

**Submitted at the request of Board Member Märit Carlson-Van Dort  
by the Alaska Department of Fish and Game**

February 14, 2020

Substitute language for proposal 104:

5 AAC 21.359 is amended to read:

**5 AAC 21.359. Kenai River Late-Run King Salmon Management Plan**

(a) The purposes of this management plan are to ensure an adequate escapement of late-run king salmon into the Kenai River system and to provide management guidelines to the department. The department shall manage the late-run Kenai River king salmon stocks primarily for sport and guided sport uses in order to provide the sport and guided sport fishermen with a reasonable opportunity to harvest these salmon resources over the entire run, as measured by the frequency or inriver restrictions. **Beginning June 20 through August 15, the provisions of this management plan are in effect.**

(b) The department shall manage the late run of Kenai River king salmon to achieve **an optimal** [A SUSTAINABLE] escapement goal of **15,000 – 30,000** [13,500 - 27,000] king salmon 75 cm mid eye to tail fork and longer as described in this section.

(c) In the sport fishery,

(1) if the **optimal** [SUSTAINABLE] escapement goal is projected to be exceeded, the commissioner may, by emergency order, extend the sport fishing season up to seven days during the first week of August;

(2) from July 1 through July 31, a person may not use more than one single hook in the Kenai River downstream from an ADF&G regulatory marker located at the outlet of Skilak Lake;

(3) that portion of the Kenai River downstream from an ADF&G regulatory marker located at the outlet of Skilak Lake is open to unguided sport fishing from a nonmotorized vessel on Mondays in July; for purposes of this paragraph, a nonmotorized vessel is one that does not have a motor on board.

(d) If the projected late-run king salmon escapement is less than **15,000** [13,500] king salmon 75 cm mid eye to tail fork and longer, the department shall

(1) close the sport fisheries in the Kenai River and in the salt waters of Cook Inlet north of the latitude of Bluff Point to the taking of king salmon;

(2) close the commercial drift gillnet fishery in the Central District within one mile of the Kenai Peninsula shoreline north of the Kenai River and within one and one-half miles of the Kenai Peninsula shoreline south of the Kenai River; and

(3) close the commercial set gillnet fishery in the Upper Subdistrict of the Central District.

(e) In order to achieve the **optimal** [SUSTAINABLE] escapement goal and provide reasonable harvest opportunity, the commissioner may, by emergency order, establish fishing seasons as follows:

(1) in the Kenai River sport fishery,

(A) the use of bait is prohibited; [OR]

**(B) the use of bait is prohibited and retention of king salmon 36 inches or greater is prohibited; or**

**(C)** the use of bait and retention of king salmon are prohibited;

(2) in the Kenai River personal use fishery, if the use of bait is prohibited in the Kenai River sport fishery under (1) of this subsection, the retention of king salmon is prohibited in the personal use fishery;

(3) in the Upper Subdistrict set gillnet commercial fishery, [EXCLUDING THE EAST FORELAND SECTION,] notwithstanding the provisions of 5 AAC 21.360(c)(1)(B), (2)(B), and (3)(B), based on the abundance of sockeye salmon returning to the Kenai and Kasilof Rivers,

(A) if the use of bait is prohibited in the Kenai River sport fishery under (1)(A) of this subsection, commercial fishing periods are open for no more than 48 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday; [DURING WHICH THE NUMBER OF SET GILLNETS OPERATED MAY ALSO BE RESTRICTED TO EITHER

(i) FOUR SET GILLNETS THAT ARE EACH NOT MORE THAN 35 FATHOMS IN LENGTH, 105 FATHOMS IN AGGREGATE LENGTH, AND 29 MESHES IN DEPTH, OR TWO SET GILLNETS THAT ARE EACH NOT MORE THAN 35 FATHOMS IN LENGTH AND 45

MESHES IN DEPTH; SET GILLNETS USED THAT ARE NOT MORE THAN 29 MESHES IN DEPTH MUST BE IDENTIFIED AT THE END OF THE GILLNET WITH AN ATTACHED BLUE BUOY THAT IS NOT LESS THAN NINE AND ONE-HALF INCHES IN DIAMETER; OR

(ii) TWO SET GILLNETS THAT ARE EACH NOT MORE THAN 35 FATHOMS IN LENGTH AND 29 MESHES IN DEPTH OR ONE SET GILLNET THAT IS NOT MORE THAN 35 FATHOMS IN LENGTH AND 45 MESHES IN DEPTH; SET GILLNETS USED THAT ARE NOT MORE THAN 29 MESHES IN DEPTH MUST BE IDENTIFIED AT THE END OF THE GILLNET WITH AN ATTACHED BLUE BUOY THAT IS NOT LESS THAN NINE AND ONE-HALF INCHES IN DIAMETER; OR]

**(B) if the use of bait and the retention of king salmon greater than 36 inches in length is prohibited in the Kenai River sport fishery under (1)(B) of this subsection, commercial fishing periods are open for no more than 36 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday;**

**(C) if the use of bait and the retention of king salmon are prohibited in the Kenai River sport fishery under (1)(C) [(1)(B)] of this subsection, commercial fishing periods are open for no more than 24 hours per week, with a 36-hour continuous closure per week beginning between 7:00 p.m. Thursday and 7:00 a.m. Friday;[.]**

**(D) if preseason restrictions are issued for the late-run Kenai River king salmon sport fishery then all Upper Subdistrict set gillnet fisheries are restricted;**

**(E) if restrictions for the late-run Kenai River king salmon sport fishery are in effect on July 31, then beginning August 1, Upper Subdistrict set gillnet commercial fishing periods are open for no more than 36 hours per week. if the Kenai River late-run king salmon is not restricted under the provisions of this section, the Upper Subdistrict set gillnet fishery will be managed under provisions in 5 AAC 21.360 Kenai River late-run Sockeye Salmon Management Plan;**

**(F) if restrictions for the late-run Kenai River king salmon sport fishery are in effect Upper Subdistrict set gillnet commercial fishing periods within 600 feet of the mean high tide mark are exempt from hour limitations identified under (1)(A)-(C) of this subsection;**

**(G) if commercial fishing is limited under any of the subparagraphs listed in (e)(3) of this section the operation of setnets operated by a CFEC permit holder shall be restricted to:**

**(i) up to four set gillnets that are each not more than 35 fathoms in length, 105 fathoms in aggregate length, and 29 meshes in depth, or two set gillnets that are each not more than 35 fathoms in length and 45 meshes in depth; set gillnets used that are not more than 29 meshes in depth must be identified at the end of the gillnet with an attached blue buoy that is not less than nine and one-half inches in diameter; or**

**(ii) up to two set gillnets that are each not more than 35 fathoms in length and 29 meshes in depth or one set gillnet that is not more than 35 fathoms in length and 45 meshes in depth; set gillnets used that are not more than 29 meshes in depth must be identified at the end of the gillnet with an attached blue buoy that is not less than nine and one-half inches in diameter;**

(f) Repealed 6/8/2017;

(g) Repealed 6/8/2017;

(h) The provisions of this section do not apply to provisions of the Kasilof River Salmon Management Plan contained in 5 AAC 21.365(f) that pertain to the Kasilof Special Harvest Area.

(i) The department will, to the extent practicable, conduct habitat assessments on a schedule that conforms to the Board of Fisheries (board) triennial meeting cycle. If the assessments demonstrate a net loss of riparian habitat caused by noncommercial fishermen, the department is requested to report those findings to the board and submit proposals to the board for appropriate modification of this plan.

(j) The commissioner may depart from the provisions of the management plan under this section as provided in 5 AAC 21.363(e).
