent, contractee, or employee possesses** [THEY HAVE IN THEIR POSSESSION] a written authorization from the hatchery permit holder and **harvests the salmon or shellfish** [ONLY] in accordance with **the** [ITS] terms **of the written authorization**. The activities in the special harvest area of a person who is not a hatchery permit holder or an agent, contractee, or employee of the permit holder acting under the terms of a written authorization [,] are governed by **the** regulations applicable to commercial, sport, personal use, and subsistence fishing.

	AS 16.05.251	AS 16.10.440	

5 AAC 40.010 is amended to read:

5 AAC 40.010. Modifications of applicable regulations. (a) **A hatchery** [HATCHERY] permit **holder** [HOLDERS] shall, with respect to salmon **or shellfish** harvested by **the permit holder or the permit holder's agent, contractee, or employee** [THEM (OR THEIR AGENTS, CONTRACTEES, OR EMPLOYEES)], comply with **the** applicable provisions of 5 AAC 39.130 [(a) AND (b)] as though **that person is** [THEY WERE] a purchaser of fish.

(b) **A hatchery** [HATCHERY] permit holder **that harvests** [HOLDERS HARVESTING] salmon within a special harvest area [, TO THE EXTENT THOSE SALMON ARE] used as egg sources for broodstock, **shall** [WILL] be exempted by the commissioner from the provisions of AS 16.05.831 [IF THE PERMIT HOLDER SO REQUESTS]. The commissioner may condition the exemption on terms **the commissioner** [HE] considers necessary to carry out [THE INTENT OF] AS 16.05.831.

(c) **A hatchery** [HATCHERY] permit **holder that harvests** [HOLDERS CONDUCTING A HATCHERY HARVEST OF SALMON] within a special harvest area **is** [ARE] exempt from the provisions of 5 AAC 39.290.

(d) **A person who owns a commercial fishing vessel or that person's agent, when** [FISHERMEN] taking salmon **or shellfish** in a special harvest area under authorization from the hatchery permit holder and operating under a special harvest area entry permit, **is** [ARE] exempt from the provisions of 5 AAC 39.120. Article 3. Applicability of Regulations.

5 AAC 40.100 is amended to read:

5 AAC 40.100. Applicability of regulations. The provisions of 5 AAC 40.110 - 5 AAC 40.990 govern the hatchery permit application process for private nonprofit [SALMON] hatcheries [,] and establish guidelines and procedures regarding the operation of permitted hatcheries. (Eff. 3/31/85, Register 93; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.375 AS 16.12.010
AS 16.05.092 AS 16.10.470 AS 16.12.100

Article 4. Permit Application.

The Article heading title of 5 AAC Chapter 40 is changed to read:

Article 4. Permitting [PERMIT APPLICATION].

5 AAC 40.110 is amended to read:

5 AAC 40.110. Authority. The commissioner will review and take action on each application for a private nonprofit [SALMON] hatchery. (Eff. 3/31/85, Register 93; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.100
AS 16.05.092 AS 16.12.010

5 AAC 40.120 is amended to read:

5 AAC 40.120. Pre-application assistance. When preparing an application for a hatchery permit or conducting a related activity, an applicant may request the department's assistance [IN PREPARING AN APPLICATION OR CONDUCTING RELATED ACTIVITIES]. The PNP coordinator [, OR THE DEPARTMENT AREA MANAGEMENT

BIOLOGIST,] will provide assistance to the extent practicable. (Eff. 3/31/85, Register 93; am

6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.010

AS 16.05.092

5 AAC 40.130 is amended to read:

5 AAC 40.130. Management feasibility analysis. (a) An applicant may submit a request to the PNP coordinator for the [THE] department to prepare [WILL ASSIST AN APPLICANT BY PREPARING] a management feasibility analysis for a [EACH] proposed hatchery site. The department must complete and provide the analysis to the applicant [WILL BE COMPLETED] before the applicant may submit [SUBMITTAL OF] an application for a [PRIVATE NONPROFIT SALMON] hatchery permit under 5 AAC 40.140. The department will base the [AN] analysis [IS BASED] on the following information that must be provided by the applicant to the PNP coordinator; [, INCLUDING]

(1) the location of the facility;

(2) the [SPECIES] desired species and broodstock for hatchery production;

(3) if applicable, the run timing, by species of salmon;

(4) the incubation and rearing levels desired during the first reproductive cycle, by species; [AND]

(5) the incubation and rearing levels desired at full capacity, by species;

(6) if requested by the PNP coordinator, other information necessary for the department to complete the analysis.

