**RE:** Resolution Support Letter to Extend Caribou Season

The City of New Stuyahok supports the Extension Resolution for Caribou season. As you know with the high cost of fuel, gas is at \$6.34 per gallon and heating fuel is at \$7.14 per gallon delivered. Due to these high cost for fuel, people have had to make hard decision on what they need to do to support their family, Food verses Heat. Due to the economy as it is most of the community is devastated with supporting their family with food and heat.. The caribou are now just showing up around Levelock area. Most of the people cannot afford enough fuel to travel. But as the Caribou work their way closer to our community people would be able to afford to hunt, and or work together in purchasing fuel between them selves to hunt together for a common goal to (FEED THEIR FAMILIES)

Sincerely 

Randal A. Hastings  
Mayor of the City of New Stuyahok
