966. Akemi Fukuyoshi	HongKong, Hong Kong	
967. Courtney Johnson	Petersburg, AK	
968. Chelsea Smith	petersburg, AK	We are raising family and are building our home out of pocket. One of our greatest desires is to raise sheep for their milk. Our son has health issues and when given raw milk he finds relief. We have gone to the lengths of flying to california to purchase raw milk; which we cannot afford on a regular basis. Because it helps our child we plan on raising sheep to help him. It would be a great harm to our family if we were prohibited from doing so.
969. Grey Wolfe	Seattle, WA	I have friends who have farms and they should be able to use their land and not have to spend money on frivolous test just because someone wants to have Wild Sheep all of a sudden being a protected species. All the farmers I know love their animals and keep them safe and healthy.

1,090. Deborah D Freeman	Anchorage, AK	
1,091. Danika-rae Smalley	Wrangell, AK	
1,092. Claire Miller	Anchorage, AK	If this prop passes, I'm sure I'll have to give up my beloved sheep, who already receives vet care and will never see a wild dall sheep in all likely hood. Pretty sure that licensing fees and having to redo the fencing in my yard and whatever testing they decide I need to pay for would break my budget. Having friends who farm Sheep and Goats, who I purchase goat milk from, I know the impact would devastate them as well. Considering we already had a food shortage this winter from the port shipments, it's just asinine how our government keeps going after the farming industry. First talks of shutting down the only USDA approved slaughter house (funded mostly by local farmers and not the state) and now this? It's like they want us to suffer if shipping things up to us go awry again.
1,093. Jessica Warner	Anchorage, AK	
1,094. Tracie East	Wasilla, AK	
1,095. Kelsey Chatski	Chugiak, AK

Name	From	Comments
1,097. Amanda Christ	Eagle River, AK	
1,098. Lindsey Braach	Palmer, AK	My family relies on the milk from Cottonwood Creek goats to nourish our bodies. We trust the source and would be devastated if this service were to be reduced or taken away.
1,099. Loyal Bouaoun	Saint Louis, MO	
1,100. Jessica Bush	Anchorage, AK	I Have domestic sheep, that I shear for wool. It is a huge part of my living. To have an outside organization try to force laws on to local farmer or owners of domestic sheep or goats is ridiculous. We are already in the middle of a recession. This will do more harm on the Alaskan people that depend on sheep or goats or already invested thousands to own one as a family member. This will just cause more people into looking to move to another state and harming our economic strain we already have more.
1,101. Lynette Tankersley	Soldotna, AK	. There are a number of problems with the premises and requirements of Proposal 90, and enactment of this extreme and unnecessary set of costly requirements (both to individuals domestic sheep and goat owners, and to the State of Alaska) would place extreme hardship on all Alaskan sheep and goat owners. There are no commercial goat or sheep operations in Alaska, and Alaska's owners of domestic goat and sheep generally own only a few sheep or goats on small fenced acreage, on a small personal budget, located far from wild sheep habitat. Satisfying Proposal 90's requirements for double fencing, testing, and permitting is completely unreasonable, financially burdensome, and unnecessary. All owners would be hit hard by the inability to import new genetics, as animals not on the "Clean List" may not be imported. Consequences for non-compliance with any of the new rules would include fines and eradication of livestock. For many owners their sheep and goats are not just producers of wool, milk or meat, but are their life's passion and beloved family pets or children's 4-H projects. It's not just about the owners' animals, it's about the freedom as taxpaying landowners to use their land to grow their own food. Please do not pursue Prop 90!!
1,102. Alicia Anderson	Fairbanks, AK	
1,103. Cherie Northon	Anchorage, AK	Alaska needs local farms and ranches and for them to be supported--not penalized. There are many more pressing issues to deal with, I'm sure.
1,104. Hayle Kurka	Palmer, AK	
1,105. Nina Røstad	Saupstad, Norway

1,113. Jennifer Hurlbutt	Ketchikan, AK	
1,114. Mark Boisselle	Wasilla, AK	
1,115. Maia Siegel	Wasilla, AK	This proposal is just one of many ways that Alaska's already miniscule agricultural industry is under fire. As a young farmer, and a member of both 4-H and FFA, this proposal will completely stop me from earning a living here in Alaska. As simple as the proposal sounds "removing domestic sheep and goats from the clean list" the actual impact is very, very severe. To boot, our state is facing a huge deficit and can in no way afford to send out inspectors, disease test, or destroy and dispose of animals. All in all this proposal is unnecessary and should NOT even be considered, let alone enacted.
1,116. Sharon White	Chugiak, AK	Be reasonable and fair to the farmers! This is not a good proposition for Alaskans.
1,117. Loretta Homan	Chugiak, AK	Most farmers take excellent care of their animals including vaccines to prevent the spread of diseases. The health of their animals are most important to an owner. The lower 48 states may have a problem but in the 50 plus years that I have lived in AK I have never heard of wild sheep or goats infected by domesticated animals.
1,118. Debora Fouser	Homer, AK