(b) Not later than 90 days after the PNP coordinator receives from the applicant the

information described in (a) of this section, the department will complete a management feasibility analysis of the proposed hatchery. [A MANAGEMENT FEASIBILITY ANALYSIS INCLUDES, AT A MINIMUM, THE FOLLOWING INFORMATION:

- (1) AN ESTIMATE OF POTENTIAL CONTRIBUTIONS TO THE COMMON PROPERTY FISHERY;
- (2) POTENTIAL SIZE AND LOCATION OF A SPECIAL HARVEST AREA;
- (3) SPECIAL MANAGEMENT CONSIDERATIONS OR THE NEED FOR ADDITIONAL STUDIES;
- (4) POTENTIAL BROODSTOCK SOURCES;
- (5) AN ASSESSMENT OF PRODUCTION POTENTIALS FOR EACH SPECIES; AND
- (6) ADDITIONAL FACTORS CONSIDERED BY THE DEPARTMENT TO BE RELEVANT TO THE PROPOSED HATCHERY OPERATION.]

(c) The department will include the following information in a management feasibility analysis:

- (1) an estimate of potential contributions to the common property fishery;**
- (2) potential size and location of a special harvest area;**
- (3) special management considerations or the need for additional studies;**
- (4) potential broodstock sources;**
- (5) an assessment of production potentials for each species; and**
- (6) additional factors considered by the department to be relevant to a proposed hatchery operation.** (Eff. 3/31/85, Register 93; am 6/1/2013, Register 206; am

6 / 11 / 2025, Register 254)

Register 254, July 2025 FISH AND GAME

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.010
AS 16.05.092

5 AAC 40.140 is amended to read:

5 AAC 40.140. Hatchery permit [PERMIT] application. An application for a hatchery permit must be submitted to the PNP coordinator. The PNP coordinator will provide an application [FORM] upon request. [THE APPLICATION MUST INCLUDE A COMPLETED MANAGEMENT FEASIBILITY ANALYSIS.] The applicant shall provide, in the hatchery permit application, detailed statements of operational goals, objectives, and plans. The application must include a management feasibility analysis completed in accordance with

5 AAC 40.130. (Eff. 3/31/85, Register 93; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.010
AS 16.05.092

5 AAC 40.150 is amended to read:

5 AAC 40.150. Application fee. An application for a hatchery permit must include a
(1) \$0 application fee for a salmon hatchery permit, as [MUST BE
ACCOMPANIED BY THE FEE] required under [BY] AS 16.10.400; or

(2) \$0 application fee for a shellfish hatchery permit, as required under
AS 16.12.010. (Eff. 3/31/85, Register 93; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.010
AS 16.05.092

5 AAC 40.160 is amended to read:

5 AAC 40.160. Acceptance determination. (a) The PNP coordinator shall review a submitted application for completeness and determine whether it includes the completed management feasibility analysis described in **5 AAC 40.130** [5 AAC 40.130(b)]. If the PNP coordinator determines that the application [FORM] is not complete or does not contain a completed management feasibility analysis, the PNP coordinator shall request, in writing, the necessary information from the applicant to complete the application. An application will not be accepted until the PNP coordinator determines that the application is complete and that it contains a completed management feasibility analysis.

(b) The 60-day time period for processing an application under 5 AAC 40.190 **begins** [, SCHEDULE A, WILL BEGIN] when the application is accepted under this section. (Eff. 3/31/85, Register 93; am 4/28/95, Register 134; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 **AS 16.12.010**
AS 16.05.092

The section heading of 5 AAC 40.170 is changed to read:

5 AAC 40.170. Regional planning team review of salmon hatchery operations.

5 AAC 40.180(a) is amended to read:

(a) If, after an application **for a hatchery permit** has been accepted by the PNP coordinator, the PNP coordinator determines that more information is necessary in order for the department to evaluate the biological, management, and economic feasibility of the proposed hatchery, the PNP coordinator shall request [, IN WRITING,] the necessary information from the applicant **in writing. If the PNP coordinator submits a written request for additional**

information to the applicant, the 60-day time period of the application review and approval process described in 5 AAC 40.190 is suspended until the PNP coordinator receives the additional information from the applicant.

