

RC- 174

Submitted by Kenai River Sportfishing Association:

In light of the Kenai River Sockeye Goal modifications passed by this board under Proposal 88 (as modified), Kenai River Sportfishing Association (KRSA) would like to amend our statements submitted to the Board under PC-072 in reference to our conceptual support for Proposal 158.

KRSA would like to register our opposition to Proposal 158. This proposal, when considered alongside Proposal 156, would lead to increased regulatory complexity and uncertainty amongst the guided public.
