Dear BOG,

I am writing to ask that you oppose Proposition 90 and please do not allow the two year implementation as suggested by the WSF's Kevin Kehoe. As written the proposal is flawed and far too vague, with too many unanswered provisions included. Don't pass a flawed proposal that is based on poor public process and lack of involvement of all the stakeholders. Don't pass a proposal that leaves too many issues and requirements unanswered.

Thank you for your time and consideration on this matter.

Christina Miller
