

Dear BOG,

I am hoping at last that you finally include non hunters and trappers by passing proposals 105 and 86.

**Prop 105:** Bears have cultural, economic and biological importance to Alaskans. Bear snaring is archaic, cruel and should be banned. Living bears have a very high value as a tourism draw and a source of revenue.

They are almost always cited as one of the "big three" species visitors come to Alaska to see.

**Prop 86:** *Your* quick, unanimous refusal to even consider to rescind a six year moratorium on submitting proposals to re-establish a Denali buffer zone was an absolute disgrace.

Please pass both 105 and 86!!

Sincerely,

Susan Vogt
