

Submitted by the Alaska Department of Fish and Game at the request of board member Johnson

March 17, 2015

Substitute Language for Proposal 277

5 AAC 06.355(d)(1) is amended to read:

(d) The department shall manage, subject to existing management plans, fishery openings, closures, and areas to

(1) achieve adequate escapement from all segments of the run by spacing openings throughout the run **and, to the extent practicable, manage for escapements within the lower or upper portions of escapement goals proportional to the run size based on the preseason forecast and inseason assessment of the run size;**
