Re: Proposal 92 - 5 AAC 92.037 Permits for falconry. Modify the allocation provisions for nonresident falconry permits.

My name is Laura Hazelett. I am a licensed falconer, and I was born in Fairbanks, Alaska. I am writing at this time to support the American Falconry Conservancy proposal to increase non-resident falconry take in Alaska.

Reciprocal take is good for the citizens of Alaska and other states where falconry is a legal hunting endeavor and it is enjoyed by a very small group of practitioners across the country. It would be a good move for people like myself who have Alaska in their heart and soul, and it is certainly supported by the science and biology that the resource is healthy enough to sustain this practice.

Thank you for your consideration of these comments.

Sincerely,

Laura Hazelett
