

**MATANUSKA-SUSITNA BOROUGH**  
350 East Dahlia Avenue • Palmer, AK 99645

February 17, 2017

Dear Chairman Jensen and Board of Fisheries Members:

Please note that Proposal 214, submitted by the Matanuska-Susitna Borough Fish and Wildlife Commission, seeks to add two provisions to the Northern District King Salmon Management plan. Each of those provisions has a different paired restriction with the Northern District set net fishery.

The Department summary at the top of the proposal lists both provisions as having the same paired restriction for the Northern District set net fishery.

The regulatory language provided in Proposal 214 is correct as proposed.

The Department summary language is incorrect.

Please inform the Board of Fisheries of the incorrect language in the Proposal book.

Thanks.

A handwritten signature in cursive script that reads "Frankie Barker".
