

PROPOSAL 46

5 AAC 06.333. Requirement and specifications for use of 200 fathoms of drift gillnet in Bristol Bay.

Allow permit stacking in the Bristol Bay commercial salmon drift gillnet fishery, as follows:

The regulation would allow an individual to own and operate two permits on one vessel in the Bristol Bay drift fishery. S03T permits

What is the issue you would like the board to address and why? With the ability to fish a "D" permit in Bristol Bay, Ak for the commercial drift fleet, it seems odd that a boat owner cannot own and fish both permits. I feel you should be able to own and fish both permits on one vessel. As a young small business owner it would allow me to grow my business and make a larger profit to share with my crew and local community.
