RE: Proposals Reducing Time and Area in Area M – North Peninsula

Madam Chair, Board and Staff,

Peter Pan Seafood Co, LLC is opposed to any proposal that significantly reduces the sockeye harvest on the North Peninsula of Area M.

If Regulation is put in place that significantly reduces the overall sockeye harvest on the North Peninsula. Peter Pan Seafood Company's Port Moller facility would be forced into a 'net loss' situation, and would not be able to operate the Port Moller Processing Facility as it has operated, and supported regional needs for many historic decades.

Thank you,

Jon Hickman

President

Peter Pan Seafood Co, LLC
