Through the Alaska Board of Fisheries (board) Charge Statement 2024-304-FB, the board and the Alaska Commercial Fisheries Entry Commission (commission) formed a joint committee to review the commercial herring industry statewide. The review will focus on current and potential markets, differences among Alaska's regional herring fisheries, and potential legal pathways to resolve changes to regulatory systems. Through information gained by the committee, both the board and commission may independently consider governance changes to improve the Alaska herring industry.

The committee is holding its third meeting on October 31, 2024, at 9:00-11am. The meeting will be held via web conference.
