

**Submitted by: Kenai River Professional Guides Association**

**Regarding Proposals #186, #187, #188**

These proposals are for adoption of a series of more restrictive gear restrictions while fishing in the Kenai River (barbless hooks, single hooks, etc.)

KRPGA is opposed to these proposals for the following reasons:

- Increased regulatory complexity is not necessary.
- This regulation would unnecessarily limit ADF&G's management authority.