(Eff. 3/31/85, Register 93; am 4/28/95, Register 134; am 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 **AS 16.12.010**

AS 16.05.092

5 AAC 40 is amended by adding a new section to read:

5 AAC 40.185. Basic management plan. (a) The hatchery permit application process includes the development, finalization, and approval of a basic management plan. A basic management plan describes how the proposed hatchery and facility will be developed for the first five years and is drafted by the applicant, department area staff, and the PNP coordinator. The basic management plan exists only as a draft basic management plan until approved by the commissioner.

(b) A basic management plan must include the following for a proposed hatchery:

- (1) hatchery development schedule;
- (2) location of the facility;
- (3) capacity of the facility;
- (4) potential donor stock source;
- (5) incubation plans;
- (6) culture plans;
- (7) release locations; and
- (8) adult harvest plans.

(c) An approved basic management plan is an addendum to the hatchery permit and sets out the terms of the hatchery permit. (Eff. 6 / 11 / 2025, Register 254)

Authority: AS 16.05.020 AS 16.10.400 AS 16.12.010
AS 16.05.092 AS 16.10.410 AS 16.12.020

5 AAC 40.190 is repealed and readopted to read:

5 AAC 40.190. Hatchery permit application review process. (a) Except as provided in 5 AAC 40.180, the application review process for a hatchery permit is set out in (b) of this section.

(b) An applicant shall submit an application for a salmon hatchery or shellfish hatchery permit to the PNP coordinator. Once an application has been received by the PNP coordinator, if the PNP coordinator determines that no additional action is necessary to process the application, the PNP coordinator will review and process the application within 60 days in accordance with the following review process:

(1) the PNP coordinator will verify that the application is complete; if the application is

(A) incomplete or does not include a complete management feasibility analysis, the PNP coordinator shall request the required information from the applicant in writing; or

(B) complete, the PNP coordinator shall accept the application and proceed with department review; the accepted application shall be provided to department technical and regional management staff;

(2) the department will review the accepted application and may submit comments to the PNP coordinator or request, through the PNP coordinator, additional information from the applicant; a request by the PNP coordinator for additional information from the applicant suspends the 60-day application review timeline until the requested information is received by the PNP coordinator;

(3) the department shall work with the applicant to develop a draft basic management plan for the proposed hatchery; the draft basic management plan must be determined by the PNP coordinator to be complete before a public hearing is held under 5 AAC 40.210;

(4) if the application is for a salmon hatchery, the appropriate regional planning team shall review the application to determine if the proposed hatchery is compatible with the regional comprehensive salmon plan developed under AS 16.10.375 and submit the team's recommendation to the commissioner;

(5) if the application is for a shellfish hatchery, the commissioner shall consult with and solicit recommendations from federal and state agencies and technical experts in the relevant area regarding permit stipulations and issuance for the proposed hatchery;

(6) once the PNP coordinator determines that the application, draft basic management plan, and review are complete, the department will notice and conduct a public hearing, subject to the provisions of 5 AAC 40.210, for an application for a

(A) salmon hatchery in accordance with AS 16.10.410;

(B) shellfish enhancement project in accordance with 16.12.020;

(7) after the conclusion of the public notice and hearing, the PNP coordinator will work with the applicant to finalize the draft basic management plan;

(8) the PNP coordinator will compile the hatchery permit application information, including the finalized draft basic management plan, for the commissioner's review and issuance of a decision in accordance with

(A) 5 AAC 40.220, for a salmon hatchery permit;

(B) 5 AAC 40.225, for a shellfish hatchery permit. (Eff. 3/31/85, Register 93; am 4/28/95, Register 134; am 11/25/2011, Register 200; am 6/11/2025, Register 254)

