

Proposed Change to Proposal 40

5 AAC 06353 Wood River Sockeye Special Harvest Area Management Plan

Modify the length of the distance between the sites fishing in the Wood River Special Harvest Area from 150 feet to 250 feet.

Extend and expand the Wood River Special Harvest Area southern boundary of the fishing district to include the first one hundred feet of the north end of sheep island. This boundary would extend to both sides of Wood River.

By expanding the southern boundary of the Wood River Special Harvest Area will help to eliminate the congestion that currently exists.

The substitute language is drafted to address the concern of the author Regarding the distribution of fish among the people participating in this fishery.
