

**PROPOSAL 145**

**5 AAC 09.366. Post-June Salmon Management Plan for the South Alaska Peninsula.**

Amend the *Post-June Salmon Management Plan for the South Alaska Peninsula* to increase commercial salmon fishing time in the South Alaska Peninsula, as follows:

(d) Notwithstanding (c)(1) of this section, from July 6 through July 31, the commissioner may establish, by emergency order, fishing periods as follows:

(1) the first fishing period will begin at 6:00 a.m. and run 33 hours until 3:00 p.m. the following day; commercial fishing will then close for 63 hours and reopen under (2) of this subsection;

(2) following the closure under (1) of this subsection, commercial fishing periods will begin at 6:00 a.m. and close at **10:00 p.m.** [6:00 P.M.] the following day; commercial fishing will then close for **54 hours** [60 HOURS] and reopen at 6:00 a.m. three days later.

**What is the issue you would like the board to address and why?** Recent closures in June and July due to immature salmon numbers and/or declines in salmon runs in the surrounding areas have limited fishing time for the Alaska Peninsula fleet. Increasing July fishing opportunity by four hours per opening would provide stability to the fleet and region without the risk of harming local and migratory runs. Adjust the Post-June Salmon Management plan as follows: Starting July 10th, commercial fishing periods will begin at 6:00 a.m. and close at 10:00 p.m. the following day; commercial fishing will then close for 56 hours and reopen at 6:00 a.m. three days later. This regulation change would increase July openings after the 10th by four hours, from 36 hours, to 40 hours, whilst still providing adequate closures between openings of 56 hours.

**PROPOSED BY:** Julian Manos