5 AAC 40.210 is amended to read:

5 AAC 40.210. Public Hearing. (a) The department shall [WILL] conduct a public hearing for a [ON EACH] completed hatchery permit application. The commissioner shall [WILL GIVE] notice the [OF] public hearing [AT ANY TIME] after acceptance of the hatchery permit [AN] application, not less than 25 days before the date of the public hearing. At [THE NOTICE WILL BE GIVEN AT LEAST 25 DAYS BEFORE A PUBLIC HEARING, AND THE NOTICE WILL, IN] the commissioner's discretion, the hearing may be noticed [BE GIVEN] before the PNP coordinator issues a determination that [COMPLETION OF] the draft basic management plan is complete under 5 AAC 40.190. The hearing will be held under the following sequential procedures:

(1) the commissioner will make an introductory statement;

(2) the applicant **will** [SHALL] make a presentation of the **draft basic management plan, which must include the** proposed hatchery plans describing **the information required to be included in a basic management plan under 5 AAC 40.185** [ITS LOCATION, INCUBATION PLANS, THE CAPACITY OF THE FACILITY, THE DONOR STOCK SOURCE,] and other relevant facts **or information** that may be of interest to the department or the public;

(3) The department will present the draft [OF THE] basic management plan for the proposed facility, including **expected** [A PRESENTATION ON FISH CULTURE ASPECTS,] production [CONSIDERATIONS,] and [PRESENTATION OF THE] management, **and will make copies of the draft basic management plan available for public review and comment at the hearing** [SECTION OF THE BASIC MANAGEMENT PLAN BY THE LOCAL COMMERCIAL FISHERIES AND SPORT FISHERIES AREA MANAGEMENT BIOLOGIST]; and

(4) the commissioner will open the floor for public testimony and questions on all aspects of the proposed facility.

(b) The department **may respond to a comment, and shall respond to a specific objection,** [WILL RESPOND IN WRITING WITHIN 10 WORKING DAYS TO ANY SPECIFIC OBJECTIONS] offered by a member of the public at the hearing **conducted under this section not later than**

(A) 10 days after a public hearing for a salmon hatchery permit application;

(B) 30 days after a public hearing for a shellfish hatchery permit application.

(c) The department **may** [WILL] accept written comments for 15 days after the hearing. [,] and **may** [WILL] respond in writing, within 10 working days after receipt, to **a** [ANY] specific **objection** [OBJECTIONS] received within that time. [THE PUBLIC HEARING PROCESS CONCLUDES 15 DAYS AFTER THE ORAL HEARING IS HELD.] (Eff. 3/31/85, Register 93; am 6 / 11 / 2025, Register 254)

5 AAC 40.220 is amended to read:

5 AAC 40.220. Application review and decision for a salmon hatchery permit [REVIEW AND DETERMINATION]. (a) The commissioner **shall** [WILL] review the following information, compiled by the PNP coordinator, before **issuing** [RENDERING] a decision on **whether to approve or deny** an application **for a salmon hatchery permit**:

- (1) recommendations from the regional planning team;
- (2) recommendations resulting from the department's review of the application;

and

(3) **objections and recommendations received from the public during** [THE RESULTS OF] the public hearing regarding the proposed **hatchery** facility.

(b) The commissioner will **issue** [RENDER] a decision on **whether to approve or deny** **a salmon hatchery permit** [THE COMPLETED] application, **including the draft basic management plan**, and notify the applicant **of the decision** in writing **not later than** [, WITHIN] 75 calendar days after **the conclusion of the public hearing held under 5 AAC**

40.210 [AN APPLICATION IS COMPLETE]. The **commissioner shall base the**

[COMMISSIONER'S] decision [WILL BE BASED] on the following [CONSIDERATIONS]:

(1) **the** [THE] physical and environmental nature of the proposed location must be suitable for enhancing runs or for establishing new runs [,] and must have the potential to make a reasonable contribution to the common property fishery; **the** [THE] proposed hatchery returns may not

(A) unreasonably or adversely affect management of natural stocks; **or** [THE RETURNS FOR THE PROPOSED HATCHERY MAY NOT]

(B) require significant **alteration of a** [ALTERATIONS IN] traditional fishery time, area, gear type, or user group **allocation;** [ALLOCATION.]

(2) **the** [THE] operation of the proposed hatchery must make the best use of the site's potential [,] to benefit the common property fishery; [IN ORDER] to achieve optimum public benefit from the state's private nonprofit hatchery program and ensure that the proposed hatchery is in the best interests of the public, **an** enhancement **site** [SITES] must be developed to **the site's** [THEIR] fullest potential [,] with consideration to appropriate species, [AND] technological use of the site, **and available resources;** [.]

