The Division of Corporations, Business and Professional Licensing uses the North American Industry Classification System (NAICS) to determine business activity. You must choose a NAICS code for your business in order to receive a business license in the State of Alaska.

The first two digits of the NAICS code determine the line of business; the following four digits describe the activities within the line of business. Choose the NAICS code that best describes your line of business and business activities. You may choose a secondary NAICS code but it must fall under the same line of business as your primary NAICS code. If your business works in more than one line of business, you will need more than one business license. The line of business assigned to a business license cannot be changed. To change your line of business you must purchase a new business license.

NAICS codes listed in *italicized, bold print* may require professional licensing. If the NAICS code you have chosen falls within a regulated profession a business license cannot be issued unless you are able to provide a current professional license number that has been issued by the Division of Corporations, Business and Professional Licensing. Contact the Division for more information.

NAICS codes identifying the selling of tobacco or tobacco products are also listed in *italicized, bold print* in the NAICS code list. The sale of tobacco or tobacco products requires a Tobacco Endorsement. Contact the Division for more information.

The State of Alaska uses codes established by the Federal U.S. Census Bureau. For a detailed description of your business activity you can search the Federal code list by key words or code numbers: http://www.census.gov/naics/2007/NAICOD07.HTM

Please be aware, not all codes established by the U.S. Census Bureau are included in the Alaska NAICS Code list, if you are unable to find your business activity please contact the Division for more information.

Select the code that best matches your business activity. Listings are arranged by type of industry. If the code is in *italicized, bold print*, you may be required to obtain a professional license before a business license can be issued.
