2019 Freshwater Sport Fish Vessel Registration (Cont'd)

VESSEL REGISTRATION

The following applies to all powered and non-powered vessels being used to conduct sport fishing guided activities:

- Must be currently licensed with the Alaska Division of Motor Vehicles (DMV) and hold a current AK Registration number or hold a current U.S. Coast Guard (USCG) Vessel Documentation number.
- Must be registered with the Alaska Department of Fish and Game (ADF&G) and display an ADF&G vessel decal with the current year tag.
- Vessels borrowed or purchased in-season must adhere to the above criteria and display ADF&G sport fish guide vessel decals.

Upon registration, each vessel is issued two charter vessel decals (if necessary) and two current year tabs.

See page iii for instructions on vessels that are added midseason.

VESSEL DECALS/YEAR TABS

One set of ADF&G decals will be issued per registered vessel. Decals must be displayed and visible on each side of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass or plexiglas[®] which in turn is secured to each side of the vessel. Decals can be transferred from one vessel to another, as long as the receiving vessel has a current AK registration number from DMV or a USCG documentation number and has been registered with ADF&G. Decals are designed to withstand several years of use. Annual tabs will be issued as vessels are registered. Annual year tabs are to be adhered directly to the decal in the designated area.

2019 Freshwater Sport Fish Logbook Regulations

RESPONSIBILITY OF BUSINESS OWNER & GUIDE

Guides are responsible for completing logbook pages in the manner and at the location specified in the logbook instructions.

ADF&G registered business owners are responsible for reporting logbook information and submitting the completed logbook pages to the department for fishing activities from January 1, 2019 through December 31, 2019 for each sport fishing guide they employ in accordance with the schedule printed inside the front cover of the logbook.

2019 Freshwater Sport Fish Logbook Regulations (Cont'd)

WHAT A GUIDE MUST HAVE IN POSSESSION WHILE GUIDING

While engaged in providing sport fish guide services, a sport fishing guide shall have the following readily available for inspection upon request of a representative of the Department or a peace officer of the state:

- a current ADF&G sport fishing guide registration;
- a copy of the current ADF&G sport fishing business owner's registration of the guide's employer;
- a current Alaska sport fishing license, tags, stamps or permits that are required to engage in the sport fishery for which guide services are being provided;
- an identification card issued to the sport fishing guide by a state or federal agency that bears a photo of the sport fishing guide (e.g. driver's license);
- a logbook per 5 AAC 75.075(g)(1)(B)

There may be additional requirements by other state and federal agencies (e.g. USCG). It is your responsibility to determine what those requirements are.

RETURN THE LOGBOOK PAGES WEEKLY

Fishing activity that occurs prior to April 1, 2019 is due to ADF&G by April 8, 2019; all activity thereafter must be received by ADF&G EVERY WEEK as detailed in the schedule on the inside of the front cover of this book.

For fishing activity that occurs in the early winter of 2019, please call the local ADF&G office for logbook instructions if the 2019 logbooks are not yet available.

All 2019 logbook data must be received by January 6, 2020.

*PINK COPIES OF THE LOGBOOK PAGES ARE TO
REMAIN IN THE LOGBOOK.*

2019 Freshwater Sport Fish Logbook Instructions

WHEN TO COMPLETE A LOGBOOK

Logbook pages must be completed at the end of each day of fishing or at the end of each trip within a day as described below through the last trip of the season.

The guide that leads the trip is required to complete logbook pages per the instructions described below.

NO VESSEL USED

Aircraft, highway vehicles, walk-in, ATVs, etc.

Complete the logbook before the guide leaves the fishing site. Fishing site is defined as the location where the fishing activity took place. Refer to the list of unique freshwater site codes provided with the logbook.

2019 Freshwater Sport Fish Logbook Instructions (Cont'd)

VESSEL USED

Returning to a lodge, camp, dock or mooring location:

Complete the logbook before offloading any fish from the vessel. If no fish were kept, complete the logbook before offloading any clients.

Returning to a boat ramp, launching site, or other client drop off location:

Complete the logbook before the vessel or guide departs the launching/landing site AND before offloading any fish from the vessel.

