Proposals 136/137: Sablefish Personal Use limits

We suggest the following personal use limits for sablefish:

- 1) 50 sablefish annual limit per household permit; and
- 2) 200 sablefish vessel limit per trip; and,
- 3) 350 hook limit per household permit.

To clarify: Both the individual and vessel limits apply. In other words, a vessel with six permit holders on board would be limited to 200 sablefish per trip; a vessel with 3 permit holders on board would be limited to 150 sablefish per trip.
