

Edgar Smith Area M Setnet

As a setnetter in Area M, I support proposal 145, to extend the two day openings in July to end at 10:00 pm instead of 6:00pm. These few hours would create value to the opening. With expenses at all time high, staying on the fishing grounds, and fishing, offset expenses and will put value in the opening. I also stated it would ease the stress of operating as a setnetter on the last day of the opening by adding these 4 hours.
