

Support for 157

My name is Dan Norman.

I Support Proposal 157 to allow an individual to fish in multiple areas around the State.

As an Active Duty Soldier I can't always participate in a specific area.

This proposal would allow me to go to an area where I can fish and provide for my family

I recently bought a Bristol Bay Draft permit after the continued Cook Inlet closures. My wife, daughter, and son all all Cook Inlet select permit holders I'd like to have a chance to fish Bristol Bay and Cook Inlet.

Thank You

Dan Norman