(3) **the** [THE] proximity of the proposed hatchery **releases** to an area that will allow for a **reasonable segregation** [SEGREGATED HARVEST] of hatchery stocks [WITHOUT ADVERSELY AFFECTING NATURAL STOCKS IS AN IMPORTANT FACTOR]; **the** [THE] harvest area of the proposed hatchery must be

(A) of sufficient size to allow harvest of **the** hatchery returns; [,] and

(B) may not otherwise limit **a harvest** [HARVESTS] to a location where fish would not be expected to [BE OF SUFFICIENT QUALITY TO] satisfy the requirements of AS 16.10.450; [REGARDING FISH FOR HUMAN CONSUMPTION.]

(4) **the** [THE] proposed hatchery must have available donor sources that are approvable under 5 AAC 41; **proposed** [. PROPOSED] donor sources for hatchery broodstock must be able to meet necessary first-cycle egg take levels; [.]

(5) **the** [THE] proposed hatchery must have a secured water source and delivery system that is adequate for the proposed levels of incubation and rearing; **the** [. THE] security of the water source must be demonstrated through [THE]

(A) appropriate water use permits; [.]

(B) annual hydrographs; [.]

(C) a chemical analysis of the water source; [.] and [ANY PROVISIONS]

(D) necessary **provisions** for recycling and depuration; [.]

(6) **the** [THE] proposed hatchery facility and water intake structures may not be located in **a stream** [STREAMS] or **in the reach of a stream that has** [REACHES OF STREAMS THAT HAVE] dynamic flooding characteristics or [THAT HAVE] significant and rapid bedload transport that may endanger water intake galleries, weirs, the facility, or the reliability of the water source for the proposed hatchery; [.]

(7) **the** [THE] proposed hatchery must allow for the maintenance of adequate instream flows below the hatchery or any hatchery-related **facility** [FACILITIES], **including a** [SUCH AS] water intake **structure** [STRUCTURES], to support natural stocks; [.]

(8) **the** [THE] proposed hatchery **plan** [PLANS] and staffing **plan** [PLANS] must demonstrate [A REASONABLE LEVEL OF] operational feasibility [AND AN ACCEPTABLE

DEGREE OF POTENTIAL SUCCESS].

(c) If an [THE] application is approved under this section, the commissioner shall [WILL], as a condition of the hatchery permit, require the permit holder to provide for suitable fish-passage facilities in order to accommodate acceptable upstream and downstream passage of fish, if passage facilities are determined by the department to be necessary. (Eff. 3/31/85,

5 AAC 40 is amended by adding a new section to read:

5 AAC 40.225. Application review and decision for a shellfish hatchery permit. (a)

The commissioner shall review the following information compiled by the PNP coordinator before issuing a decision on whether to approve or deny an application for a shellfish hatchery permit:

(1) recommendations resulting from the department's review of the application;

and

(2) the information presented, recommendations, and specific support or objections from the public hearing regarding the proposed shellfish facility, hatchery permit application, or basic management plan.

(b) The commissioner will issue a decision on whether to approve or deny a shellfish hatchery application, including the basic management plan, and notify the applicant in writing of the decision not later than 75 calendar days after the conclusion of the public hearing held under 5 AAC 40.210. The commissioner shall base the decision on the following:

(1) the physical and environmental nature of the proposed location must be suitable for enhancing shellfish fisheries, rehabilitating natural stocks, or increasing the area of productive natural shellfish habitat and must have the potential to make a reasonable contribution to the common property fishery; the proposed hatchery production may not unreasonably or adversely affect management of natural stocks; a shellfish fishery enhancement project may not significantly alter traditional fishery time, area, gear type, or user group allocations;

(2) the operation of the proposed hatchery must make the best use of the site's potential to benefit the common property fishery; to achieve optimum public benefit from the state's private nonprofit hatchery program and ensure that the proposed hatchery is in the best interests of the public, an enhancement site must be developed to the site's fullest potential, with consideration to appropriate species, technological use and available resources of the site;

(3) the proximity of the proposed hatchery releases to an area that will allow for a harvest of hatchery stocks without adversely affecting natural stocks;

(4) the proposed hatchery must have available donor sources that are approvable under 5 AAC 41; proposed donor sources for hatchery broodstock must be able to meet necessary first-cycle broodstock levels;

(5) the proposed hatchery must have a secured water source and delivery system that is adequate for the proposed levels of incubation and rearing;

(6) the proposed hatchery plan and staffing plan must demonstrate a reasonable level of operational feasibility and an acceptable degree of potential success. (Eff.

