

**Proposal 116 Substitute Language**

***Re: 5 AAC 21.360 Kenai Late-run Sockeye Salmon Management Plan***

In light of the changes in the Kenai River late-run Sockeye in-river goal ranges, the Kenai River Professional Guides Association recommends:

Adding a provision in to automatically increase the sport fishery bag limit of sockeye to 6 per day and the possession limit to 12 per day in the Kenai River when Kenai late-run sockeye salmon run strength is greater than 4.6 million (3<sup>rd</sup> tier).

***Kenai River Professional Guides Association***
