

Committee A: Proposal 233

Proposal 233: Extend the area closed to sport fishing downstream of Little Susitna River Weir

The amended language discussed by both the Matanuska Valley AC and the Matanuska - Susitna Borough Fish and Wildlife Commission:

(M) the waters within approximately 3400 feet (to campsite #7) downstream of the Little Susitna River weir are closed to sportfishing as indicated by ADF&G regulatory markers.

Note: within this proposal — there was no opposition to support of the proposal. The only opposition was in consideration of the amended language.

Andy Couch, Matanuska Valley AC