1,152. Stephen Bequette	Wasilla, AK	<i>(continued from previous page)</i> power grab just because they have money and more of a voice than us little guys that just want to be left alone as long as we do no harm. I guess freedom is not free.
1,153. Joseph ONeil	Anchorage, AK	
1,154. Amy Seitz	Soldotna, AK	
1,155. Mike Pendergrast	Wasilla, AK	Please help up protect our goats
1,156. Brandon Thomas	Petersburg, AK	
1,157. ALASKA FARMERS UNION	Palmer, AK	The Alaska Farmers Union believes that the proposal brought forth is not in the best interests of the board of game or the survivability of wild sheep and goats. Issues that effect any sheep/goats are at issues not matter if the animals are owned by individuals or the state. We are all in this together and request the BOG not accept this kind of approach and work with others including the agricultural community when addressing the safety of animals.
1,158. Sylvia Hoyman	Palmer, AK	
1,159. sammy taylor	big lake, AK	This proposal 90 to the Board of Game does not consider all ramifications and has no biological justification..
1,160. KENDRA MCLEAN	WASILLA, AK	Prop 90 and Prop 91 will be a hardship for Alaskan privately owned livestock. Alaska's wild sheep are precious but there is no hard data that private livestock is a cause of any issues with wild sheep. A double approved fence, Government approved clean list, private owned permits and certifications is an over reach. Where would the funds come from to make all of the proposals possible? How far would the private livestock have to be moved for testing, certifications and permits? Whose to say this won't reach into other species of live stock? When will the over reach begin and end? I know my answer is NO. We are allowed the freedom to raise our own food, feed and to sell. It is really important being so dependent on the infrastructure of shipping that is easily interrupted. Alaskan's would starve. Many who can't afford to wait on broken infra rely on local meat, milk etc.
1,161. Jana Doten-Ferguson	Douglas, AK	
1,162. Wanda Wilson	Aniak, AK	
1,163. julia fleshman	Palmer, AK	
1,164. Jennifer Monnin	Palmer, AK	Alaska friends! Protect your rights and rights of others!
1,165. Luetta Robinson	Talkeetna, AK	It is important to support the good things in our state. 4H children, their families, small farmers, livestock owners, and low income families would all be negatively effected by Propositions 60 and 61. Don't let deep pocket lobbyist, make changes that affect the greater Alaskan citizens. <i>(continues on next page)</i>

Name	From	Comments
1,165. Luetta Robinson	Talkeetna, AK	<i>(continued from previous page)</i> There is NO verifiable research or data to substantiate a connection between domestic livestock and our beloved Dall Sheep herds. Let's keep Alaska free of over legislation.
1,166. John Minard	Eugene, OR

1,354. Ann Kreger	Wasilla, AK	Alaska has a fragile sustainable agriculture situation. To undermine it with passage of either Prop 90 and/or Prop 91 would result in fewer domestic animals to feed our population, less fleece or hides for our artisans...all to pander to a supposed problem. Healthy livestock (and our livestock IS healthy) does not impact our native wild game population. A few guides are acting VERY MIS-GUIDED in their proposal to the Board of Game. Please defeat both Prop 90 and 91.

1,358. Linda Knott	Willow, AK	quit giving into big lobby interests. Hunting is important in Alaska, but food security is even more important. I remember the winter many years ago where nothing was flying for about 2 weeks (100 degree below windchill standing temp in the -50) and many of the store shelves in outlying areas were bare. It would only take a disruption in the air and land transportation and people in Alaska would decimate the wildlife to feed their families. We should be encouraging more raising of animals not less. The studies done in Canada that the risk was mainly when domestic animals ie goats and sheep were brought in to the wild habitat. I have goats. We drink the milk, I make cheese from them, we eat the meat. What you are proposing would place a burden on me and my family. My animals do not go anywhere near wild sheep or goats. but saying 15 airmiles would affect me and mine. Do not put me in the position of having to choose the law versus feeding my family. How many of the Wild sheep foundation are actually Alaskans? How many of them are outsiders with lots of money. My husband is an avid hunter originally from Canada. They opted to use elevation of the terrain and not miles to determine where domestic sheep and goats could not be raised. QUIT TREATING ALASKA AS A GREAT BIG PARK. PEOPLE LIVE HERE FARM HERE AND NEED FOOD SECURITY. MOST ALASKANS DO NOT USE THE WILD SHEEP AND GOAT FOR FOOD IF THEY DID THERE WOULDNT BE ANY LEFT. I Have lived in Alaska close to half a century.
