

Madame Chair and Honorable Board Members:

On the afternoon of December 1, 2022, a group of sport fish users came together to attempt to come to consensus on some of the proposals before you. As a result, we were able to come to consensus on some issues. Present at the meeting were:

Joe Kluttsch
Heath Lyon
Patricia Edel
Justin Crump
Jim Johnson
Brian Kraft
Nanci Morris Lyon (author of this RC)

Proposals 24 & 25:

We all agreed the number large kings included in the yearly bag limit should be reduced. We were unable to come to agreement on if that number should be 2 or 3, so in response we agree that the proposals should be combined and now read:

Reduce king salmon bag and possession limits to 2.5 fish over 28 inches 2 or 3 fish between 20 and 28 inches with a seasonal bag limit of 5 total fish and no change on the daily limit of 1 fish over 28 inches and 2 fish between 20 and 28 inches.

Proposal 27

Season limit for all sport anglers for silver salmon should be 15 fish. The group as a whole felt the limit should be applied area wide, however understand that this may have to wait for our next board cycle to fulfill the public notice requirement.

Proposal 30

The original author of this proposal will be sending in a separate RC on the agreement that we were able to reach on this proposal.
