Subject: Copper Basin AC Comments not recognized
Date: Friday, December 3, 2021 9:03:41 AM

The Copper Basin Advisory Committee has submitted its comments on time and were lost in the staff turnover. These comments were not considered in the review of Proposal 8. The CB AC offered an amendment and named specific tributaries.

Also, the AC's were not given the attention they deserve but, just treated the same as the public comments. The Copper River/Prince William Sound AC and the Copper Basin AC have jurisdiction on the Copper River and should have at least been considered in the deliberations on these proposals.

Karen Linnell, Vice Chair
Copper Basin AC
