

From Central Peninsula Advisory Committee

Proposal 150 - Amended wording

The amended wording deletes the last sentence: "No snagging is allowed."

After discussions with enforcement it was determined that having the wording "No snagging is allowed." would be hard to enforce. Therefore we are dropping that sentence.

The amended wording would read:

The Kenai River sockeye salmon fishery is catch and keep. Every sockeye salmon caught, up to the daily bag limit, must be kept. Once the bag limit is caught, the angler cannot fish on the Kenai River for the remainder of that day. There is no release of sockeye salmon regardless of where the sockeye salmon is hooked.
