**KENAI PENINSULA BOROUGH  
RESOLUTION 2020-012**

**ASKING THE ALASKA BOARD OF FISHERIES FOR DUE DILIGENCE IN  
SUPPORTING BIOLOGICAL MANAGEMENT OF SALMON STOCKS IN UPPER  
COOK INLET**

**WHEREAS,** the Alaska Board of Fisheries is scheduled to meet February 7-19, 2020 to consider management proposals for Upper Cook Inlet; and

**WHEREAS,** salmon are essential to the economy of the Kenai Peninsula Borough; and

**WHEREAS,** seafood processing is the largest manufacturing sector in Alaska, accounting for 72 percent of manufacturing employment<sup>1</sup>; and

**WHEREAS,** the first commercial salmon venture in Cook Inlet was started in 1871 at the Kasilof River under direction of Captain Joshua Slocum from the 110-foot sailing vessel *Washington*, owned by Nicholas Bichard<sup>2</sup>; and

**WHEREAS,** the first salmon saltery in Cook Inlet was started at Kenai in 1878 by the Alaska Commercial Company under direction of Captain James Wilson<sup>3</sup>; and

**WHEREAS,** the Western Fur and Trading Company established a salmon saltery on the Kasilof River in 1879 under direction of Captain H.R. Bowen<sup>3</sup>; and

**WHEREAS,** Alaska Packing Company built the first cannery in Cook Inlet, on the Kasilof River in 1882<sup>4</sup>; and

**WHEREAS,** Alaska Governor Alfred Swineford aboard the USS *Thetis*, with a crew of 98 men, visited Kenai in 1888 and left this report:

We left Kodiak on June 7 for Cook Inlet and arrived inside the entrance before dark. At 2 pm. on Friday. June 8 we arrived off Kenai and anchored about 5 miles out. We went ashore in the steam launch. Kenai is now a station of the Alaska Commercial Company. There are two settlements, one native and one creole, with a Greek chapel or Church and a priest. The creole settlement consists of 20 to 25 substantial log houses and the native town of about as many log, but mostly straw-thatched. A new salmon cannery has just gone into operation at the mouth of the river, and there I saw for the first time what are called Tyee salmon, weighing all the way

from 50 to 90 pounds apiece. There is another cannery at the mouth of the Kussiloff River ten miles south of Kenai, but we did not visit it<sup>5</sup>; and

**WHEREAS**, the Kenai River and its lakes are the primary sockeye salmon producing systems in the Cook Inlet<sup>6</sup>; and

**WHEREAS**, the Kasilof River and Tustumena Lake is the second-most (sometimes the third-most) productive sockeye salmon producing system in Cook Inlet<sup>6</sup>; and

**WHEREAS**, personal use salmon fisheries are essential to the people of the Kenai Peninsula; and

**WHEREAS**, salmon sport fisheries are essential to the Kenai Peninsula economy; and

**WHEREAS**, subsistence salmon fisheries are essential for rural peoples of the Kenai Peninsula; and

**WHEREAS**, all users of salmon are dependent on abundance of salmon; and

**WHEREAS**, the Alaska Department of Fish and Game has biologists with training and proven experience in managing Upper Cook Inlet salmon stocks;

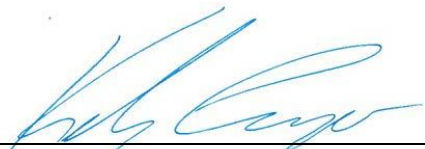

**NOW, THEREFORE, BE IT RESOLVED BY THE ASSEMBLY OF THE KENAI PENINSULA BOROUGH:**

**SECTION 1.** To urge the Board of Fisheries of the State of Alaska to base the setting of escapement goals and management strategies for Upper Cook Inlet salmon stocks on the advice given by Alaska Department of Fish and Game biologists.

**SECTION 2.** The clerk shall provide a copy of this resolution to Michael R. Dunleavy, Governor, Doug Vencent-Lang, Commissioner, Alaska Department of Fish & Game, Reed Morisky, Chair, Alaska Board of Fisheries, and all other Alaska Board of Fisheries Members.

**SECTION 3.** That this resolution shall become effective immediately upon its adoption.

**ADOPTED BY THE ASSEMBLY OF THE KENAI PENINSULA BOROUGH THIS 4TH DAY OF FEBRUARY, 2020.**