If no fish were kept, complete the logbook before the guide departs the launch/landing site.

MULTIPLE TRIPS PER DAY

Each trip of multiple trips in a day should be logged on a separate logbook page. Complete the logbook at the end of each trip, as described above.

MULTI-DAY TRIPS

Complete the logbook at day's end for each day of the trip. Use a separate logbook page for each day of the trip.

MULTIPLE SITES FISHED

If multiple sites were fished on the same day, each site will require a new logbook page labeled with the same date. Each page will need to be completed prior to leaving the site per the instructions above. This includes those river systems containing multiple and unique site code numbers.

LOGBOOK ASSIGNMENTS/TRANSFERS

Logbooks are issued to individual registered businesses. Due to the variety of ways that freshwater businesses conduct operations, the number of logbooks issued to a unique business will vary.

The business owner or their representative must determine how many logbooks that business will be required to have in order to comply with the recording requirements outlined in the instructions. For example, an operation that conducts business from a lodge with 6 guides may need more logbooks than a single business owner/guide with one vessel that is trailered.

A logbook is assigned by ADF&G to the business; the business owner can distribute individual logbooks to a vessel or to a guide. It is up to the discretion of the business owner to distribute logbooks to employed guides in any manner that facilitates the timely recording of trip information as described previously in the instructions.

How to Fill Out the Logbook

See Previous Page for Quick Reference

ADF&G Sport Fish Guide Registration Number - The 2019 guide registration number (GL#) issued by ADF&G to the guide. Only one guide registration number should appear on each logbook page.

Date Fished - The date for each trip taken. If multiple trips to multiple different fishing sites were taken on the same day, that date and unique trip information would appear on as many logbook pages as there were unique trips. Although the date would be the same, client information and trip specifics may differ. If there were more than six clients, continue on a separate logbook page with the trip information and client information carried over to the new page.

Hour Trip Ended - Record the hour the trip ended with the offloading of clients and/or fish. Round to the nearest hour only. Circle AM or PM. For multi-day trips record the hour the trip ended each day.

River/Stream/Lake (Specify) - The name of the site where fishing activity occurred.

Site Code - Refer to the site code list provided with the logbook for the site code associated with the river, stream or lake where fishing activity occurred. Write the site code down as it appears on this list. If no site code exists for your fishing site, use the code for Other Streams or Other Lakes.

Other Species Write-In - On the line denoted with an *, write in the name of the “other” species kept or released. Use the last blank column on the right to record the catch of this “other” species of fish as long as it does not already have an existing column. If more than one “other” species is kept or released, use an existing column, cross out the existing species of fish not present at this fishing site and write in the name of that second species.

Once a species has been written in, that column becomes dedicated to that species for the remainder of that logbook page.

Examples of Other Species: pink (or humpy) salmon, chum (or dog) salmon, burbot, and whitefish.

Residency - In the column to the left of each client’s information, circle:

- R for Resident
- N for Nonresident.

2019 Freshwater Sport Fish How to Fill Out the Logbook (cont'd)

Client Information Field - Field for personal information (name or fishing license number) to identify each client, comped angler, and crew that fished. A “comped” angler is an angler who is not paying for this charter; it can include family, friends or other acquaintances.

Use one line per angler, recording personal information and all fishing activity on that line.

Crew Status should be noted to the right of the client information, if applicable, circle:

- C if angler is the guide or a Crew member

RECORDING SALMON AND OTHER SPECIES

Fish Kept & Released - Record the total number of fish kept (K) in the white row and released (R) in the gray row by each angler during that trip. Each angler has a dedicated line assigned on each logbook page. If the same angler goes on more than one trip on the same day, that angler should appear separately on each page.

PROXY FISHING INSTRUCTIONS

If a client is also proxy fishing for a beneficiary, that client must have the fishing license or PID/DAV of the person for whom he/she is fishing, as well as a validated proxy fishing form. Write down the client information of the recipient of the fish (beneficiary), followed by a (P) to indicate proxy, e.g. John Smith-P or 9123456-P.

Use two lines on the logbook data sheet, one for the angler and one for the beneficiary. Indicate (R) for Resident in the adjacent column; beneficiaries and those fishing for them must be residents of Alaska.
