

My name is Marcy Albrecht, I am from Alpine, Utah.

Thank you for the opportunity to come and voice my concerns regarding my passion for fishing in Cordova.

I represent myself and a host of other silent sport fisherwomen. I have been Coming to Cordova for over 10 years. I Would love to consider myself a regular. I have supported many of your local businesses during my fishing adventures. During my once in a lifetime annual fishing trips. Changes to Cordova have been amazing to watch. I have seen new beautiful buildings being erected to enhance my stay as well as many other people coming to fish. I have now seen a few of the coho salmon life cycles. I have seen the rise and decline of those life cycles. Due to drought and to the lack of fish being allowed to come up the Eyak and Ibeck rivers that I love to fish. When 2 - 36 hour openers have occurred during my week stay, I have looked elsewhere to enjoy my fishing experience. Those areas are now in proposals to be closed during my stay in Cordova. Leaving me no place to fish or enjoy casting my line in hopes of getting any kind of fish to take home for my family. The lack of Fish in the Eyak truly needs to be addressed.

To the biologist and board members, thank you for doing such a good job in maintaining the fisheries. I want to compliment you.

This last year fishermen came from other areas of alaska because they were closed, Cordova was open. and being the only place for sports fishermen to fish. It was crowded because the Eyak and Ibeck had no fish in them due to the 2 -36 hour openers. Forcing us to venture out in other areas to fish as I had to do. We have made a decision to come later in the year, to avoid the crowds of fishermen and avoid combat fishing.

If these proposals are approved, my support of this Beautiful city of Cordova will come to a halt. Please give me a reason to return year after year and please reject these 3 proposals of #86,87,&,88.

I speak on behalf of not only for myself but for the other 4 women that were part of our group.

Please.....

Give us a reason to come back.