5 AAC 40.240 is amended to read:

5 AAC 40.240. Permit revocation. (a) The commissioner will revoke a hatchery permit if the commissioner determines that at the end of five years from the date the permit was issued, the permit holder has not undertaken substantial ongoing work to construct and operate a hatchery facility in compliance with the terms and conditions specified in the permit and the facility development schedule specified in the basic management plan required by 5 AAC 40.185 [5 AAC 40.820].

(b) To initiate revocation of a permit under this section, the PNP coordinator shall notify the permit holder, in writing, of the proposed revocation. The permit holder may have 30 days from the date of the notice of the proposed revocation to submit information to the commissioner to show that the permit holder has undertaken substantial ongoing work to construct and operate a hatchery facility in compliance with the terms and conditions specified in the permit and the facility development schedule specified in the basic management plan required by 5 AAC 40.185 [5 AAC 40.820].

(c) The PNP coordinator shall provide written notice of a [THE] proposed revocation of a salmon [THE] hatchery permit to the regional planning team for the area in which the proposed salmon hatchery is permitted. The regional planning team shall review and submit comments on the proposed revocation to the commissioner not later than [MAY HAVE] 90 days after [FROM] the date of the notice [TO REVIEW THE PROPOSED REVOCATION AND SUBMIT COMMENTS ON IT TO THE COMMISSIONER]. 5 AAC 40 is amended by adding a new section to read:

5 AAC 40.245. Hatchery permit alteration. (a) A hatchery permit holder may request alteration of an existing hatchery permit. The permit holder shall submit the permit alteration request to the PNP coordinator on a form provided by the department.

(b) A hatchery permit holder's submission of a request for permit alteration under this section must be received by the PNP coordinator not later than February 15 of the calendar year that the proposed alteration is requested to occur. The commissioner may extend the submission deadline for a permit alteration request if the commissioner determines that the extension is justified by extraordinary circumstances or an emergency.

(c) If a hatchery permit alteration is requested for a salmon hatchery, the appropriate regional planning team will review and make a recommendation to the commissioner on the hatchery permit alteration request.

(d) Approval of a hatchery permit alteration by the commissioner modifies the existing hatchery permit. (Eff. 6 / 11 / 2025, Register 254)

5 AAC 40.840 is repealed and readopted to read:

5 AAC 40.840. Annual management plan. (a) Beginning on the first year of operation of a hatchery, and on an annual basis after that, the department shall work with a permit holder to

prepare an annual management plan to guide hatchery operations in accordance with the hatchery permit. The PNP coordinator shall coordinate with the appropriate department staff and hatchery permit holder to prepare a draft annual management plan. The hatchery operator shall submit the draft annual management plan to the department not later than April 1 of each year for review by the commissioner. The annual management plan exists only as a draft annual management plan until approved by the commissioner.

(b) An annual management plan must be developed with consideration of a hatchery's production cycle and must organize and guide the hatchery's operations regarding

(1) production goals;

(2) broodstock management; and

(3) harvest management of hatchery-produced salmon or adult shellfish.

(c) For a salmon hatchery annual management plan, a production cycle is considered to begin with adult returns that lead to egg takes and end with fish releases.

(d) For a shellfish hatchery annual management plan, a production cycle is considered to begin with broodstock collection and end with juvenile releases.

(e) The Department of Commerce, Community, and Economic Development may review a draft annual management plan. For a salmon hatchery, the appropriate qualified regional planning team may review a draft annual management plan.

(f) An approved annual management plan does not limit or prohibit a permit holder from acting in accordance with the hatchery permit or an emergency order. (Eff. 3/31/85, Register 93; am 4/25/2021, Register 238; am 6 / 11 / 2025, Register 254)
