

PROPOSAL 115

5 AAC 85.055. Hunting seasons and bag limits for Dall sheep.

Establish a separate Dall sheep drawing for second degree of kindred hunters in Unit 14C as follows:

Recommended Solution: Have a separate second degree of kindred (2DK) drawing for sheep tags in Unit 14C (DS300s series). Allow one additional hunt for the Northwest Unit – Dates: August 10 – September 17, one additional hunt for the Southwest Unit – Dates: August 10 – September 17, and one additional hunt for Unit 14C West bow hunt – Dates: October 1–10. These hunts would only be available for nonresident 2DK hunters. The remainder of the Unit 14C nonresident sheep tags would be applied for by nonresident hunters that have a guide-client agreement with a qualified guide.

What is the issue you would like the board to address and why? The increased number of 2DK hunters drawing nonresident sheep tags in Unit 14C. Also, the requirement that the relative accompany the 2DK nonresident in the field.
